

Luedtke Opposes Exon's Cigarette Tax Plan

By DON WALTON
Star Staff Writer

Sen. Roland Luedtke of Lincoln Monday said he is ready to accept a compromise on the use of funds generated by the 1971 cigarette tax increase.

But he won't agree to Gov. J. James Exon's proposal to transfer nearly all of the revenue into the state's general fund, Luedtke said.

"If there is going to be a compromise," the sponsor of the cigarette tax hike said, "it should be to use the money for bond financing of a new coliseum and to create a capital construction fund controlled by the Legislature."

"I'm more interested in that kind of a compromise," Luedtke said.

In presenting a proposed 1972-73 budget tailored to continuation of current sales and income tax rates, Exon urged the Legislature to unlock the earmarking of cigarette tax funds to finance priority construction projects and limited personal property tax exemptions. (See Page 11.)

Sacrificed in such a move — or at least delayed — would be the proposed new state office building funded by a portion of the cigarette tax boost.

The five-cent-a-pack tax hike produces about \$7 million a year, and will have raised about \$16 million in new revenue by the end of the 1972-73 fiscal year.

Exon proposed that the Legislature dip into that pot to provide \$2.4 million in annual bond financing to build a new University of Nebraska fieldhouse, then allocate the remainder to priority projects.

In suggesting that approach, the governor listed 15 possible priorities, land acquisition or remodeling needs at 20 institutions, three proposed new facilities and planning funds for eight priority projects.

"I consider that blackmail of the Legislature," Luedtke said.

"All he did was name a bunch of projects like carrots on a stick with no suggestion as to priority, cost

or when they should be provided with money."

Luedtke said he is "glad the governor now supports the coliseum (fieldhouse) and the theory of bond financing."

Bond financing of the fieldhouse can be accomplished by utilizing 2½ cents or less of the five-cent tax increase, Luedtke said.

"The remaining 2½ cents could go into a capital construction fund with the Legislature determining priorities."

"My first priority would be construction of the state office building."

Both Exon and Luedtke agreed that the \$695,000 appropriated from the cigarette tax hike in 1971 for construction of a recreation center at the Beatrice State Home for the mentally retarded should continue to be devoted to that purpose.

Sen. Jules Burbach of Crofton served notice that he will join Luedtke in supporting continued funding for a state office building.

In other reaction to Exon's budget address, Sen. Richard Marvel of Hastings took issue with the governor's strong pitch for more administrative flexibility in budgeting.

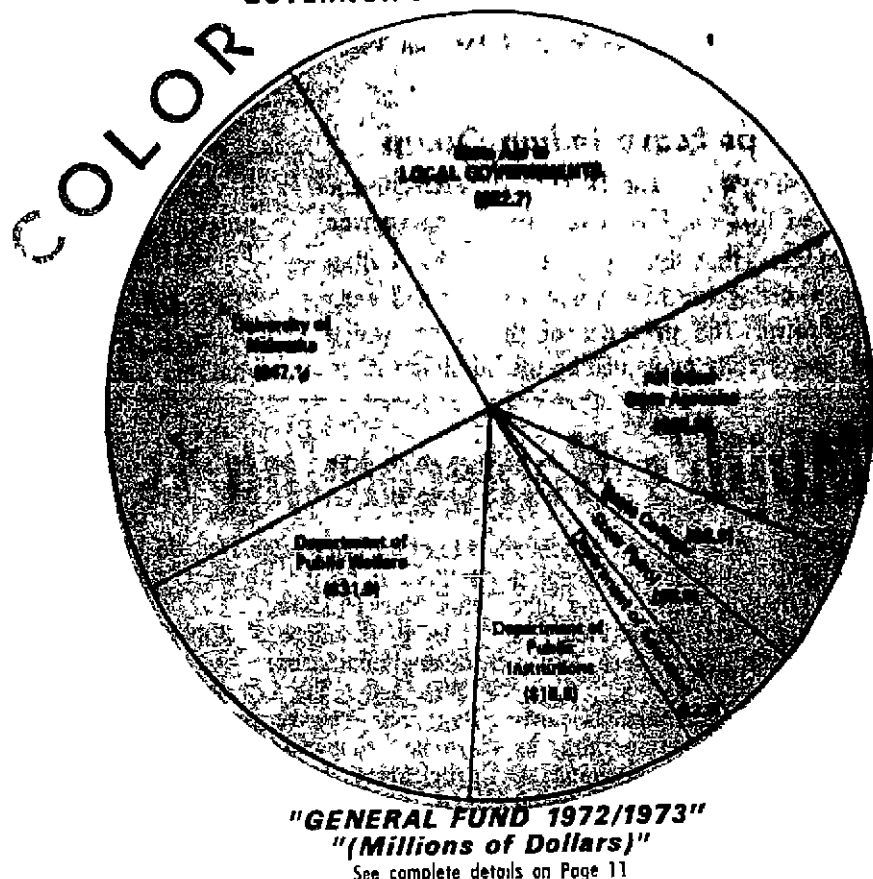

"What he is asking for is lump sum budgeting," the Appropriations Committee chairman said.

"May I respectfully suggest," Exon had earlier declared, "that the legislative budget-making function is to review, appropriate, and establish broad guidelines as opposed to the assumption of administrative functions and decisions in both higher education and in the executive branch."

Already reportedly in the works is an effort by some Appropriations Committee members to loosen the strings on funds appropriated to the University of Nebraska.

A bid to provide NU with more flexibility in its operational budget may be undertaken in executive session following the committee's 1:30 p.m. hearing Tuesday on NU's capital construction requests.

"GOVERNOR'S RECOMMENDATION"

Four Die In Exchange Of Shots

TO GO TO PEOPLE . . .

Humphrey Wants U.S. Out Of War

By The Associated Press

Sen. Hubert H. Humphrey declared his candidacy for the White House on Monday and said this race will be different because I am prepared to take this campaign directly to the people carrying no one else's burdens.

Humphrey said it wasn't that way four years ago when as vice president to former president Lyndon B. Johnson, he won the Democratic nomination but lost the election to President Nixon.

The Minnesota senator went to Philadelphia to sign papers entering the April 23 Pennsylvania primary, then flew to Tallahassee, Fla., to begin campaigning for Florida's March 14 contest.

"The people of this state will be the first to judge my fitness for the high office that I seek," Humphrey told a news conference in Tallahassee. He said he expects to do well on the crowded Florida ballot where he is likely to face at least eight Democratic rivals.

Urged Withdrawal

As Humphrey began again a campaign for the presidency, he urged total U.S. withdrawal from the war in South Vietnam. He said the issue that plagued him through the losing campaign of 1968.

"There were presidents who thought it was to our advantage

to be involved," he said. "I think it's to our advantage to be out, and the sooner the better."

In Philadelphia the 60-year-old senator, who lost to John F. Kennedy in a bid for the 1960 Democratic presidential nomination, said America needs leadership and vision renewed faith in itself.

'Rebuild Cities'

He added, "A nation that developed a Marshall plan to rebuild Europe can develop another to rebuild our neighborhoods and crime-ridden cities. Our task is reconciliation, rebuilding and rebirth."

In Tallahassee, Humphrey said the chief difference between this campaign and his last one is the fact that a Republican is in the White House, "that there is an administration that has ignored the needs of the people."

"There's another difference myself," he said. "Namely, I am prepared to take this campaign directly to the people speaking candidly, frankly and openly laying before the people my program as I see it."

He said he tried to wage such a campaign four years ago, but "I guess the static" of the tumultuous campaign year prevented it. There are more clear channels today.

Two Blacks, Two Deputies Killed In Louisiana Capital

. . . City Officials Blame Chicago Black Muslims

Baton Rouge, La. (AP) — Two sheriff's deputies and two Negro demonstrators died Monday when a gun battle broke out during a confrontation that city officials blamed on Black Muslims from Chicago.

About 800 National Guardsmen were activated after the shooting to help keep order, and the city was placed under curfew.

The gunfire broke out about noon after young blacks had blocked off a city street in a Negro neighborhood, using cars with out-of-state licenses. They told residents, "We're here to give you your city back."

By nightfall the streets of Baton Rouge were deserted and almost all stores and restaurants were closed. However, Louisiana National Guardsmen were posted to guard gun stores and about 100 Guardsmen were on duty in front of the City Hall. Most of the other Guardsmen were standing by.

25 Treated For Injuries

A check of hospitals showed about 25 persons treated for injuries, including several high-ranking policemen and two newsmen. Police Chief Eddie Bauer was among the injured.

The dead deputies were Ralph Hancock and Dwayne Wilder, both white. One slain black was identified tentatively as Thomas David of Chicago. The other dead black had no identification on him.

One other policeman was listed in critical condition after being taken to a hospital by officers who thought he was dead.

A newsmen, Bob Johnson of WBRZ-TV, was also in serious condition suffering what was described as massive head injuries.

A black newsmen at the scene said the first shots came from

a group of young blacks, but Police Capt. Brian Clemmons said a deputy beside him fired the first shot after a black man pulled a gun.

Muslims Arrested

Mayor W. W. Woodruff said the incident apparently stemmed from the arrest last week of two or three Muslims, taken into custody for allegedly soliciting funds without a license.

He said, "The people who started this were from Chicago. They were able to get some militants like any other community has, to side with them. This was a useless thing. These so-called Black Muslims were out to cause chaos, and that's all."

Dumas conferred with Gov. John McKeithen and Parish (county) officials and imposed

Local Woman Suffers Burns In Home Blaze

A Lincoln woman received third degree burns on her right hand while attempting to extinguish a fire in her home late Monday morning, according to District Fire Chief Gene Fenner.

The woman, Betty Garrett, of 1109 Butler, was admitted to Bryan Memorial Hospital. Hospital officials said she was listed in "good" condition.

Fenner said the fire was apparently started by the Garrett's daughter, Kristy, 7, who was playing with her mother's cigarette lighter near a clothes hamper.

The fire which was confined to the living room resulted in considerable damage to the room and its furnishings. Fenner said.

a 5:30 p.m. to 6 a.m. citywide curfew. Sale of gasoline and alcoholic beverages was banned.

Monday night's scheduled basketball game at Baton Rouge between Louisiana State University and the University of Alabama was postponed until Tuesday night.

Reed Canada, a Negro businessman, said he spotted Johnson in front of his store, "bleeding badly from the head and I saw him get hit with another bottle. He was hurt bad, real bad."

The area where the shootout occurred is about two miles southeast of Louisiana's 34-story capitol building.

Canada, who left his store as police pulled out of the area, told newsmen he didn't think the Baton Rouge black community was involved.

"I certainly don't think people in the immediate area were involved in it," he said. "Maybe one or two youngsters. I think a few outsiders started it all."

Mary Anne Raymer James Underhill

Elks Awards To Underhill, Mary Raymer

Mary Anne Raymer of Lincoln High and James Underhill of Lincoln Northeast have been chosen as the winners in the local BPOE No. 80 Youth Leadership Contest.

Miss Raymer, the daughter of Mr. and Mrs. Harold Raymer and Underhill, the son of Mr. and Mrs. James Underhill, will each receive a \$100 cash award.

Their brochures will be entered in the State Youth Leadership Contest, giving them the opportunity to compete for one of 20 awards ranging from \$125 through \$825.

Christine Suptar, daughter of Mrs. Jean Suptar and James Schultz, son of Mr. and Mrs. Duane Schultz, were chosen recipients of runner-up awards. Each will receive \$25. Miss Suptar attends Southeast High and Schultz attends East High.

Brochures containing evidence of the youth's leadership functions, citizenship, appreciation, perseverance, resourcefulness and sense of honor were evaluated by a panel of three judges.

Federal Subsidies' Cost 'At Least' \$63 Billion

Washington (UPI) — A congressional report said Monday direct and indirect government subsidies cost the American taxpayer "at least" \$63 billion a year — and no one knows what gets for the money.

The total figure, added up in a study by the staff of the House-Senate Economics Committee, amounts to more than \$308 for every man, woman and child in America and is about one-fourth of all the federal government spends each year.

But the committee defines "subsidy" broadly to include not only direct federal payments to people — such as payments to farmers to retire fertile acres — but indirect payments such as tax deductions to people who own their own homes and whose real estate taxes are deductible.

'Somewhat Out Of Control'

"The system of federal subsidies seems to be somewhat out of control in the sense that it continues to grow despite the fact that we know so little about it," the study said.

Among the little-known subsidies identified by the study is one, estimated to cost \$5.5 million in this fiscal year which goes to beekeepers and milk producers whose honey or milk is removed from the market because it was contaminated by "poisons which had been registered and approved by the federal government."

Another subsidy, a new one starting this year, is expected to cost \$10 million. It will go to owners of ponds. Its purpose is "to preserve, restore and improve the wetlands of the nation."

Another, worth \$95 million, is a special tax advantage to people or corporations whose income is made abroad.

Unlike direct federal appropriations, which get scrutinized by the administration which seeks them and the Congress which approves them, the study noted, subsidies once enacted tend to linger forever — even when the purpose for which they were created no longer exists.

This mammoth subsidy system represents a mindless means of spending taxpayers' money," said Sen. William Proxmire, D-Wis., chairman of the committee.

There is virtually no analysis of economic benefits and little analysis of the cost of these programs. Neither Congress nor the executive branch determine if alternative programs can do a better job.

The study said outright cash subsidies amount to \$10 billion to \$13 billion a year, tax subsidies amount to \$38 billion, federally subsidized loans to \$4 billion to \$5 billion and "benefit-in-kind" subsidies — such as the subsidized postal system or public housing — amount to \$10 billion.

Sometimes, the study said, subsidies work at cross purposes. Farmers get government payments or aid both to make and land useful through irrigation and to take land out of production.

Breakdown Given

The study broke the subsidies down into these broad areas:

Agriculture, \$5 billion, food subsidies for the poor or for schoolchildren \$2.5 billion, medical care, including tax deductions for some medical expenses, \$9 billion, higher education, \$3.5 billion, manpower programs, including job training, \$2.5 billion, international trade, \$1 billion, housing, \$8 billion, natural resources, including the oil depletion allowance to spur oil exploration, \$3 billion, transportation, \$1 billion, and commerce and economic development, \$20 billion.

(AP reported the study was hailed by consumer advocate Ralph Nader as a giant step toward "informing small taxpayers how much of their dollar goes toward subsidizing large corporations.")

(Nader said, "It is about time Congress got around to investigating the corporate welfare system which is draining billions of dollars every year from needed public services for all the people.")

Council, Mayor To Meet On Report

By LYNN ZERSCHLING
Star Staff Writer

The confidential report of the Human Rights Commission investigation into alleged police brutality will not be made public until after Jan. 19th — the date of a meeting between the City Council and Mayor Sam Schwartzkopf.

The date of the joint session was chosen at the Monday pre-council meeting at the request of Council member Helen Boosalis.

Councilman Bob Sikyla said, "I hate to see us wait two weeks before this report is made public."

Councilman Harry Peterson agreed that he was as anxious as anyone to see the findings of the report made public, but added, "We should give ourselves time to read and digest it."

Mrs. Boosalis commented, "It's already been held up so long anyway — a few more days won't matter."

The report covers 38 hours of private testimony conducted by the Human Rights Commission into charges leveled by Cleveland Randolph that he was brutally beaten by police officers at the County-City jail on Oct. 24th.

Peterson suggested that a

joint meeting with the commission may be required to answer questions raised by the lengthy report.

Mrs. Boosalis said she thought the report should be made public and asked Mayor Schwartzkopf when he intended to release it.

He replied that he wanted to meet with the council first since that group called for the investigation and added, "There is no problem as I see it."

City Attorney Dick Wood explained that under the municipal code the report could only be made public with the mayor's approval.

Luedtke Opposes Exon's Cigarette Tax Plan

By DON WALTON
Star Staff Writer

Sen. Roland Luedtke of Lincoln Monday said he is ready to accept a compromise on the use of funds generated by the 1971 cigarette tax increase.

But he won't agree to Gov. J. James Exon's proposal to transfer nearly all of the revenue into the state's general fund, Luedtke said.

"If there is going to be a compromise," the sponsor of the cigarette tax hike said, "it should be to use the money for bond financing of a new coliseum and to create a capital construction fund controlled by the Legislature."

"I'm more interested in that kind of a compromise," Luedtke said.

In presenting a proposed 1972-73 budget tailored to continuation of current sales and income tax rates, Exon urged the Legislature to unlock the earmarking of cigarette tax funds to finance priority construction projects and limited personal property tax exemptions. (See Page 11.)

Sacrificed in such a move — or at least delayed — would be the proposed new state office building funded by a portion of the cigarette tax boost.

The five-cent-a-pack tax hike produces about \$7 million a year, and will have raised about \$16 million in new revenue by the end of the 1972-73 fiscal year.

Exon proposed that the Legislature dip into that pot to provide \$2.4 million in annual bond financing to build a new University of Nebraska fieldhouse, then allocate the remainder to priority projects.

In suggesting that approach, the governor listed 15 possible priorities, land acquisition or remodeling needs at 20 institutions, three proposed new facilities and planning funds for eight priority projects.

"I consider that blackmail of the Legislature," Luedtke said.

Half A Million Bengalis Welcome Mujib Home

(C) New York Times News Service

Dacca, Pakistan — A triumphant welcome from half a million Bengalis greeted Sheikh Mujibur Rahman as he returned to Dacca after nine months of imprisonment. (More on Page 2.)

Warships Leave Indian Ocean

Washington — The Defense Department announced that the task force led by the carrier Enterprise that had patrolled in the Indian Ocean during the India-Pakistani war had been withdrawn. The presence of the force, which was never fully explained by the administration,

was one of the most controversial moves by the United States in connection with the war.

Unraveling Predicted

Washington — In a speech that seemed to underscore the difference between the American and Japanese China policies, the Japanese ambassador to the United States, Nobuhiko Ishihara, said President Nixon's trip to China might mean "the beginning of a process of unraveling our mutual security in the Far East."

School Merger Ordered

Richmond, Va. — A federal judge ordered that the school systems of Richmond, Va., and

those of two of its suburbs be merged next fall in order to stop a pattern of increasing segregation. The city's schools are about 70% black and those of the two suburbs are about 90% white.

Humphrey Runs Again

Philadelphia — Sen. Hubert H. Humphrey formally announced that he would seek again the Democratic presidential nomination. (More on Page 1.)

Pennsylvania Primary Potent

Washington — Seven Democratic presidential candidates, including Gov. George Wallace of Alabama and Rep. Shirley Chisholm of New York said they intended to join Sen. Eugene

J. McCarthy and Mayor John V. Lindsay as candidates in the Pennsylvania primary. With 192 delegate votes at stake and nine candidates running, the primary would become one of the most important.

Smoking May Affect Non-Smokers

Washington — A report on the health effects of cigarette smoking made public by the surgeon general said the effects of smoking may affect the non-smoker as well as the smoker. (More on Page 2.)

TV Violence Said Not Adverse

New York — Television violence has no adverse effect on the majority of the nation's

youth, according to a report by the U.S. surgeon general. The report did say, however, that small groups of children predisposed to aggressive behavior may be harmfully affected.

\$4,308,000 In Securities Taken

New York — An envelope containing \$1,303,000 worth of securities was snatched from the hand of a bank messenger by a youth described as being "about 14 years old," who made a getaway in a waiting car. The United States Trust Co. of New York said that most of the securities in the envelope were Treasury notes, which are nearly as negotiable as currency.

Mujib's Homecoming Is Emotional

Dacca (AP) — Sheikh Mujibur Rahman came home weeping with emotion Monday and told his Bangladesh people their ties with Pakistan were gone forever.

Hundreds of thousands turned out to welcome him as Bangladesh's first president. A U.S. diplomat joined the official reception.

In a 15-minute speech at the Dacca racecourse — the same place where the Bengali leader launched a civil disobedience campaign against Pakistani rule last March 7 — the 51-year-old sheik publicly rejected appeals by President Zulfikar Ali Bhutto of Pakistan that Bangladesh remain within Pakistan.

The racecourse also was the

site of the surrender Dec. 16 of Pakistani troops in what was then East Pakistan.

Amid thunderous applause, the sheik declared:

"I tell the people of Pakistan: You be happy. You are not responsible for what your army has done in my country. But I regret it is no longer possible for Bangladesh to remain with Pakistan. The links are broken."

"I declare, Mr. Bhutto, you live in peace, and let us also live in peace."

Then the sheik warned: "If Pakistan should embark on any adventures, at the bidding of any power, we will not allow it to succeed."

The sheik called for an international tribunal to inquire

into atrocities he said had been committed by Pakistani forces in Bangladesh and against Bengalis in West Pakistan.

But the sheik said that persons living in his nation who are guilty of having aided the Pakistani forces would be dealt with by the laws of Bangladesh.

"All collaborators and their henchmen will be tried under the law of the land and each will be punished," he vowed. "No one guilty of butchery, loot, arson and rape can go unpunished."

He appealed, however, to his people not to take the law into their own hands.

En route to Dacca from London, where he went after his release in West Pakistan, Mujib had stopped for nearly three hours in New Delhi, where he praised Prime Minister Indira Gandhi and hailed India as "the best friend of my people."

STORY AT LEFT
BACK IN BANGLADESH . . . President Mujib.

U.S. Warships Leave Indian Ocean

Washington (UPI) — A U.S. Navy task force including the nuclear aircraft carrier Enterprise left the Indian Ocean Monday after almost a month of operations there triggered by the India-Pakistan war.

The Defense Department

announced that the last elements of the task force cleared the Straits of Malacca and entered the South China Sea. The announcement came just 72 hours after a Pentagon spokesman said the ships were on an indefinite assignment in the Indian Ocean.

Court To Rule On Speakers

Washington (AP) — The Supreme Court agreed Monday to rule on the government's power to keep Marxist visitors from speaking in the United States.

The issue will be aired at a hearing later in the term in a case concerning Dr. Ernest E. Mandel, an internationally known Belgian writer who was denied a visa to lecture at American colleges, universities and conferences.

In granting the review of a Justice Department appeal, the court gave the government a chance to fight for retention of sections of the McCarran Act that were declared invalid by a

three-judge federal panel in New York City last March.

These sections ban visas for aliens who advocate or teach "the economic, international and governmental doctrine of world communism."

The lower court, in a 2 to 1 decision, held the law denies the freedom of Americans to receive information.

The court backed away from a ruling on use of church property because of a change in Florida law. The case concerned parking facilities exempt from taxation and used during the week by the Central Baptist Church in Miami to collect fees.

The Florida Legislature in changing state law last year exempted church property from taxation only if it is used predominantly for religious purposes.

The court also:

- Declined, without comment or dissent, to hear contentions that the delegations to this summer's Democratic National Convention should be apportioned strictly on the basis of the party's numerical strength in each state. Federal Judge June L. Green had agreed with the "one-Democrat, one-vote" formula but was reversed by the U.S. circuit court here.
- Granted a hearing to the Federal Communications Commission in its quest for authority to order cable television systems (CATV) to originate some of their own programming.

Steinfeld Urges Safer Cigarettes

Washington (UPI) — Surgeon General Jesse L. Steinfeld called Monday for safer cigarettes for those Americans who can't quit and suggested for the first time that no smokers may suffer from inhaling someone else's smoke.

Appearing at a news conference in front of huge "no smoking" signs, Steinfeld discussed the sixth annual surgeon general's report he had sent to Congress on the consequences of smoking.

The report urged tobacco

makers to help make smoking less hazardous by reducing the harmful substances in cigarette smoke, starting with carbon monoxide, nicotine and tar.

The study, based on 1,500 scientific inquiries, said that "poisonous carbon monoxide" might even be harmful to nearby nonsmokers, especially those with chronic lung and heart disease.

"Although we cannot say with certainty that exposure to tobacco smoke is causing serious illness in nonsmokers," Steinfeld told reporters, "it is

clear that such exposure can contribute to discomfort of the nonsmoking individual."

He said there was enough evidence in the report, however, to "support action to give the nonsmoker relief" from having to breathe smoke in public places.

Although many smokers have quit since the 1964 surgeon general's report that linked smoking with serious health hazards, Steinfeld said it was too early to tell whether this trend has affected the national disease and death rate.

Author Says Voice Not Hughes'

New York (AP) — Clifford Irving, the man who published McGraw-Hill says collaborated with Howard Hughes in a forthcoming autobiography, said Monday the voice heard by seven reporters last Friday in a telephone news conference was not that of the elusive billionaire.

"It is definitely my opinion that was not Howard Hughes talking," Irving said in reference to a taped, 2 1/2-hour long-distance telephone call between a man introduced as Hughes and the seven reporters.

In the televised news conference shown Sunday night, the man described as Hughes denied he had ever met with or heard of Irving.

Irving, speaking with three newsmen at McGraw-Hill offices, said the voice had failed to answer questions which had been thoroughly covered in discussions with the man he knew as Hughes in widespread interview sessions over the past year.

The 41-year-old author zeroed in on a question asked of the voice at the news conference — "what special meanings for you does the symbol H-I have?"

"Anybody who was well prepped — as was the man on the phone — would know about the H-I," Irving said. What the man on the telephone did not know and could not know unless he were Hughes, Irving said, was that the H-I racing plane had been forced to make a wheels-up landing during a speed trial "because Hughes pushed it too hard and froze the engine, which couldn't possibly be known to the voice on the phone."

Asked to comment on two

Irving declined to display the faces of the checks, saying that would violate contractual obligations with Hughes not to reveal the amount. But he said the amount was in six figures and that a reported figure of \$300,000 was far off the mark. He declined to say whether more or less was paid to the man he knew as Hughes.

Earlier, Harold J. McGraw, president of McGraw-Hill, held up for photographers the photostatic copies of the two check endorsements.

Concerning the length of the recorded news conference, Irving said: "Mr. Hughes could not have talked for 2 1/2 hours with five 2-minute breaks. It would have been physically impossible." He declined to elaborate on what would have made it possible.

Asked to comment on a statement earlier in the day by a McGraw-Hill spokesman that the firm may become "nervously" to settle the controversy, Irving said: "It doesn't seem to be the hard part. We have a pile of documents," he added, gesturing to a stack of papers on his desk, including the manuscript of the book.

New York Times
News Summary

(c) New York Times News Service

Dacca, Pakistan — A triumphant welcome from half a million Bengalis greeted Sheikh Mujibur Rahman as he returned to Dacca after nine months of imprisonment. (More on Page 2.)

Warships Leave Indian Ocean

Washington — The Defense Department announced that the task force led by the carrier Enterprise that had patrolled in the Indian Ocean during the India-Pakistan war had been withdrawn. The presence of the force, which was never fully explained by the administration,

was one of the most controversial moves by the United States in connection with the war.

Unraveling Predicted

Washington — In a speech that seemed to underscore the difference between the American and Japanese China policies, the Japanese ambassador to the United States, Nobuhiko Ishiba, said President Nixon's trip to China might mean "the beginning of a process of unraveling our mutual security in the Far East."

School Merger Ordered

Richmond, Va. — A federal judge ordered that the school systems of Richmond, Va., and

those of two of its suburbs be merged next fall in order to stop a pattern of increasing segregation. The city's schools are about 70% black and those of the two suburbs are about 90% white.

Humphrey Runs Again

Philadelphia — Sen. Hubert H. Humphrey formally announced that he would seek again the Democratic presidential nomination. (More on Page 1.)

Pennsylvania Primary Potent

Washington — Seven Democratic presidential candidates, including Gov. George Wallace of Alabama and Rep. Shirley Chisholm of New York said they intended to join Sen. Eugene

J. McCarthy and Mayor John V. Lindsay as candidates in the Pennsylvania primary. With 132 delegate votes at stake and nine candidates running, the primary would become one of the most important.

Smoking May Affect Non-Smokers

Washington — A report on the health effects of cigarette smoking made public by the surgeon general said the effects of smoking may affect the non-smoker as well as the smoker. (More on Page 2.)

TV Violence Said Not Adverse

New York — Television violence has no adverse effect on the majority of the nation's

youth, according to a report by the U.S. surgeon general. The report did say, however, that small groups of children predisposed to aggressive behavior may be harmfully affected.

\$4,308,000 In Securities Taken

New York — An envelope containing \$4,308,000 worth of securities was snatched from the hand of a bank messenger by a youth described as being "about 14 years old," who made a getaway in a waiting car. The United States Trust Co. of New York said that most of the securities in the envelope were Treasury notes, which are nearly as negotiable as currency.

Mujib's Homecoming Is Emotional

Dacca (AP) — Sheikh Mujibur Rahman came home weeping with emotion Monday and told his Bangladeshi people their ties with Pakistan were gone forever.

Hundreds of thousands turned out to welcome him as Bangladesh's first president. A U.S. diplomat joined the official reception.

In a 15-minute speech at the Dacca racecourse — the same place where the Bengali leader launched a civil disobedience campaign against Pakistani rule last March 7 — the 51-year-old sheik publicly rejected appeals by President Zulfikar Ali Bhutto of Pakistan that Bangladesh remain within Pakistan.

The racecourse also was the

site of the surrender Dec. 16 of Pakistani troops to what was then East Pakistan.

Amid thunderous applause, the sheik declared:

"I tell the people of Pakistan: You be happy. You are not responsible for what your army has done in my country. But I regret it is no longer possible for Bangladesh to remain with Pakistan. The links are broken."

"I declare, Mr. Bhutto, you live in peace, and let us also be in peace."

Then the sheik warned: "If Pakistan should embark on any adventures, at the bidding of any power, we will not allow it to succeed."

The sheik called for an international tribunal to inquire

into atrocities he said had been committed by Pakistani forces in Bangladesh and against Bengalis in West Pakistan.

But the sheik said that persons living in his nation who are guilty of having aided the Pakistani forces would be dealt with by the laws of Bangladesh.

"All collaborators and their henchmen will be tried under the law of the land and each will be punished," he vowed. "No one guilty of butchery, loot, arson and rape can go unpunished."

He appealed, however, to his people not to take the law into their own hands.

En route to Dacca from London, where he went after his release in West Pakistan, Mujib had stopped for nearly three hours in New Delhi, where he praised Prime Minister Indira Gandhi and hailed India as "the best friend of my people."

BACK IN BANGLADESH . . . President Mujib.

Steinfeld Urges Safer Cigarettes

Washington (UPI) — Surgeon General Jesse L. Steinfeld called Monday for safer cigarettes for those Americans who can't quit and suggested for the first time that nonsmokers may suffer from inhaling someone else's smoke.

Appearing at a news conference in front of huge "no smoking" signs, Steinfeld discussed the sixth annual surgeon general's report he had sent to Congress on the consequences of smoking.

The report urged tobacco

makers to help make smoking less hazardous by reducing the harmful substances in cigarette smoke, starting with carbon monoxide, nicotine and tar.

The study, based on 1,500 scientific inquiries, said that "poisonous carbon monoxide" might even be harmful to nearby nonsmokers, especially those with chronic lung and heart disease.

"Although we cannot say with certainty that exposure to tobacco smoke is causing serious illness in nonsmokers," Steinfeld told reporters, "it is

clear that such exposure can contribute to discomfort of the nonsmoking individual."

He said there was enough evidence in the report, however, to "support action to give the nonsmoker relief" from having to breathe smoke in public places.

Although many smokers have quit since the 1964 surgeon general's report that linked smoking with serious health hazards, Steinfeld said it was too early to tell whether this trend has affected the national disease and death rate.

Author Says Voice Not Hughes'

New York (AP) — Clifford Irving, the man who publisher McGraw-Hill says collaborated with Howard Hughes in a forthcoming autobiography, said Monday the voice heard by seven reporters last Friday in a telephone news conference was not that of the elusive billionaire.

"It is definitely my opinion that was not Howard Hughes talking," Irving said in reference to a taped, 2½-hour long-distance telephone call between a man introduced as Hughes and the seven reporters.

In the televised news conference shown Sunday night, the man described as Hughes denied he had ever met with or heard of Irving.

Irving, speaking with three newsmen at McGraw-Hill offices, said the voice had failed to answer questions which had been thoroughly covered in discussions with the man he knew as Hughes in widespread interview sessions over the past year.

The 41-year-old author zeroed in on a question asked of the voice at the news conference — "what special meanings for you does the symbol H-1 have?"

"Anybody who was well prepped — as was the man on the phone — would know about the H-1," Irving said. What the man on the telephone did not know and could not know unless he were Hughes, Irving said, was that the H-1 racing plane had been forced to make a wheels-up landing during a speed trial "because Hughes pushed it too hard and froze the engine, which couldn't possibly be known to the voice on the phone."

Asked to comment on two

Irving declined to display the faces of the checks, saying that would violate contractual obligations with Hughes not to reveal the amount. But he said the amount was in six figures and that a reported figure of \$300,000 was far off the mark. He declined to say whether more or less was paid to the man he knew as Hughes.

Earlier, Harold J. McGraw, president of McGraw-Hill, held up for photographers the photostatic copies of the two check endorsements.

Concerning the length of the recorded news conference, Irving said: "Mr. Hughes could not have talked for 2½ hours with five 2-minute breaks. It would have been physically impossible." He declined to elaborate on what would have made it impossible.

Asked to comment on a statement earlier in the day by a Hughes Tool Co. spokesman that court action may become necessary to settle the controversy, Irving said: "It damn well will be the hard way, because they have no evidence. And we have a pile of documents," he added, gesturing to a stack of papers on a table, "including the manuscript itself."

Unicam Reluctant To OK Resolution On Tax Rates

By BOB GUENTHER
Star Staff Writer

The Nebraska Unicameral Monday hesitated when challenged by Gov. J. James Exon to put its money where its mouth is—so to speak.

The resolution forwarded by Exon (termed by some observers "shrewd" and "unprecedented") would have put

the Legislature on record against an increase in the sales and income taxes.

In effect, if passed, the resolution would, in the words of Oakland Sen. C. W. Holmquist, have "tied the Legislature's hands" on the subjects of spending and personal property tax exemptions.

Instead, the Legislators voted to table the resolution until Tuesday in order to give themselves time to realize the resolution's ramifications.

In his budget address, Exon said:

"If our goal is to do what is required but not to raise the personal sales and income tax rates, then would it not be a good idea for this body to pass a resolution to that effect in these first days?"

After the governor completed the address, Sens. Terry Carpenter of Scottsbluff and Eugene Mahoney and William Skarda of Omaha sponsored such a resolution for the 49 senators' consideration.

Mahoney said, "In these unsettled times, there are years of careful planning and waiting. This resolution would give us a road map for action."

However, several senators, particularly Omaha Sen. Richard Proud, strenuously objected to passing the measure.

Terming Exon's presentation a "political speech," Proud countered:

"I can hardly believe my ears! This body has a mind of its own. Maybe we'll increase the taxes, or decrease them or leave them alone. That's up to us. I'm not going to go along with the governor telling us what to do."

"He advocated spending more . . . and at the same time says to hold the line on the tax levy. How can you say we're going to hold spending when he's calling on us to spend more?"

Waverly Sen. Jerome Warner said the resolution would separate the issues of the sales and income tax from the property tax.

"If we hold the line on the sales and income tax, we'll shift an even greater burden to the property owners," he said.

Carpenter explained that the measure was intended strictly as a broad policy statement and did not commit them to the governor's budget.

"I think we ought to adopt it as a broad policy statement," he said.

Sen. John DeCamp

Sen. P. J. Morgan

Bill Would Allocate Funds For Footpaths, Bike Trails

Footpaths and bicycle trails would become more commonplace in Nebraska under terms of a bill introduced in the Legislature late Monday.

Sponsored by Sens. John DeCamp of Neligh and P. J. Morgan of Omaha, the measure authorizes towns and counties to use highway allocation fund money to establish such paths and trails.

The paths and trails should be installed whenever a highway, road or street is being constructed, reconstructed or relocated, unless safety factors, costs, sparse population or other listed factors make them unfeasible, the bill says.

An increase in the registration fee for legislative lobbyists, from \$5 to \$25, is provided for in a bill introduced by Sen. William Swanson of Lincoln as chairman of the

Bill Would Bar Stopping Utility Service In Winter

A bill was introduced in the Legislature Monday which would prevent utility companies from discontinuing service during winter months to residences where the subscriber is elderly or handicapped or where minors live.

LB1201, introduced by State Sen. David Stahmer of Omaha, would keep companies from stopping service to such homes from November through March for nonpayment of due accounts.

The measure would also provide that any subscriber be personally contacted at least 15 days before service would be discontinued.

3 NRD Bills Get Initial Okay

By The Associated Press

The Legislature Monday gave first-round approval to a trio of bills which would alter the state's Natural Resource District (NRD) program begun by the 1969 Legislature.

Still pending are another pair of bills, scheduled to be considered Tuesday, to further update the controversial program.

The major bill approved Monday was LB540 which would halve the maximum mill levy limit for an NRD board from two mills to one. Any larger mill levies would require an authorizing vote of the voters in the districts.

However, LB540 advanced Monday only after surviving an attack which would have required voters to decide whether or not they want to set up an NRD, a move backers of the program said would "completely kill" it.

Scottsbluff Sen. Terry Carpenter's motion to amend LB537 and provide for the authorization vote of the electorate before joining an NRD received 20 favoring votes and 24 opposition ballots.

Also given first-round approval were LB537 and LB541, making relatively minor adjustments in the NRD program.

The NRD program begun three years ago was intended to replace the state's numerous soil and water conservation and watershed districts.

The State Soil and Water Conservation Commission drew up a map of 33 such districts but was ordered by the 1971 Legislature to redraw the map and last fall approved a series of 24 such districts. That map, unless changed by the current Legislature, will go into effect July 1.

Carpenter said he offered his

amendment because "everybody is going to have to pay this mill levy and the people are sick and tired of being clipped a mill at a time."

"They want a right to say whether they're clipped or not," Carpenter contended.

Following the defeat of Carpenter's amendment, Sen. John DeCamp of Neligh moved to limit the authorized ceiling to one-half mill rather than one mill but was voted down, 25-18.

LB537 would provide that the districts could make their equipment and labor available to the public, but not in competition with private enterprise.

Legislature Alters Proposed Initiative Process Amendment

The Legislature Monday altered a proposed constitutional amendment to retain for the people of Nebraska the right to use the initiative process to make laws relating to revenue matters.

The action was taken as senators voted 31-3 to adopt an amendment to LB146, the proposed constitutional amendment.

The proposed amendment, variously revising the initiative section of the constitution, was considered on general file, or first stage debate.

Under terms of LB146, the power of the electorate to initiate laws relating to revenue matters would have been taken away, had the amendment been approved by voters in its original form.

However, Sen. Ramsey Whitney of Chappell moved to strike that portion of the proposal which would have limited the initiative power, contending the right of the people to initiate laws should not be altered.

Whitney also won 25-16 approval of his motion to further alter the amendment and retain the "distribution factor" in the initiative process.

The distribution factor requires that signatures on a petition be spread among two-fifths of the state's counties.

Opposing Whitney, Sen. George Syas of Omaha contended that the distribution factor violates the one-man, one-vote edict of the U.S. Supreme Court, granting disproportionate power to smaller counties.

Tax Values Dip In Comparison With '70 Selling Prices

Values placed on property for tax purposes in Nebraska, when measured against selling prices, declined slightly in 1970, according to a State Revenue Department report.

Under Nebraska law, property is taxed at 35% of its actual value. But a check of 17,000 parcels of real estate sold in 1970 showed the average assessment to have been 30.26% of market value. In the preceding year, the ratio was 30.59%.

The sales-assessment ratio is a tool used by the state to determine whether counties are applying uniform values to property.

Legislative Bills Introduced

By Associated Press

Bills introduced in the Legislature Monday:

LB1197 (Carstens)—Creating a statewide network of communications, network, involving also counties and cities.

LB1198 (Carstens)—Prohibiting the use of unsecured gravel to improve roads or streets.

LB1199 (Carstens)—Submitting to voters November a constitutional amendment relating to the makeup of judicial districts, requiring continuing commission to be bipartisan and to release public hearings and to make Supreme Court judge a non-voting member.

LB1200 (Carstens)—Liberalizing procedures for obtaining size and weight permits for combines and other harvest machines.

LB1201 (Stahmer)—Prohibiting suppliers of water, electricity and gas from

Adjourned at 4 p.m. to 9 a.m. Tuesday

Hearing Set For Man, 35, In Rape Case

Preliminary hearing was set Jan. 26 in Lancaster County court Monday for a 35-year-old man charged with a felony offense of aiding and abetting a rape in connection with a Dec. 19 incident in which three youths were previously charged.

Ronnie Eugene Oliver was charged in connection with an alleged incident involving two 16-year-olds and two teenage boys.

Three persons were arraigned Dec. 30 in connection with the incident and a charge against a fourth person who never appeared in court was dismissed last week at the request of the County Attorney.

According to sheriff's reports, the teen-agers were parked in a car northeast of Lincoln when some men in another vehicle stopped in front of their vehicle.

Two of the men in the car pulled the boys from their car and locked them in its trunk after taking their wallets and watches, the information the report stated.

The girls told authorities that the two men drove them in the teen-agers' car about nine miles east and a mile north of 34th and O where the alleged rapes took place.

Skutt Residence Hit By Burglars

Omaha (UPI)—Intruders unmasked the home of Mr. and Mrs. V. J. Skutt Sunday night.

Skutt, chairman of the board of Mutual of Omaha, said drawers were removed and contents were scattered around the house. He said lamps and other items were broken.

Skutt, who lives at 400 north Sixty-Second Street, said it appeared the intruders gained entrance by breaking a glass patio door.

He said it appeared that only a few items were taken, including some silver dollars and some of his wife's jewelry.

Unicam Reluctant To OK Resolution On Tax Rates

By BOB GUENTHER
Star Staff Writer

The Nebraska Unicameral Monday hesitated when challenged by Gov. J. James Exon to put its money where its mouth is—so to speak.

The resolution forwarded by Exon (termed by some observers "shrewd" and "unprecedented") would have put

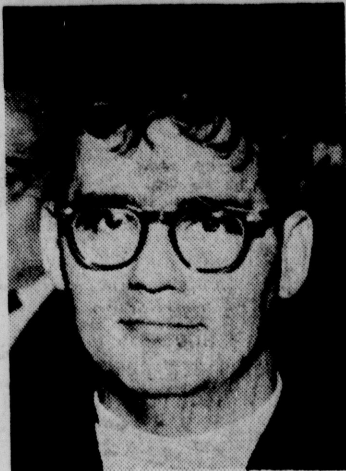

the Legislature on record against an increase in the sales and income taxes.

In effect, if passed, the resolution would, in the words of Oakland Sen. C. W. Holmquist, have "tied the Legislature's hands" on the subjects of spending and personal property tax exemptions.

Instead, the Legislators voted to table the resolution until Tuesday in order to give themselves time to realize the resolution's ramifications.

In his budget address, Exon said:

"If our goal is to do what is required but not to raise the personal sales and income tax rates, then would it not be a good idea for this body to pass a resolution to that effect in these first days?"

Sen. John DeCamp

Sen. P. J. Morgan

Bill Would Allocate Funds For Footpaths, Bike Trails

Footpaths and bicycle trails would become more commonplace in Nebraska under terms of a bill introduced in the Legislature late Monday.

Sponsored by Sens. John DeCamp of Neligh and P. J. Morgan of Omaha, the measure authorizes towns and counties to use highway allocation fund money to establish such paths and trails.

The paths and trails should be installed whenever a highway, road or street is being constructed, reconstructed or relocated, unless safety factors, costs, sparse population or other listed factors make them unfeasible, the bill says.

An increase in the registration fee for legislative lobbyists, from \$5 to \$25, is provided for in a bill introduced by Sen. William Swanson of Lincoln as chairman of the

3 NRD Bills Get Initial Okay

By The Associated Press

The Legislature Monday gave first-round approval to a trio of bills which would alter the state's Natural Resource District (NRD) program begun by the 1969 Legislature.

Still pending are another pair of bills, scheduled to be considered Tuesday, to further update the controversial program.

The major bill approved Monday was LB540 which would halve the maximum mill levy limit for an NRD board from two mills to one. Any larger mill levies would require an authorizing vote of the voters in the districts.

However, LB540 advanced Monday only after surviving an attack which would have required voters to decide whether or not they want to set up an NRD, a move backers of the program said would "completely kill" it.

Scottsbluff Sen. Terry Carpenter's motion to amend LB537 and provide for the authorization vote of the electorate before joining an NRD received 20 favoring votes and 24 opposition ballots.

Also given first-round approval were LB537 and LB541, making relatively minor adjustments in the NRD program.

The NRD program begun three years ago was intended to replace the state's numerous soil and water conservation and watershed districts.

The State Soil and Water Conservation Commission drew up a map of 33 such districts but was ordered by the 1971 Legislature to redraw the map and last fall approved a series of 24 such districts. That map, unless changed by the current Legislature, will go into effect July 1.

Carpenter said he offered his

amendment because "everybody is going to have to pay this mill levy and the people are sick and tired of being clipped a mill at a time."

"They want a right to say whether they're clipped or not," Carpenter contended.

Following the defeat of Carpenter's amendment, Sen. John DeCamp of Neligh moved to limit the authorized ceiling to one-half mill rather than one mill but was voted down, 25-18.

LB537 would provide that the districts could make their equipment and labor available to the public, but not in competition with private enterprise.

Legislature Alters Proposed Initiative Process Amendment

The Legislature Monday altered a proposed constitutional amendment to retain for the people of Nebraska the right to use the initiative process to make laws relating to revenue matters.

The action was taken as senators voted 31-3 to adopt an amendment to LB146, the proposed constitutional amendment.

The proposed amendment, variously revising the initiative section of the constitution, was considered on general file, or first stage debate.

Under terms of LB146, the power of the electorate to initiate laws relating to revenue matters would have been taken away, had the amendment been approved by voters in its original form.

However, Sen. Ramsey Whitney of Chappell moved to strike that portion of the proposal which would have limited the initiative power, contending the right of the people to initiate laws should not be altered.

Whitney also won 25-16 approval of his motion to further alter the amendment and retain the "distribution factor" in the initiative process.

The distribution factor requires that signatures on a petition be spread among two-fifths of the state's counties.

Opposing Whitney, Sen. George Syas of Omaha contended that the distribution factor violates the one-man, one-vote edict of the U.S. Supreme Court, granting disproportionate power to smaller counties.

Tax Values Dip In Comparison With '70 Selling Prices

Values placed on property for tax purposes in Nebraska, when measured against selling prices, declined slightly in 1970, according to a State Revenue Department report.

Under Nebraska law, property is taxed at 35% of its actual value. But a check of 17,000 parcels of real estate sold in 1970 showed the average assessment to have been 30.26% of market value. In the preceding year, the ratio was 30.59%.

The sales-assessment ratio is a tool used by the state to determine whether counties are applying uniform values to property.

Legislative Bills Introduced

By Associated Press

Bills introduced in the Legislature Monday:

LB117 (Carstens)—Creating a statewide teleprinter communications network, involving all counties and cities.

LB118 (Keyes)—Prohibiting the use of salt or unsurfaced gravel to improve travel on icy or snowy roads or streets.

LB119 (Carstens)—Submitting to voters in November a constitutional amendment changing the makeup of judicial nominating commissions, requiring commissions to be bipartisan and to release names of candidates for judgeships prior to public hearings, and to make Supreme Court judges a non-voting member.

LB1200 (Carstens)—Liberalizing procedures for obtaining state and weight permits for combines and other harvest vehicles.

LB1201 (Stahmer)—Prohibiting suppliers of water, electricity and gas from

shutting off a service to a customer for nonpayment of charges, without advance notice.

LB1202 (Stahmer)—Providing that whenever maximum sentences for a crime are reduced by law or ordinance, it shall apply retroactively to any prisoner whose sentence exceeds the new maximum.

LB1203 (Orme)—Adopting a birth defects prevention program.

LB1204 (Skarda)—Exempting certain veterans from the payment of fees for hunting and fishing privileges.

LB1205 (Skarda)—Providing for inclusion of veterans information on death certificates and burial and transit permits.

LB1206 (Skarda)—Providing for the fixing of salaries for county veterans service officers and part-time veterans service officers.

LB1207 (Whitney)—Providing for disposition of funds of discontinued water conservancy districts.

LB1208 (Schmitt, Lewis)—Revising statute provisions relating to the use of agricultural alcohol in motor vehicle fuels.

LB1209 (Stull)—Increasing amount of contracts in which officers of a first class city may have an interest.

LB1210 (Moyle)—Authorizing the operation of vending businesses in public buildings by blind persons.

LB1211 (Luedtke)—Establishing conservatorships for the property of prisoners of war or persons missing in action.

LB1212 (Johnson)—Providing for larger boards of trustees for certain county health facilities.

LB1213 (Johnson)—Authorizing first class cities to invest surplus funds in certificates of deposit.

LB1214 (Moyle)—Authorizing county boards to prohibit or restrict traffic on county or township roads.

LB1215 (Simpson)—Establishing a fund in State Welfare Department to pay school expenses of certain dependent children.

LB1216 (Barnett)—Requiring deer and antelope hunters to wear clothing containing hunter orange material.

LB1217 (DeCamp, Morgan)—Authorizing counties and towns to use highway allocation fund money to establish footpaths and bicycle trails.

LB1218 (Swanson)—Increasing the registration fee for lobbyists from \$5 to \$25 but directing that the certificate be valid for two years.

LB1219 (Carpenter)—Extending for another year, through 1975, the time school districts shall receive financial support from the school foundation and equalization fund.

LB1220 (Health and Welfare Committee)—Authorizing the transfer of ownership of a cosmetology establishment to a licensed relative without additional fee.

LB1221 (Clark)—Revising workmen's compensation law to change the time and manner of reporting injuries.

LB1222 (Epke)—Providing for inclusion of open running accounts in contractor's lien.

LB1223 (Mahoney, for Study Committee)—Setting standards to be followed in operation of temporary housing and counseling services for transient youth.

LB1224 (DeCamp, for Study Committee)—Establishing a comprehensive health education program in the public schools.

LB1225 (Kremer, for State Water Plan Committee)—Broadening the powers and duties of the Nebraska Soil and Water Conservation Commission to include land-use planning activity.

EVENTS

IN PERSPECTIVE

By WILLIAM O. DOBLER

Maybe Howard Hughes is just what the world needs. If he comes out of obscurity, as he has reportedly said he will do, it may give the nation something else besides its problems on which to focus attention. Hughes may well be the only living legend in the world.

As he flashes at this moment into public attention, it is not done in the ordinary way. In 1954, Hughes wrote his personal check for \$23,489,478 to purchase the RKO Pictures movie studio. Oddly enough, Hughes apparently had never been inside the studio prior to his purchase of it, despite the fact that he had been running it for years.

It was the kind of thing that was typical of the man, and apparently remains typical. It was the kind of thing that led him to run the first test flight on airplanes for which he supplied the basic engineering.

It was the kind of thing that led him to fly record-setting flights across the nation and around the world, to invest so heavily in Las Vegas that it was once rumored he intended to buy the whole place.

Hughes, starting with a rather obscure Texas tool company founded by his father, probably set a record, too, for becoming a millionaire at an early age. But nobody apparently counted his first million. At about middle age, he was estimated to have a net worth of \$200 million or more.

Today, he is said to be worth about \$2 billion, and at that point you wonder if even he himself knows what his real fortune might be. He has also owned a major world airline and a number of other diverse interests.

Always a man difficult to get to, Hughes in recent years has become known as a recluse. Now he is reportedly in the Bahamas, where he went from Las Vegas in the course of great speculation as to a possibly unwilling departure.

Soon after leaving Las Vegas, his holdings there became the center of a management controversy and lawsuits on that subject are still pending against him. Despite the controversy that swirled about him, he has not been seen publicly and many more wondered if he were even still alive.

Now, publishers have come out with what they proclaim to be an autobiography of the man. Once again, the issue is surrounded with controversy.

Reporters who knew Hughes were summoned to a telephone press conference with a man who claimed to be the industrial giant. Reporters agree that it was Hughes who spoke to them. The main purpose of the interview was to afford Hughes the opportunity of branding as a hoax or fraud the forthcoming autobiography.

He has denied that such a book exists, despite claims and evidence of the publishers to the contrary. Who knows, along with everything else, maybe Hughes is a kind of Barnum and Bailey, realizing that all the controversy over the book will put it on the best seller list.

Now, Hughes indicates he is not very happy with his life and that he intends to end his obscure way of living as soon as possible. When this might be, only Hughes will know. But until he ends it, with some kind of personal public appearance, the controversy will continue as to whether he is alive or dead and, if alive, where he is and what condition he is in.

And why should all of this be of any interest to the nation? Hughes and his life divert the thinking of people into a kind of dreamland, a condition that can be a welcome diversion.

People are usually fascinated by men who amass fortunes and Hughes has certainly done this. Additionally, he has done it in strange ways and his behavior fits no usual pattern. His life is a far departure from the routine kind of existence that many people live.

Perhaps people see in Hughes something of what they would like to be and do themselves. And, maybe they get a certain kind of satisfaction in knowing that, even with a \$2 billion fortune, life is not without its problems.

RICHARD L. WORSNOP

Determination Of Future, Its Course And Character

WASHINGTON—"The future is now," says Washington Redskins coach George Allen. Indeed it is, and not only in professional football. Although man lives in the present, he is impatient to know what tomorrow will bring. A whole new discipline, called futurism or futurology, has arisen to satisfy this yearning.

As science fiction writer Jack Williamson recently pointed out in Saturday Review, "A staff of futurologists is now as essential to any large military or governmental or commercial establishment as a coterie of sycophants used to be to a barbarian emperor." In addition, there exists an Institute of the Future, which produces forecasts under contract: The World Future Society, devoted to the study of alternative futures; and the Commission on the Year 2000 of the American Academy of Arts and Sciences.

The futurologist believes that, "to a large extent, the future will be what man chooses to make it." But Walter Laqueur, director of the Institute of Contemporary History in London, adds this caveat: "As every futurologist knows from bitter experience, one little error, one miscalculation, one unexpected event is sufficient to undermine a whole tower of predictions, however ingeniously constructed and seemingly foolproof."

Futurology appears to be a byproduct of industrialization and technology. Thus, in the mid-19th Century, Jules Verne predicted the invention of the submarine and of the spaceship. In Looking Backward (1888), American novelist Edward Bellamy foresaw the development of radio, motion pictures, and television. A few years later, H. G. Wells began to produce his

long series of writings on the shape of things to come.

Wells's last published work, "Mind at the End of Its Tether" (1945), expressed the bleakest pessimism about mankind's prospects. Novelists who have ventured into the future since Wells likewise have taken a gloomy view. George Orwell foresaw a world of tyranny and perpetual war in 1984. Anthony Burgess's "A Clockwork Orange" (now a movie) depicts a near-future terrorized by pathological teenage thugs.

The task of the professional futurologist is not to predict the course of history but to identify developments, good and bad, that are possible in years to come. Currently anticipated developments include cities built in the oceans, manlike robots, indefinite lengthening of human life, and parents' being able to choose the sex or even the personality of their children.

Inevitably, the futurology movement has attracted some criticism. In a book, "Think Tanks," Paul Dickson asserted that futurologists "will continue to gain power over policy, action, and all our lives," and that ordinary citizens therefore should be vigilant. "Just as with urban problem-solving, military analysis, and other think-tank concerns, the promises and pitfalls of futurism offer compelling reasons for us to intrude to find out what is happening — after all, it is our future that they are shaping." Furthermore, Alvin Toffler pointed out in "Future Shock" that the accelerating pace of change can produce "shattering stress and disorientation." Perhaps, then, futurologists should strive to control the rate of change as well as its direction. Whether they will be able to do either is a question that only the future can answer.

'Mrs. Gandhi, We Are Most Disturbed About Russian Influence In India's Foreign Policy!'

Ferguson Withdraws

It is regrettable that a candidate possessing the personal attributes that could lead to a distinguished career in public service should feel compelled to withdraw from the Democratic contest for nomination to the U.S. Senate seat held by Carl Curtis. But Don Ferguson of Lincoln based his decision to withdraw on what he believes to be the political realities of the situation, and he should be respected for it.

Ferguson's campaign, as is the case with many others in a wide-open race, was plagued by money problems. With six and probably more names to be placed on the Democratic ballot, the campaign dollar was bound to be spread thin.

It takes the promise of adequate funding to run an exposure campaign aimed at name recognition and, completing the circle, without name recognition, the promise isn't there. Ferguson, at 31 somewhat of a veteran in intraparty affairs, is nevertheless a newcomer to elective politics and lacked that name recognition.

To his credit, Ferguson said he has "too much respect for the people who have agreed to get involved in this campaign to merely let them 'play' the game of politics. Without the reality of finances, there is little or no oil to make the machinery of the campaign

run. This means that we merely put people through an exercise in futility which may increase my personal base for the future, but have no value to them in terms of victory next May."

Showing his strong partisan loyalties, Ferguson suggested that other candidates who are "just running" consider dropping out of the race to blunt the possibility that a "non-Democrat," such as partly-switching State Sen. Terry Carpenter, might win the senatorial primary. We have always held that any contest for public office should be open to all, but in a strict partisan context, Ferguson has a point.

Many observers feel that Ferguson's withdrawal, plus the distinct possibility that unless the picture changes Sen. Carpenter will prevail in May, will trigger an announcement in the near future from Douglas County Defender and former Gov. Frank B. Morrison, who is known to oppose Carpenter as the Democratic nominee for Curtis' seat on the effect a Carpenter victory would have on the state party organization.

We'll go along with that. Come February, we expect to hear a reassessment of his position from Morrison, who is still, along with Gov. Exon, one of Nebraska's two most popular Democrats.

On The Outside And Closing . . .

The campaign of 1972 might be a sterner test of his indefatigable nature and boundless optimism than any Sen. Hubert Humphrey has experienced in the realm of politics. We have always liked Humphrey from afar, outside of the question of whether or not he should be president of the United States.

While a new generation of Americans might believe that Humphrey represents the old politics, we don't think he possesses those unwholesome characteristics that many attribute to old politicians. Not even the railroading aspect of his nomination in 1968 could convince us that he was or is as politically cynical as some of his contemporaries.

Now the former vice president is poised for what most likely will be his final assault on the White House.

ANTHONY LEWIS

British Television Show Causes Public Uproar; Fair Balance Of Views Remains Primary Duty

LONDON — On BBC Television the other night, eight Irish politicians talked for three hours about the troubles in Northern Ireland. Each made his own case and then answered questions put by three British establishment figures. In this hardly dynamic format, not a voice was raised in anger, not a fist brandished. It was all very earnest.

That unexceptionable program aroused a public furor. Before it was even broadcast, a spokesman for the Ulster provincial government at Stormont termed it "monstrous." The British home secretary, Reginald Maudling, tried to stop the program, saying it "could do serious harm." Various newspaper editors thundered, or rather squeaked, about the dangers of "unbalanced" television.

Hearing about this extraordinary affair, an outsider might conclude that some British politicians and editors are hysterical ninnies. He would be right. Outsiders might also get the impression that Britain can be the most parochial of countries, treating some tiny little local trauma as if it were the second coming. That would be right, too.

But there is more to this episode than parochial silliness. It is worth examining for the light it throws on a general

Inundated by Kennedy charisma, campaign efficiency and money in 1960 and defeated as much by his association with the Johnson presidency as by Richard Nixon in 1968, Humphrey now is sort of on the outside looking in.

But he should not be underestimated. For one thing, he remains the sentimental favorite of many powerful old-line Democrats — sentiment that could turn to hard support if Sen. Muskie stumbles. Humphrey is the only Democratic candidate in position right now to thwart Muskie's bid for the nomination, and we aren't necessarily saying that Muskie should be stopped.

That is the prospect for Humphrey during the winter prior to the convention: a long shot in his last race and yet an entry that can't be counted out.

problem—the right of broadcasters in any country to comment critically on official policy, especially when they touch on something as sensitive as the British position in Ireland.

The main stated ground of objection to this BBC program was that it was not "balanced." Six of the eight speakers, as it turned out, were opposed to the policy of internment suspected terrorists in Ulster without trial. The only Protestant Unionist was an obscure and inarticulate member of Parliament.

One reason for the lack of balance was that Maudling and the Ulster prime minister, Brian Faulkner, refused invitations to appear and had their colleagues do the same. That kind of boycott, followed by complaints of one-sidedness, makes a neat censorship device.

Complaints about "balance" also have a comical air when coming from certain newspapers.

The British Broadcasting Corporation of course has much more power than any single newspaper, controlling as it does two of this country's three television channels. Such a near-monopoly has a weightier duty to be balanced, to be fair, as it does under American communications law.

But the requirement cannot

be for perfect balance in every individual program. That impossible standard would effectively keep broadcasting away from any sensitive subject, especially if perfection is to be judged by officials. The duty must rather be to present a fair balance of views over time.

The irony is that the BBC has leaned over backwards to carry the official view on Northern Ireland, the comments from army and government spokesmen. It has banned interviews with members of the illegal Irish Republican Army.

There was much tedium in the disputed program, but the audience may have been made aware of a few harsh realities. It learned that 650 Catholic men are now held without trial — the equivalent, in population terms, of 23,000 in Britain. It heard the most moderate witness, a Protestant, denounce internment as a political blunder, the terrorists "greatest asset." It saw and sensed the unwillingness of the Catholic minority ever again to accept rule by a sectarian Protestant party.

Now all of that is what really worried the politicians and their censorious friends about the BBC program: They did not want people to be made aware that British policy in Ireland is a disaster, that the whole system of government

Letters To The Editor

Brevity in letters is requested but length in itself will have no bearing on publication. Writers are advised that needless details and repetitious matter will be edited out of letters. Too frequent contributions from one person on the same subject may be rejected. All letters must be accompanied by writer's true name but may be submitted for publication under a pen name or initials. However, letters will be printed under a pen name or initials at the editor's discretion.

Hail Notre Dame!

Lincoln, Neb.
I have been a Lincoln resident seven months and I notice a certain element of anti-Notre-Dame feeling among citizens and one sports writer here in Lincoln.

The AP on Jan. 4 was comparing the back-to-back championship of the Nebraska football team with the other schools which had won the same. They said that Notre Dame got it for the years 1946 and 1947. That could be correct, but they also got it again in 1929 and 1930. In fact, they have won the so-called national title eight times — 1924, 1929, 1930, 1943, 1946, 1947, 1949 and 1966.

Would The Star please make the record straight in regard to Notre Dame, which I love.

R. L. FLYNN

Praise For Team

Salem, Ore.

Through The Star, I want to congratulate Nebraska's football team on winning them all. One writer said he believed they could have downed Notre Dame when they had their best team. It did my 90-year-old weak heart good to watch the game on TV. I hope they will be as good next year.

Nebraska was my old stomping grounds. We had cattle and as soon as I was old enough, I became a cowboy. I could have gone to the university but I liked cowpunching better. It might not have done me any good as "the wish to know contains not always the ability to acquire."

I have always voted the Republican ticket since '94. Now, can anyone match that? I heard Bryan speak a few times. He was the most charming and eloquent speaker I ever heard. He could bring

GEORGE C. THOSTESON, M.D.

To Your Good Health

Dear Dr. Thosteson: Please tell me something about babies being tongue-tied. Why would it be necessary to wait until a child is a year old and then go to the hospital? I had three who were tongue-tied and all they did was clip it when they were three days old. Why don't doctors find this when they examine babies now? Or do you think they are too busy? This child is six months old, and it was an aunt who noticed it.—Mrs. B.M.T.

Well, good for the aunt. But the fact that she was the first to remark on it, and evidently nobody else in the family did, may have some bearing on your questions.

If a child is tongue-tied, it is not a particularly difficult matter to clip the tissue to permit normal movement of the tongue. Sometimes it has to be done—and that's that.

It used to be that any time the tissue below the tongue was a little short, it was clipped. There are many things that we used to think necessary which no longer are done routinely, and this is one of them.

By experience, it was learned that, as a baby grows, the structure of the mouth often changes so it is not necessary to do any cutting. So today there is no longer the urge to clip the tongue-tissue in newborn babies. If it has to be done later on, at the age of a year, more or less, it can be done then.

If you are concerned about this situation, have the baby examined by a pediatrician. Pediatricians are quite familiar with baby mouths, and can give you a pretty sound estimate, at six months, whether clipping is necessary or whether you should wait a few more months to decide. Don't be too sure that they didn't notice this baby's tongue but decided to wait and see whether any cutting would ever have to be done.

Dear Dr. Thosteson: Is it true that when boiling water for tea, one should use water from the cold tap only? If so, why?—A.W.

I don't know of any reason—now—for doing so. It's an old belief, probably originating from the days when people kept tea kettle on the stove to provide hot water. Very likely in some cases (in those days) the water had boiled down so the mineral or other content was stronger than in cold water. It could perhaps have changed the flavor of the tea in some cases. But it wouldn't make any difference so far as health is concerned.

Dear Dr. Thosteson: I've never read about my problem but maybe there are others like me. I am 28, mother of two children, and in the last three years I've noticed that my left leg is nearly one inch shorter than the right. I first noticed it when we started wearing the longer-length flared slacks. I never noticed it years ago. Now my skirts and dresses hang to the left and its becoming very noticeable. I have no pain and do not limp. What could be the cause of this?—T.D.L.

It could be a quirk of development which you've had much longer than you realized. Posture also could be a factor. It's not as easy to predict the consequences of something like this as you might think. It may never cause you any trouble. Then again, it might as you get older and perhaps—pardon the thought—heavier.

A discrepancy less than this in leg length has sometimes been traced as the cause of Tietze's disease, a curious (and annoying) type of pain near the breast bone. A small lift on one

I am better qualified to fill this position than Seaton. I hold a B.S. degree awarded by the Colorado State University School of Forestry and Range Management. But Seaton is the son of a publisher. My dad was a farmer. Over 100 years ago, one of our famous presidents in a renowned address made this statement: "Four score and seven years ago our fathers brought forth on this continent a new nation conceived in liberty and dedicated to the proposition that all men are created equal."

It is going to take a sharper axe than Seaton has (The Hastings Daily Tribune) to lay this OAK over. I'll stand on what is right with America — the U.S. Constitution which brings Seaton right down to my level.

Salary Increase

Lincoln, Neb.

I just finished reading the article on the Jan. 6 editorial page, "County Board Raises Its Pay." I have to agree with the writer that it sure must be nice to grant yourself a pay raise because you think you deserve more than you are getting.

If the commissioners (except Mr. Colin) feel they are working too hard, why not resign? I am sure the taxpayers of this county can find plenty of people to take their place and for less money.

The county commissioners knew the hours they would have to put in when they accepted the position. If they are not satisfied, let's get someone who is.

Do the taxpayers of Lancaster County who voted these men into office think they deserve an increase in salary? I say, no!

BURNED-UP TAXPAYER

shoe has been used with success as a remedy.

In your case, a lift might be in order. So might back exercises.

Even though you are having no difficulty now, I would suggest seeing an orthopedist to determine the real underlying cause. Whether to have any treatment would depend on what he finds, and whether the condition may in the future bother you or become worse.

Dear Dr. Thosteson: Please give me the address of Medic Alert in Turlock, Calif. I had the address saved but it got thrown away.—Y.L.

That's all you need as an address, except to add the zip code, which is 95380. In Canada, Medic-Alert Foundation, 174 St. George St., Toronto 5, Ontario.

Dear Dr. Thosteson: If a man is taking 80 units of insulin, what are his chances of changing to diabetes tablets instead? He is handicapped and felt he would prefer tablets rather than depend on someone else to administer insulin.—G.B.

You don't mention the strength of his insulin, but generally speaking, if insulin has been found necessary to control a given case of diabetes, switching to oral medication isn't successful. He could talk to his doctor about it, but he shouldn't be disappointed if the doctor says his case isn't suitable for oral medication. Conversion to oral medication may be possible if small (20 units) dosage of insulin is used. With large doses as this, it usually is not feasible.

Dear Dr. Thosteson: The doctor said I have pulmonary fibrosis but didn't tell me much about it. Is there a treatment or cure? Is it fatal?—R.W.C.

If you substitute "scarring" for "fibrosis," it will be clearer to you. Obviously something in the past caused damage (fibrosis or scarring resulting). Assuming that no further fibrosis is occurring, just watch out for respiratory ailments. The fibrosis already present cannot be corrected, however.

EVENTS

IN PERSPECTIVE

By WILLIAM O. DOBLER

Maybe Howard Hughes is just what the world needs. If he comes out of obscurity, as he has reportedly said he will do, it may give the nation something else besides its problems on which to focus attention. Hughes may well be the only living legend in the world.

As he flashes at this moment into public attention, it is not done in the ordinary way. In 1954, Hughes wrote his personal check for \$23,489,478 to purchase the RKO Pictures movie studio. Oddly enough, Hughes apparently had never been inside the studio prior to his purchase of it, despite the fact that he had been running it for years.

It was the kind of thing that was typical of the man, and apparently remains typical. It was the kind of thing that led him to run the first test flight on airplanes for which he supplied the basic engineering.

It was the kind of thing that led him to fly record-setting flights across the nation and around the world, to invest so heavily in Las Vegas that it was once rumored he intended to buy the whole place.

Hughes, starting with a rather obscure Texas tool company founded by his father, probably set a record, too, for becoming a millionaire at an early age. But nobody apparently counted his first million. At about middle age, he was estimated to have a net worth of \$200 million or more.

Today, he is said to be worth about \$2 billion, and at that point you wonder if even he himself knows what his real fortune might be. He has also owned a major world airline and a number of other diverse interests.

Always a man difficult to get to, Hughes in recent years has become known as a recluse. Now he is reportedly in the Bahamas, where he went from Las Vegas in the course of great speculation as to a possibly unwilling departure.

Soon after leaving Las Vegas, his holdings there became the center of a management controversy and lawsuits on that subject are still pending against him. Despite the controversy that swirled about him, he has not been seen publicly and many more wondered if he were even still alive.

Now, publishers have come out with what they proclaim to be an autobiography of the man. Once again, the issue is surrounded with controversy.

Reporters who knew Hughes were summoned to a telephone press conference with a man who claimed to be the industrial giant. Reporters agree that it was Hughes who spoke to them. The main purpose of the interview was to afford Hughes the opportunity of branding as a hoax or fraud the forthcoming autobiography.

He has denied that such a book exists, despite claims and evidence of the publishers to the contrary. Who knows, along with everything else, maybe Hughes is a kind of Barnum and Bailey, realizing that all the controversy over the book will put it on the best seller list.

Now, Hughes indicates he is not very happy with his life and that he intends to end his obscure way of living as soon as possible. When this might be, only Hughes will know. But until he ends it, with some kind of personal public appearance, the controversy will continue as to whether he is alive or dead and, if alive, where he is and what condition he is in.

And why should all of this be of any interest to the nation? Hughes and his life divert the thinking of people into a kind of dreamland, a condition that can be a welcome diversion.

People are usually fascinated by men who amass fortunes and Hughes has certainly done this. Additionally, he has done it in strange ways and his behavior fits no usual pattern. His life is a far departure from the routine kind of existence that many people live.

Perhaps people see in Hughes something of what they would like to be and do themselves. And, maybe they get a certain kind of satisfaction in knowing that, even with a \$2 billion fortune, life is not without its problems.

RICHARD L. WORSNOP

Determination Of Future, Its Course And Character

WASHINGTON—"The future is now," says Washington Redskins coach George Allen. Indeed it is, and not only in professional football. Although man lives in the present, he is impatient to know what tomorrow will bring. A whole new discipline, called futurism or futurology, has arisen to satisfy this yearning.

As science fiction writer Jack Williamson recently pointed out in Saturday Review, "A staff of futurologists is now as essential to any large military or governmental or commercial establishment as a coterie of soothsayers used to be to a barbarian emperor." In addition, there exists an Institute of the Future, which produces forecasts under contract; The World Future Society, devoted to the study of alternative futures; and the Commission on the Year 2000 of the American Academy of Arts and Sciences.

The futurologist believes that, "to a large extent, the future will be what man chooses to make it." But Walter Laqueur, director of the Institute of Contemporary History in London, adds this caveat: "As every futurologist knows from bitter experience, one little error, one miscalculation, one unexpected event is sufficient to undermine a whole tower of predictions, however ingeniously constructed and seemingly foolproof."

Futurology appears to be a byproduct of industrialization and technology. Thus, in the mid-19th Century, Jules Verne predicted the invention of the submarine and of the spaceship. In Looking Backward (1888), American novelist Edward Bellamy foresaw the development of radio, motion pictures, and television. A few years later, H. G. Wells began to produce his

long series of writings on the shape of things to come.

Well's last published work, "Mind at the End of Its Tether" (1945), expressed the bleakest pessimism about mankind's prospects. Novelists who have ventured into the future since Wells likewise have taken a gloomy view. George Orwell foresaw a world of tyranny and perpetual war in 1984. Anthony Burgess's "A Clockwork Orange" (now a movie) depicts a near-future terrorized by pathological teenage toughs.

The task of the professional futurologist is not to predict the course of history but to identify developments, good and bad, that are possible in years to come. Currently anticipated developments include cities built in the oceans, manlike robots, indefinite lengthening of human life, and parents' being able to choose the sex or even the personality of their children.

Inevitably, the futurology movement has attracted some criticism. In a book, "Think Tanks," Paul Dickson asserted that futurologists "will continue to gain power over policy, action, and all our lives" and that ordinary citizens therefore should be vigilant. "Just as with urban problem-solving, military analysis, and other think-tank concerns, the promises and pitfalls of futurism offer compelling reasons for us to intrude to find out what is happening—after all, it is our future that they are shaping."

Furthermore, Alvin Toffler pointed out in "Future Shock" that the accelerating pace of change can produce "shattering stress and disorientation." Perhaps, then, futurologists should strive to control the rate of change as well as its direction. Whether they will be able to do either is a question that only the future can answer.

'Mrs. Gandhi, We Are Most Disturbed About Russian Influence In India's Foreign Policy!'

Ferguson Withdraws

It is regrettable that a candidate possessing the personal attributes that could lead to a distinguished career in public service should feel compelled to withdraw from the Democratic contest for nomination to the U.S. Senate seat held by Carl Curtis. But Don Ferguson of Lincoln based his decision to withdraw on what he believes to be the political realities of the situation, and he should be respected for it.

Ferguson's campaign, as is the case with many others in a wide-open race, was plagued by money problems. With six and probably more names to be placed on the Democratic ballot, the campaign dollar was bound to be spread thin.

It takes the promise of adequate funding to run an exposure campaign aimed at name recognition and, completing the circle, without name recognition, the promise isn't there. Ferguson, at 31 somewhat of a veteran in intraparty affairs, is nevertheless a newcomer to elective politics and lacked that name recognition.

To his credit, Ferguson said he has "too much respect for the people who have agreed to get involved in this campaign to merely let them 'play' the game of politics. Without the reality of finances, there is little or no oil to make the machinery of the campaign

run. This means that we merely put people through an exercise in futility which may increase my personal base for the future, but have no value to them in terms of victory next May."

Showing his strong partisan loyalties, Ferguson suggested that other candidates who are "just running" consider dropping out of the race to blunt the possibility that a "non-Democrat," such as party-switching State Sen. Terry Carpenter, might win the senatorial primary. We have always held that any contest for public office should be open to all, but in a strict partisan context, Ferguson has a point.

Many observers feel that Ferguson's withdrawal, plus the distinct possibility that unless the picture changes Sen. Carpenter will prevail in May, will trigger an announcement in the near future from Douglas County Defender and former Gov. Frank B. Morrison, who is known to oppose Carpenter as the Democratic nominee for Curtis' seat on the state party organization.

We'll go along with that. Come February, we expect to hear a reassessment of his position from Morrison, who is still, along with Gov. Exor, one of Nebraska's two most popular Democrats.

On The Outside And Closing . . .

The campaign of 1972 might be a sterner test of his indefatigable nature and boundless optimism than any Sen. Hubert Humphrey has experienced in the realm of politics. We have always liked Humphrey from afar, outside of the question of whether or not he should be president of the United States.

While a new generation of Americans might believe that Humphrey represents the old politics, we don't think he possesses those unwholesome characteristics that many attribute to old politicians. Not even the railroading aspect of his nomination in 1968 could convince us that he was or is as politically cynical as some of his contemporaries.

Now the former vice president is poised for what most likely will be his final assault on the White House.

ANTHONY LEWIS

British Television Show Causes Public Uproar; Fair Balance Of Views Remains Primary Duty

LONDON—On BBC Television the other night, eight Irish politicians talked for three hours about the troubles in Northern Ireland. Each made his own case and then answered questions put by three British establishment figures. In this hardly dynamic format, not a voice was raised in anger, not a fist brandished. It was all very earnest.

That unexceptionable program aroused a public furor. Before it was even broadcast, a spokesman for the Ulster provincial government at Stormont termed it "monstrous." The British home secretary, Reginald Maudling, tried to stop the program, saying it "could do serious harm." Various newspaper editors thundered, or rather squeaked, about the dangers of "unbalanced" television.

Hearing about this extraordinary affair, an outsider might conclude that some British politicians and editors are hysterical ninnies. He would be right. Outsiders might also get the impression that Britain can be the most parochial of countries, treating some tiny little local trauma as if it were the second coming. That would be right, too.

But there is more to this episode than parochial silliness. It is worth examining for the light it throws on a general

problem—the right of broadcasters in any country to comment critically on official policy, especially when they touch on something as sensitive as the British position in Ireland.

The main stated ground of objection to this BBC program was that it was not "balanced." Six of the eight speakers, as it turned out, were opposed to the policy of internment suspected terrorists in Ulster without trial. The only Protestant Unionist was an obscure and inarticulate member of Parliament.

One reason for the lack of balance was that Maudling and the Ulster prime minister, Brian Faulkner, refused invitations to appear and had their colleagues do the same. That kind of boycott, followed by complaints of one-sidedness, makes a neat censorship device.

Complaints about "balance" also have a comical air when coming from certain newspapers.

The British Broadcasting Corporation of course has much more power than any single newspaper, controlling as it does two of this country's three television channels. Such a near-monopoly has a weightier duty to be balanced, to be fair, as it does under American communications law.

But the requirement cannot

be for perfect balance in every individual program. That impossible standard would effectively keep broadcasting away from any sensitive subject, especially if perfection is to be judged by officials. The duty must rather be to present a fair balance of views over time.

The irony is that the BBC has leaned over backwards to carry the official view on Northern Ireland, the comments from army and government spokesmen. It has banned interviews with members of the illegal Irish Republican Army.

There was much tedium in the disputed program, but the audience may have been made aware of a few harsh realities. It learned that 650 Catholic men are now held without trial—the equivalent, in population terms, of 23,000 in Britain. It heard the most moderate witness, a Protestant, denounce internment as a political blunder, the terrorists "greatest asset." It saw and sensed the unwillingness of the Catholic minority ever again to accept rule by a sectarian Protestant party.

Now all of that is what really worried the politicians and their censorious friends about the BBC program: They did not want people to be made aware that British policy in Ireland is a disaster, that the whole system of government

Letters To The Editor

Brevity in letters is requested but length in itself will have no bearing on publication. Writers are advised that needless details and repetitious matter will be edited out of letters. Too frequent contributions from one person on the same subject may be rejected. All letters must be accompanied by writer's true name but may be submitted for publication under a pen name or initials. However, letters will be printed under a pen name or initials at the editor's discretion.

Hail Notre Dame!

Lincoln, Neb.
I have been a Lincoln resident seven months and I notice a certain element of anti-Notre-Dame feeling among citizens and one sports writer here in Lincoln.

The AP on Jan. 4 was comparing the back-to-back championship of the Nebraska football team with the other schools which had won the same. They said that Notre Dame got it for the years 1946 and 1947. That could be correct, but they also got it again in 1929 and 1930. In fact, they have won the so-called national title eight times — 1924, 1929, 1930, 1943, 1946, 1947, 1949 and 1966.

Would The Star please make the record straight in regard to Notre Dame, which I love.
R. L. FLYNN

Praise For Team

LIFE BEGINS AT FORTY:

Criticism Of Hawaii Draws Fire From Dozens Of Enthusiastic Travelers

By ROBERT PETERSON

Which state beckons like Mecca to most folks planning retirement jaunts? It's probably Hawaii. A lifetime of hearing exotic tales about this jewel of the Pacific, combined with its legendary image of waving palms, lilting music, and pretty girls, has implanted in most Americans a deep desire to visit Hawaii before departing this planet.

But does Hawaii live up to expectations? Some say yes, others no. This column recently quoted a couple who said, "We were miserably disappointed. Honolulu and the island of Oahu can most charitably be described as a mess—narrow streets, honky-tonk cafes, and crummy-looking people. And Waikiki Beach is a laugh—just a sad little strip of sand crowded with sunbathers. Auto traffic is jammed and prices are high. We couldn't wait to get back to Michigan."

But dozens of travelers have come to Hawaii's defense. "We loved it," wrote the G. A. Swansfegers of Miami, Fla., "and can't imagine how anyone could have felt cheated. The couple you mention probably made their mistake by judging Hawaii by Waikiki Beach. That would be like judging Florida by Miami Beach."

"While in Oahu, we wonder if that couple took the splendid boat ride which leaves downtown Honolulu around noon and takes one all around the island and to Pearl Harbor and the memorial of the USS Arizona."

"We wonder if they visited the magnificent hi-rise hotels with their lovely dining

CARMICHAEL

DON'T YOU EVER GET THE URGE TO RUN BAREFOOT THROUGH YOUR TRADING STAMPS?

ASTROLOGICAL FORECAST

By SIDNEY OMARR

Forecast For Tuesday

Leo can be generous and fool's gallant and arrogant. Natives of this zodiacal sign can in other words be all too human. The world is a stage where Leo is concerned—and most certainly the play's the thing! Some famous persons born under Leo include Robert Mulholland, George Meany and Sylvia Sydney.

ARIES (March 21-April 19): Intellectual curiosity is featured. You make inquiries and obtain answers. Key is to face truth. Don't hide from facts. Gemini, Virgo in dividuals play prominent roles. Check in vestment procedure.

TAURUS (April 20-May 20): Spotlight on marriage, partnership. Family unit important in any project now undertaken. Be diplomatic. Let others have their say. Your best interests are served through careful observation.

GEMINI (May 21-June 20): Avoid self-deception. Study Taurus message. Be perceptive. You will be able to see through pretense. Pisces person could be involved. Look behind scenes. Guard health. Don't go to extremes.

CANCER (June 21-July 21): Creative efforts pay off; you are rewarded for doing what comes naturally. Personal magnetism attracts opposite sex. You could win popularity contest. Changes due. Air of excitement persists.

LEO (July 22-Aug. 22): Avoid quarrel with family member. What appears an imposition is merely a fishing expedition. Means you are being tested. Maintain calm demeanor. Review real estate opportunity. Get on solid ground.

VIRGO (Aug. 23-Sept. 22): New approach helps crystallize idea. Directed play to intellectual curiosity. Be independent. original. Set own pace. You can earn respect, plaudits.

LIBRA (Sept. 23-Oct. 22): Be flexible. exhibit charm and humor. More may be involved—but this is no valid reason for undue tension. Message will become increasingly clear. Wait! is due. You get pleasant financial surprise.

SCORPIO (Oct. 23-Nov. 21): Timing improves. Obtain hint from Libra message. Socialize. increase contacts and opportunities. Check messages, long-distance calls. Professional associates invade your life. Take initiative.

SAGITTARIUS (Nov. 22-Dec. 21): cherish privacy. Don't permit any person to invade your rights in that area. Transform mere mood into inspiration. Your needs can met—key is to make clear your motives. Then pieces fall in place.

CAPRICORN (Dec. 22-Jan. 19): Communicate with those who share interests. Get going on dialogue. Express desires, needs. Accept social invitation. Be outgoing. Inspire in hopes of friends. material gain from occupation.

AQUARIUS (Jan. 20-Feb. 18): Family member could help you connect in area that aids in fulfilling aspirations. Taurus and Libra individuals figure prominently. Your goal is with reach. Invest in your own ideas.

PISCES (Feb. 19-March 20): Plan ahead, be selective. Don't fall for sob stories. Consider your own needs. Be sympathetic without being foolish. Study Aquarius message for hint. One who is meting out met-key is to make clear your motives. Then pieces fall in place.

IF TODAY IS YOUR BIRTHDAY you are intuitive, a natural teacher, an individual able to overcome numerous obstacles. You are at your best when odds appear to favor opposition. You are an upshot kid. Toward end of the year there will be some remarkable changes in your life-style.

Criticism Of Hawaii Draws Fire From Dozens Of Enthusiastic Travelers

By ROBERT PETERSON

Which state beckons like Mecca to most folks planning retirement jaunts? It's probably Hawaii. A lifetime of hearing exotic tales about this jewel of the Pacific, combined with its legendary image of waving palms, lilting music, and pretty girls, has implanted in most Americans a deep desire to visit Hawaii before departing this planet.

But does Hawaii live up to expectations? Some say yes, others no. This column recently quoted a couple who said, "We were miserably disappointed. Honolulu and the island of Oahu can most charitably be described as a mess—narrow streets, honky-tonk cafes, and crummy-looking people. And Waikiki Beach is a laugh—just a sad little strip of sand crowded with sunbathers. Auto traffic is jammed and prices are high. We couldn't wait to get back to Michigan."

But dozens of travelers have come to Hawaii's defense. "We loved it," write the G. A. Swansfegers of Miami, Fla., "and can't imagine how anyone could have felt cheated. The couple you mention probably made their mistake by judging Hawaii by Waikiki Beach. That would be like judging Florida by Miami Beach."

"While in Oahu, we wonder if that couple took the splendid boat ride which leaves downtown Honolulu around noon and takes one all around the island and to Pearl Harbor and the memorial of the USS Arizona."

"We wonder if they visited the magnificent hi-rise hotels with their lovely dining

CARMICHAEL

ASTROLOGICAL FORECAST

By SIDNEY OMARR

Forecast For Tuesday

Leo can be generous and foolish, gallant and arrogant. Natives of this zodiacal sign can, in other words, be all too human. The world is a stage where Leo is concerned—and, most certainly, the play's the thing! Some famous persons born under Leo include Robert Mitchum, George C. Scott, and Sylvia Syms.

ARIES (March 21-April 19): Intellectual curiosity is featured. You make inquiries and obtain answers. Key is to face truth; don't hide from facts. Gemini, Virgo individuals play prominent roles. Check investment procedure.

TAURUS (April 20-May 20): Spotlight on marriage, partnership. Family unit important in any project now undertaken. Be diplomatic. Let others have their say. Your best interests are served through careful observation.

GEMINI (May 21-June 20): Avoid self-deception. Study Taurus message. Be perceptive. You will be able to see through pretense. Places person could be involved. Look behind scenes. Guard health. Don't go to extremes.

CANCER (June 21-July 22): Creative efforts pay off; you are rewarded for doing what comes naturally. Personal magnetism attracts opposite sex. You could win popularity contest. Changes due. Air of excitement persists.

LEO (July 23-Aug. 22): Avoid quarrel with family member. What appears an imposition is merely a fishing expedition. Means you are being tested. Maintain calm demeanor. Review real estate opportunity. Get on solid ground.

VIRGO (Aug. 23-Sept. 22): New approach helps crystallize idea. Discard old hat concepts. Be flexible. Give full play to intellectual curiosity. Be in play to intellectual curiosity. Be in play to intellectual curiosity. Be in play to intellectual curiosity.

LIBRA (Sept. 23-Oct. 22): Be flexible; exhibit charm and humor. Money may be involved—but this is no valid reason for undue tension. Message will become increasingly clear. Windfall is due. You get pleasant financial surprise.

SCORPIO (Oct. 23-Nov. 21): Timing improves. Obtain hint from Libra message. Socialize; increase contacts and opportunities. Check messages, long-distance calls. Professional associates distance calls. Expressive if you take initiative.

SAGITTARIUS (Nov. 22-Dec. 21): Cherish privacy. Don't permit any person to invade your rights in that area. Transform mere mood into inspiration. Your needs can be met—key is to make clear your motives. Then pieces fall in place.

CAPRICORN (Dec. 22-Jan. 19): Communicate with those who share interests. Get going on dialogue. Express desires, needs. Accept social invitation. Be outgoing. Spotlight is on hopes, friends, material gain from occupation.

AQUARIUS (Jan. 20-Feb. 18): Family member could help you connect in area that aids in fulfilling aspirations. Taurus and Libra individuals figure prominently. Your goal is with reach, invest in your own ideas.

PISCES (Feb. 19-March 20): Plan ahead; be selective. Don't fall for sob story. Consider your own needs. Be sympathetic without being foolish. Study Aquarius message for hint. One who is metaphysically inclined could aid.

IF TODAY IS YOUR BIRTHDAY you are intuitive, a natural teacher, an individual able to overcome numerous obstacles. You are at your best when odds appear to favor opponent. You are an upset kid. Toward end of this year, there will be some remarkable changes in your life-style.

Policemen Are Visiting Schools

... Omaha Program Helping Build A Respect For The Law

Omaha, Neb. (AP) — Omaha Police Sgt. Merrill D. Putnam has voluntarily added to his regular duties a new "beat" which, he says, involves more than building a respect for the law.

His new assignment puts him at the "head of the class" in many rooms at Kellom School. It is designed to build "a friendly type of atmosphere" between police and young persons, Putnam said.

Putnam and several other

policemen have been visiting about 25 schools, mostly in the low income areas, as part of a police community relations effort aimed at developing better communications between policemen and persons in districts which the officers patrol.

The visits are 15 to 20 minute stops while officers are patrolling in the school neighborhood, or during their lunch period while on patrol.

Putnam, who along with

another policeman visits Kellom School at least once a week, talks to one class for about 15 minutes on each visit and then shakes the hand of each student.

"The kids always act like something's wrong when I walk into their room for the first time," Putnam said. He added they're shy and often apparently afraid to ask questions.

But, he said, He'll later see many of the youngsters he's spoken to while on a visit to a

different classroom 'and they'll run up and want to hold my hand while walking down the hallway.'

The program, started in September, is being started at more schools, said Duane Wilson, supervisor of the Human Community relations services Department of the Omaha School District.

During most visits officers eat lunch in the school cafeteria in an effort to meet students, teachers and administrators, said Lt. Joseph Friend, head of the police Community Relations Unit.

In some cases, as at Kellom, the officers have voluntarily tried to visit classrooms as much as once a week, he said.

The program has been aimed at more than just the youngsters, Wilson said. "Some of the teachers have hang ups about police work, too," he said.

We try to get the policemen to go in for coffee and rolls with the teachers during the mornings once in a while, too," he said.

Friend said the visitation program first centered in schools in low income areas because police-community relations "have not been the best in these particular areas."

Curtis Says Sen. Kennedy 'Could Well Be' Nominee

OMAHA, Neb. (AP) — Sen. Carl T. Curtis said Monday Edward Kennedy "could well be" the Democratic presidential nominee and that Wilbur Mills shouldn't be ruled out as a vice presidential possibility.

Curtis made the comments in an interview with the Omaha World-Herald. The Republican senator was in Omaha to campaign for re-election.

'Best of Two Worlds' Curtis said Kennedy "has the best of two worlds."

If President Nixon appears to be a strong bet for re-election, Kennedy can simply remain on the sidelines, Curtis said. "If, on the other hand, he decides Nixon is a sure loser the convention (Democratic) can be his."

Jensen Is Named Co-Chairman Of McGovern Effort

Omaha (AP) — Former Gov. Frank B. Morrison, chairman of the Nebraska Citizens for McGovern Committee, said Monday former State Sen. Hans Jensen of Aurora will become co-chairman.

Jensen, presently mayor of Aurora, Neb., was campaign manager for John F. Kennedy in Nebraska in 1960 and was co-chairman of Robert Kennedy's Nebraska campaign in 1968.

South Dakota Sen. George McGovern is seeking the Democratic presidential nomination.

Curtis said. "Even in Republican territory, the Kennedy charisma is there. People want to touch him, get a glimpse of him, get an autograph."

Kennedy write-in campaign in New Hampshire "might be a sleeper," he said.

Party In Trouble Curtis said the national Democratic party is in trouble in the South.

"Congressman Mills of Arkansas would be regarded as a Southerner but yet be acceptable to many Northern liberals," he said.

Mills has one of the most liberal records in Congress, Curtis said.

Commenting on the Republican party, Curtis said of vice President Spiro Agnew: "I think that in addition to proving himself very capable, he is also a symbol. To remove him would cause uneasiness among conservative Republicans."

Hopson Named Association Head

Grand Island (AP) — Jack Hopson of Omaha was named president of the Nebraska Electronics Service Association at its quarterly meeting in Grand Island.

Gordon Monie of Arapahoe was named secretary; Charles Ennyear, Lincoln, treasurer; Jim Lovercheck, Ogallala, director at large, and area vice presidents: Jim Lentz, Kearney; Lester McConnell, Sidney, and Bob Royce, Omaha.

Across Nebraska

Davis Chosen Head Otoe County Bar

Nebraska City — William F. Davis, city attorney for Nebraska City and Otoe County attorney, is the new president of the Otoe County Bar Association. Edwin Gelscher is vice president and Raymond Freichs, secretary-treasurer.

Winters To Address Beatrice Banquet

Beatrice — Dr. Carl S. Winters of Oak Park, Ill., on the lecturing staff of General Motors Corporation, will be guest speaker at the annual Beatrice Chamber of Commerce banquet here Feb. 8. Other features of the banquet include announcement of the Good Neighbor Award recipient, the outstanding Women's Division member, the Top Go-Fer Award and the Distinguished Service Award presented by the Beatrice JayCees to the outstanding young man of the year.

March Of Dimes Cake Bake Planned

Plymouth — The third annual March of Dimes cake bake will be conducted Jan. 19-20 in the Plymouth auditorium with the auction beginning at 7:30 p.m. Saturday, Jan. 22. Local men will bake cakes from 4 p.m. to 9 p.m. both days. All proceeds from the sales will go to the March of Dimes.

USDA Detains Meat In Nebraska

Chicago (AP) — More than 2,000 pounds of meat and meat products were detained in Nebraska in December by the U.S. Department of Agriculture. USDA officials in Chicago said the detentions resulted from routine investigations made in cooperation with various state agencies of non-federally inspected meat found in interstate commerce, and of federally inspected meats suspected of being unwholesome, adulterated or misbranded.

Taxi Service In McCook Will End

McCook (AP) — A&E Taxi and Delivery Service of McCook plans to suspend operations in mid-February. Operator Kenneth Ebert says residents "just aren't using the cab." There is no other taxi service in McCook.

Woodland To Attend NFO Gathering

Beatrice (AP) — DeVon Woodland, Blackfoot, Idaho, national vice president of the National Farmers Organization, will be the featured speaker at the Gage County NFO banquet in Beatrice Jan. 18.

Senators Will Discuss State Aid To Education

Alliance (AP) — State Sen. Leslie Stull of Alliance, Richard Marvel of Hastings, Jerome Warner of Waverly and Donald Elrod of Grand Island will discuss state aid to education and property taxes at a public meeting here Jan. 20. The session is being sponsored by the Alliance Board of Education.

REAP Funds Increased For State

Washington (AP) — Rep. Dave Martin, R-Neb., has announced an increase of \$1.5 million in the funding of the Rural Environmental Assistance Program (REAP) for Nebraska in fiscal 1972. This program, which replaces the former Agricultural Conservation Program (ACP), includes flood control, pollution abatement, bank stabilization, soil erosion control, and other land and water conservation measures.

Schenken Designated Royal Society Fellow

Omaha (AP) — Dr. John R. Schenken, director of laboratories at Nebraska Methodist Hospital and Children's Memorial Hospital and a professor of pathology at the University of Nebraska College of Medicine, has been designated a fellow of the Royal Society of Health, headquartered in London, England.

Personal Property Tax Exemption Plan Is Backed

... In Effort Directed Primarily At Rural Nebraskans

By BOB GUENTHER Star Staff Writer

The Exon Administration Monday revealed the statewide, whirlwind tour it has scheduled for January to present to Nebraskans the governor's version of the personal property tax exemption.

Three have already been held, and 12 more are planned.

The next presentation is slated for Jan. 12 before the Nuckolls County Soil and Water Conservation District. It is followed by a session before the AFL-CIO in Lincoln on Jan. 14. Next is Jan. 16 in Lincoln for the Democratic State Central Committee.

Then comes a series of sessions before various Chambers of Commerce in McCook, North Platte and Beatrice (Gage Co. Taxpayers) on the 24th. The Ogallala and Kimball Chambers will hear it on the 25th, followed by Scottsbluff and Sidney on the 26th and Alliance and Chadron on the 27th.

The administration officials making the presentations are Gov. J. James Exon, Tax Commissioner Bill Peters, and administrative aides John L. Sullivan and Norm Otto.

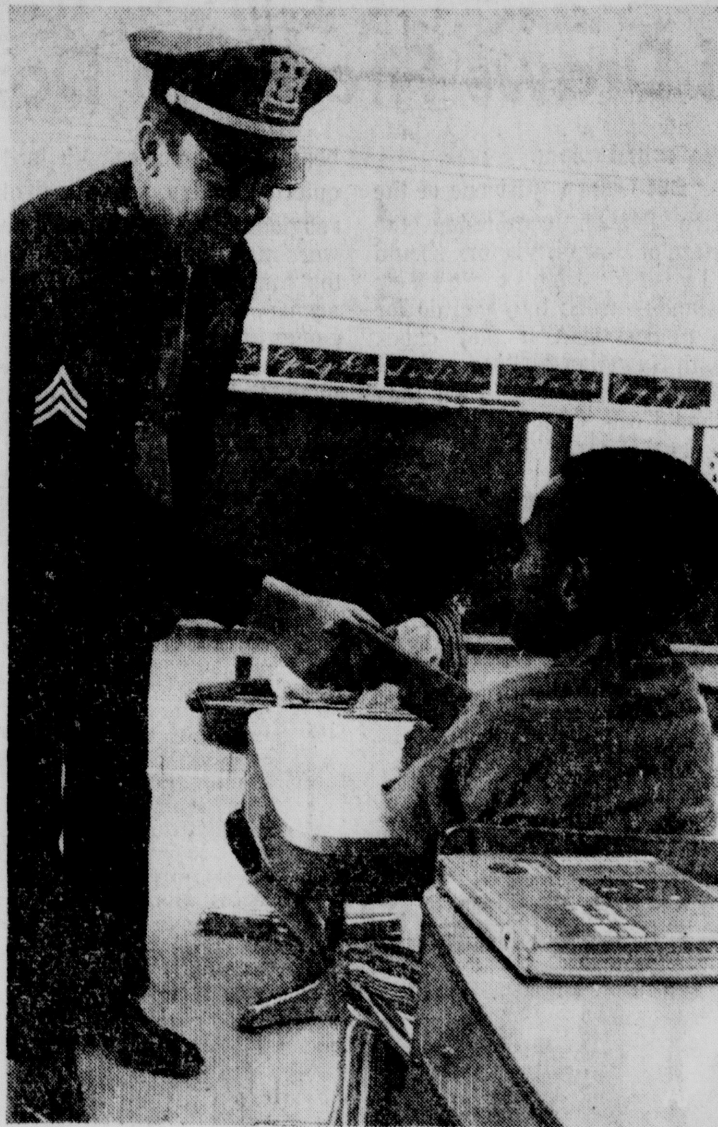

Sullivan noted that the effort is directed primarily at rural Nebraskans because they have been the prime supporters of Crofton Sen. Jules Burbach's property tax exemption plan.

"I think Omaha and Lincoln residents have heard more about the Exon proposal and agree with the governor's plan. Now we must convince outstate Nebraskans," he said.

Sullivan reported that the governor's office is getting more requests daily to present his tax plan to the voters and said so far the presentations have "gone over big."

"Every day that goes by hurts the Burbach bill's chances of passage," he said.

Under Burbach's plan, 90% of farm and business equipment and inventory would be exempted from property taxes in 5 years. The state would then have to raise the sales and in-

STORY AT LEFT

PUTNAM ... meets Kellom student Steve Weeks, 9.

Incidents Of Prison Violence Cited In Defense Of State's Hostage Law

Citing recent incidents of prison violence, the State of Nebraska Monday asked the Nebraska Supreme Court to uphold the prison sentence given a state penal complex inmate involved in a 1970 prison disruption at the Nebraska Penitentiary when two guards were held hostage.

Clarence Eckstein was convicted of being an inmate who detains another person for the purpose of compelling an act.

Eckstein was one of a group of inmates who held the two guards, Vance Schrader and Irwin Siemens, hostage, allegedly to seek approval of a list of demands presented to prison officials.

The guards were freed unharmed after being held hostage for about 20 hours.

Eckstein is challenging the constitutionality of the statute under which he was convicted, contending it is unconstitutional in that the law singles out prison inmates, thus allegedly violating the equal protection clause of the 14th Amendment.

However, the state, in a brief

benefit very little under Burbach's proposal.

Instead Exon has advocated a 50% exemption plan spread over 6 or 7 years with a maximum exemption of \$1,000. Under this alternative, he said, the majority of Nebraskans would receive relief without an increase in the sales or income taxes.

filed Monday by Asst. Atty. Gen. Calvin Robinson, contended the law is within reason.

"The public danger in such acts becomes augmented when they are committed in a penal setting with its obvious explosive potential," Robinson said.

"We need mention only in

Ellsworth Hassen Charged With Embezzling Union Dues

Omaha (AP) — A 63-year-old truck driver for the Douglas County Highway Department was charged Monday with embezzling union dues.

Deputy County Atty. Frank Pane filed the charge against Ellsworth N. Hassen, former treasurer of Local 848 of the American Federation of State, County and Municipal Employees (AFSCME).

Hassen, who has worked for the county 10 years, is accused of embezzling about \$1,300 in dues between March 23 and Aug. 15, 1971.

Hassen and 49 other highway department employees resigned from Local 848 and joined Teamsters Local 594 about three months ago.

The charge was filed after a complaint by Lambert Eitel of St. Paul, Minn., area director of the AFSCME.

The dues allegedly taken were in the form of deductions from employees' paychecks, Pane said. Hassen is charged with cashing checks — made out by the county to him as union treasurer — for his own use, Pane said.

Upon conviction, the charge carries a sentence of one to seven years.

Laramie, Wyo. (AP) — A charge has been dropped in Albany County District Court at Laramie against a University of Wyoming student who had been accused of negligent homicide.

Greg Johnson, 19, of Cheyenne had been charged in connection with the August, 1971, traffic death of 68-year-old Robert A. Nelson of Lincoln, Neb., a former assistant attorney general in that state.

The charge was dropped by the court because of lack of evidence.

Nelson was killed when his car left Interstate 80 one mile west of Laramie and the original charge contended Johnson's vehicle had forced Nelson's off the road.

Dahl resigned the post. His term expires in June.

In another action taken by the Tri-County Chamber of Commerce, which represents members in Otoe, Nemaha and Johnson Counties, has named Willis Sellhorn of Tecumseh as president to complete the unexpired term of Selmar Dahl of Peru.

Grant Will Assist Alcoholism Battle

A \$20,000 federal grant has made possible the development of a comprehensive program for alcoholism prevention, treatment and rehabilitation, according to Joe Golden of the State Office of Planning and Programming.

Golden reported the program which eventually could involve \$205,000 in federal funds is being drafted to coordinate various existing private, federal and state agencies. For instance, Golden said the Nebraska Alcoholism Commission, the State Patrol,

Department of Institutions and Alcoholics Anonymous would participate.

The plan, which Golden expects to be completed by June 30, first faces the problem of identifying Nebraska's alcoholics.

"We are attempting to measure the number of alcoholics in a valid manner. Some have assumed the number of those in the Hastings Center represents an accurate picture of the problem. Others feel our record highway deaths in 1971 indicates the magnitude of the problem. In any case we're trying to find out," he said.

However, Golden indicated this is only one of the problems the study must face.

In announcing the program, Gov. J. James Exon said, "In addition to the tragedy of wasted lives and family problems caused by alcoholism, the number of highway accidents caused by alcohol abuse points out the severe nature of the problem."

The program's approach to solving the problem, Golden said, is still under study. The program was made possible through federal legislation sponsored by Sen. Harold Hughes, D-La.

3,280-Acre Site Tabbed For Ag Lab

North Platte (AP) — A 3,280-acre site 31 miles north of here in McPherson County has been selected by the University of Nebraska Board of Regents for the Sand Hills Agricultural Laboratory which will be operated as part of NU's North Platte station.

The site selected is located about 10 miles from the Tryon-Ringgold Junction of Highways 92-97 and was leased for 10 years from Mr. and Mrs. Fred William Smith and Mr. and Mrs. Fay Thompson, all of Tryon.

Negotiations for the site, subject of a four-month search, were completed last month.

The Regents reported the site was selected because of its excellent accessibility, its good underground water potential, and potential irrigation development sites, and its climate which includes an 18-19 inch annual rainfall and a mean of 147 frost free days.

The selection committee inspected 16 of 35 proposed sites before making the selection.

Union Sues West Point Over Firings

Omaha (AP) — Teamsters Public Employees Union Local 594 and five former West Point city employees have filed suit in U.S. District Court here alleging that the five were fired last month because of efforts to organize West Point city workers.

The suit names as defendants West Point Mayor Dal Benne and the six members of the West Point City Council, Ralph Beacker, Arnold Jahnke, Allen Johnson, Charles Lindell, Edward King and Aelred Hugo.

The plaintiffs are Earl Boston, Allen L. Greckel, May Dee Stoltzman, Myron B. Warner and Ray Wortman.

They asked damages of \$5,000 each and an injunction against the city which would prohibit city officials from interfering with efforts to unionize city employees.

The petition states that the five began efforts Dec. 10 to organize workers, and that they were fired Dec. 27 by the mayor and city council as a result of their union activities.

The suit contends the dismissal was a violation of the constitutional rights of the employees.

The union local is based in Omaha and includes members who work for the City of Omaha, Douglas County and other local governmental agencies.

Judge E. F. Carter Re-Elected Head Of Boys State

Judge Edward P. Carter of Lincoln was re-elected president of Cornhusker Boys State at the board of director's annual meeting Monday.

Also renamed were Robert Riddle and Gerald Vitamvas as vice presidents, Ray Olman as secretary-treasurer, and Alden Johnson as chief counselor, all of Lincoln.

The board announced the 32nd annual Cornhusker Boys State, expected to be attended by 400 high school juniors from over the state, will be held June 10-16 at the Nebraska Center.

Cornhusker Boys State, sponsored by the Nebraska American Legion, is a week-long experience in the workings of state government and citizenship.

Olman said the session's fee was increased by \$5 this year to \$50 by the board because of increasing costs.

islands. The Jupiter of Epirotiki Lines sails the Aegean during the summer.

This year, for the first time, the ship is dipping into the rich, winter Caribbean trade. Adding the blue-and-white flag of Greece to the steaming ensigns of Norway and Sweden, the Netherlands, England and France.

We are headed for warm, exotic ports. French Martinique and English-speaking Jamaica Rich Caracas. Old Panama and Cartagena, both scarred by Henry Morgan's buccaneer cannon.

(He died "Sir Henry Morgan" in Jamaica. A bottle of rum in his sword hand. Queen Elizabeth rewarded the lucky.)

The Jupiter is carrying 300 people Seven days from Curacao through the western Caribbean to Jamaica Seven days through the eastern islands back to Curacao.

It carries a Greek crew (All the bartenders seem to be named "Spiro" or "Zorba").

There are three bars. A big

dining room. A deck buffet. (Stuffed grape leaves and Greek olives to show you what flag you're sailing under.)

The man from Epirotiki Line said: "The next big thing in Caribbean cruise ships will be the gambling casino. Three ships already are carrying them in the next few years, I think all ships will have a casino."

He said Epirotiki had considered it this cruise for the Jupiter. "But we couldn't come to an agreement on the location. They wanted to take over one of the public rooms. And we couldn't see letting that space go."

The gambling casino aboard ship is a financial attraction.

"The ship gets a good percentage of the play. It's an added thing for the passenger—look how well the horse playing games do."

"The gambling people put ten croupiers aboard and pay their fare. That's ten steady paying passengers. It's a very tempting proposition."

We had a tall, rummy drink at the deck bar. The captain shook his gourds at us for "good morning." He did a little Greek dance step and shook them at the pretty girls.

There are a lot of girl singles. Most of them from England. They have the fair and rosy cheek complexions of Britain and have to watch the strong Caribbean sun.

About a third of the passengers are Mexican. The dance band is Italian.

Shipboard language is a mixture of Greek, English and Mexican. A Mexican ordering breakfast in English from a Greek waiter produces some strange things.

It's the easy life. We sail a day rocking on the warm, Carb sea. We make a port for

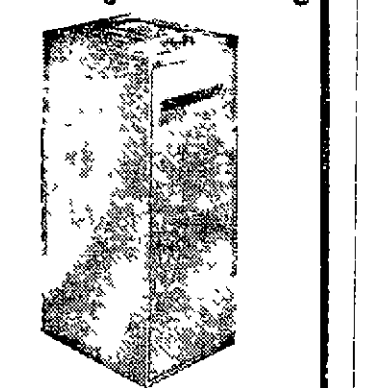

N. Korea Says S. Korea Fired Machine Guns

Tokyo (AP) — North Korea said South Korean troops fired hundreds of large-caliber machine-gun bullets at a North Korean post south of Mt. Osong-san in the central sector of the demilitarized zone.

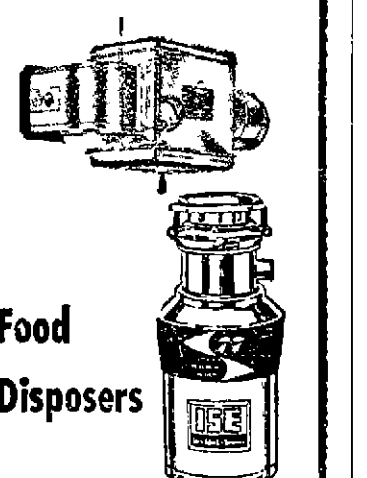

Pyeongyang's Korean Central News Agency said the incident happened in "the very spot" where the South Koreans "had penetrated armed provocations on the previous two days."

Martin Heights Lincoln Heights Bishop Heights Eastmont

Birthdays continue to receive top billing in the suburban neighborhoods — and when those certain days happen to coincide with the anniversary of a friend or relative we find suburban dwellers sharing the spotlight.

That was the case in Martin Heights on Sunday, when a special threesome shared the honors, cake, and even the candles.

The afternoon party was held at the home of Mr. and Mrs. Ed Hansen — and the honorees included Mr. and Mrs. Hansen's son, Gary, whose birthday was on that day; their granddaughter, Miss Lisa Hansen, daughter of Mr. and Mrs. Alan Hansen; and the grandmother of mother, Gary and great-grandmother of Lisa — Mrs. A. D. Hansen of Sioux City, Iowa, whose birthdays were Monday, Jan. 10.

And this was the first time the Iowan had been able to share her birthday with her grandson and great-granddaughter. You see, Mr. and Mrs. Ed Hansen drove to Sioux City on Saturday to bring Mr. Hansen's mother to Lincoln for the celebration. She will remain here through Thursday when there

suburbia

will be another party — this time in honor of Ed Hansen's birthday.

The guest list for the celebration at which four generations were represented included Mr. and Mrs. Gary T. Hansen, and Jeffery and Kimberley; Mr. and Mrs. Alan M. Hansen and Lisa Renee and Scott, and Mr. and Mrs. Ed Hansen's son-in-law and daughter, Mr. and Mrs. Thomas Tegley and Tommy.

The Lincoln Heights home of Mr. and Mrs. Harold Sattler was the site of another recent family reunion of sorts.

The family get-together took place during the holidays when the Sattler's son-in-law and daughter, Mr. and Mrs. James Schmitz, arrived from their home in Bakersfield, Calif., for a two-week visit.

Also on hand for the holidays were the Sattler's son-in-law and daughter, Mr. and Mrs. Jaime Obrecht and their daughter, Kali Joy; the suburban couple's son and daughter-in-law, Mr. and Mrs. Terry Sattler and another son, Tom.

By the way, Tom Sattler will depart the end of this month to enter service in the U.S. Navy. He will attend radar school.

Mrs. Richard Kosman was a hostess just preceding New Year's when she entertained at her Bishop Heights home, forty feminine guests — all from the neighborhood who dropped in between 10 o'clock and 12:30 o'clock for coffee and sweet rolls and a chance to do some visiting that is often delayed during the busy holiday season.

Mr. and Mrs. Donald Trumble and three of their children, Donna, Dennis and Tim, set out from their Eastmont home just prior to Christmas for a visit in Utah. Their destination was Salt Lake City and the home of Mr. and Mrs. Trumble's son-in-law and daughter, Dr. and Mrs. Johnny Hess and their family. Mrs. Hess is the former Jeanne Trumble.

The travelers from Lincoln were especially anxious to see the Hess' two children, Julie who is 3 years old and Bryon who is six months old. The Hess family moved to Utah last July, where Dr. Hess is on the faculty of the University of Utah.

The days were busy during the week-long stay. Among the activities were skiing at children, and an evening of ballet at the Park City resort for the three Trumble University of Utah where they presented a production of "Nutcracker Suite" ballet.

Christmas dinner was at the Hess home, and a few days later — on Dec. 30, the family returned to Lincoln.

Just last week, the Trumble family drove Miss Donna Trumble, a student at St. Mary's College in Leavenworth, Kan., to Kansas City for a four-week co-swap program through the College. Miss Trumble will be working with Headstart in the Kansas City area.

Mr. and Mrs. Donald G. Bedea of Maple Village visited with both sets of parents during the holiday season. Visits were made to Brownville to see Mrs. Bedea's parents, Mr. and Mrs. Melvin Armstrong — and then to Table Rock where they were guests of Mr. Bedea's parents, Mr. and Mrs. Harold Shuss. Of to see their two grandchildren, Steve and Doug Bedea.

Steve Bedea celebrated his seventh birthday on Jan. 1 with the New Year. He was joined by some friends on the Thursday prior to his birthday for a dinner at Shakey's and a cake with candles as well.

Coed Is A Bride

At a 7 o'clock ceremony, which took place on Saturday evening, Jan. 1, the marriage of Miss Sarah Jane Christiansen, daughter of Mr. and Mrs. Lester H. Christiansen, to Russell Thomas Stein, son of Mrs. Mary Stein of Webster City, Iowa, was solemnized at the Second Baptist Church. The Rev. Paul Virts read the lines of the service.

Miss Judy Bousquet served as the bride's maid of honor and only attendant.

David L. Stein of Humboldt, Iowa attended Mr. Stein as best man; and the corps of ushers included Michael Stein of Oskaloosa, Iowa; Larry Wiese, Sandy Allen, and Jim Henrichson, all of Omaha.

For her wedding, the bride chose a gown fashioned of satin in the Empire mode. The taut bodice featured an oval neckline, and the long, tapered sleeves were trimmed with a band of lace and seed pearls which extended from the shoulder to the wrist. A satin ribbon, accented with bows, encircled the raised waistline, and the lace banding formed panels which extended from the waistline to the hem of the A-line skirt. Her floor-length veil of silk illusion was held in place by a satin bow; and she carried a bouquet of gardenias and stephanotis.

Mr. Stein and his bride will reside at 4310 Camden St. in Omaha.

The bride is a sophomore at the University of Nebraska where she is affiliated with Towne Club.

Afternoon Wedding

On Saturday afternoon, Jan. 8, the wedding of Miss Celeste Marie Ferrara, daughter of Mr. and Mrs. J. R. Ferrara, and Robert Hart Barlow, son of Mr. and Mrs. Robert A. Barlow, was solemnized at the home of the bride's parents. Judge Herbert A. Ronin solemnized at the 2 o'clock ceremony.

The bride chose her sister, Miss Loraine Ferrara, as her honor attendant, and the bridesmaids were Miss Joyce Sward and Miss Lucille Marks.

Paul Malone served Mr. Barlow as best man; and Steve Rogers, Steve Rall, and William Grant of Denver, Colo., seated the guests.

The bride appeared in a gown of ivory lace over satin. The Empire bodice, fashioned with a cameo neckline, contoured with a ruffle of satin, and long, tapered sleeves, was fitted above the A-line skirt which was completed with an aisle-wide train. A satin bow held in place her shoulder-length veil, and she carried a cascade of stephanotis, carnations, chrysanthemums and garnet roses.

Following a honeymoon trip to Colorado, Mr. Barlow and his bride, both of whom are students at the University of Nebraska, will reside in Lincoln.

MISS BETTY KANTOR

This morning the engagement of Miss Betty Kantor, daughter of Mrs. Raymond Kantor of Seward, and the late Mr. Kantor, to Larry Koester, son of Mr. and Mrs. George Koester of Wellfleet, is announced by the bride-elect's mother.

The wedding is planned for Saturday, June 3.

Miss Kantor is a senior at the Lincoln General Hospital School of Nursing.

Mr. Koester is a senior at the University of Nebraska where he is majoring in chemical engineering.

The bidding:
East South West North
Pass 1NT Pass 3NT

Opening lead — six of clubs.

It may seem natural for a declarer playing notrump to win the opening lead whenever he has the suit led doubly stopped, but frequently he is better advised to refuse the first trick in such case.

Here is a typical hand. West leads a club to East's jack, and let's assume South wins the trick because he has a doublestopper.

In order to make the contract, declarer must establish both the spades and the diamonds, but if he happens to go for diamonds first he goes down one. East would win with the ace, return a club to establish West's suit, and South could not score more than eight tricks.

Admittedly, if declarer attacked spades first, forcing out West's entry card before his suit became established, South would eventually finish with ten tricks.

The vital decision — which suit to tackle first — can be successfully bypassed by simply permitting East to win the opening club lead with the jack.

In that case, after South wins

the club continuation at trick two, he is bound to make the contract whether he leads spades or diamonds next.

Thus, if he forces out the ace of spades right away, West's clubs become useless because he has no entry card for them. Similarly, if he forces out the ace of diamonds first, East will not have a club to return and South is sure to end up with ten tricks.

So, the moral is that declarer can avoid a very nasty guess by simply ducking East's jack of clubs. But if he elected instead to win the jack, he would in effect be forcing himself to test his clairvoyant powers.

Martin Heights Lincoln Heights Bishop Heights Eastmont

Birthdays continue to receive top billing in the suburban neighborhoods — and when those certain days happen to coincide with the anniversary of a friend or relative we find suburban dwellers sharing the spotlight.

That was the case in Martin Heights on Sunday, when a special threesome shared the honors, cake, and even the candles.

The afternoon party was held at the home of Mr. and Mrs. Ed Hansen—and the honorees included Mr. and Mrs. Hansen's son, Gary, whose birthday was on that day; their granddaughter, Miss Lisa Hansen, daughter of Mr. and Mrs. Alan Hansen; and the grandmother of mother, Gary and great-grandmother of Lisa—Mrs. A. D. Hansen of Sioux City, Iowa, whose birthdays were Monday, Jan. 10.

And this was the first time the Iowan had been able to share her birthday with her grandson and great-granddaughter. You see, Mr. and Mrs. Ed Hansen drove to Sioux City on Saturday to bring Mr. Hansen's mother to Lincoln for the celebration. She will remain here through Thursday when there

suburbia

will be another party — this time in honor of Ed Hansen's birthday.

The guest list for the celebration at which four generations were represented included Mr. and Mrs. Gary T. Hansen, and Jeffery and Kimberley; Mr. and Mrs. Alan M. Hansen and Lisa Renee and Scott, and Mr. and Mrs. Ed Hansen's son-in-law and daughter, Mr. and Mrs. Thomas Tegley and Tommy.

The Lincoln Heights home of Mr. and Mrs. Harold Sattler was the site of another recent family reunion of sorts.

The family get-together took place during the holidays when the Sattler's son-in-law and daughter, Mr. and Mrs. James Schmitt, arrived from their home in Bakersfield, Calif., for a two-week visit.

Also on hand for the holidays were the Sattler's son-in-law and daughter, Mr. and Mrs. Jaime Obrecht and their daughter, Kali Joy; the suburban couple's son and daughter-in-law, Mr. and Mrs. Terry Sattler and another son, Tom.

By the way, Tom Sattler will depart the end of this month to enter service in the U.S. Navy. He will attend radar school.

Mrs. Richard Kosman was a hostess just preceding New Year's when she entertained at her Bishop Heights home, forty feminine guests — all from the neighborhood who dropped in between 10 o'clock and 12:30 o'clock for coffee and sweet rolls and a chance to do some visiting that is often delayed during the busy holiday season.

Mr. and Mrs. Donald Trumble and three of their children, Donna, Dennis and Tim, set out from their Eastmont home just prior to Christmas for a visit in Utah. Their destination was Salt Lake City and the home of Mr. and Mrs. Trumble's son-in-law and daughter, Dr. and Mrs. Johnny Hess and their family. Mrs. Hess is the former Jeanne Trumble.

The travelers from Lincoln were especially anxious to see the Hess' two children, Julie who is 3 years old and Bryon who is six months old. The Hess family moved to Utah last July, where Dr. Hess is on the faculty of the University of Utah.

The days were busy during the week-long stay. Among the activities were skiing at children, and an evening of ballet at the Park City resort for the three Trumble. University of Utah where they presented a production of "Nutcracker Suite" ballet.

Christmas dinner was at the Hess home, and a few days later — on Dec. 30, the family returned to Lincoln.

Just last week, the Trumble family drove Miss Donna Trumble, a student at St. Mary's College in Leavenworth, Kan., to Kansas City for a four-week co-swap program through the College. Miss Trumble will be working with Headstart in the Kansas City area.

Mr. and Mrs. Donald G. Bedea of Maple Village visited with both sets of parents during the holiday season. Visits were made to Brownville to see Mrs. Bedea's parents, Mr. and Mrs. Melvin Armstrong — and then to Table Rock where they were guests of Mr. Bedea's parents, Mr. and Mrs. Harold Shuss. Of to see their two grandchildren, Steve and Doug Bedea.

Steve Bedea celebrated his seventh birthday on Jan. 1 with the New Year. He was joined by some friends on the Thursday prior to his birthday for a dinner at Shakey's and a cake with candles as well.

Coed Is A Bride

At a 7 o'clock ceremony, which took place on Saturday evening, Jan. 1, the marriage of Miss Sarah Jane Christiansen, daughter of Mr. and Mrs. Lester H. Christiansen, to Russell Thomas Stein, son of Mrs. Mary Stein of Webster City, Iowa, was solemnized at the Second Baptist Church. The Rev. Paul Virts read the lines of the service.

Miss Judy Bousquet served as the bride's maid of honor and only attendant.

David L. Stein of Humboldt, Iowa attended Mr. Stein as best man; and the corps of ushers included Michael Stein of Oskaloosa, Iowa; Larry Wiese, Sandy Allen, and Jim Henrichson, all of Omaha.

For her wedding, the bride chose a gown fashioned of satin in the Empire mode. The taut bodice featured an oval neckline, and the long, tapered sleeves were trimmed with a band of lace and seed pearls which extended from the shoulder to the wrist. A satin ribbon, accented with bows, encircled the raised waistline, and the lace banding formed panels which extended from the waistline to the hem of the A-line skirt. Her floor-length veil of silk illusion was held in place by a satin bow; and she carried a bouquet of gardenias and stephanotis.

Mr. Stein and his bride will reside at 4310 Camden St. in Omaha.

The bride is a sophomore at the University of Nebraska where she is affiliated with Towne Club.

Afternoon Wedding

On Saturday afternoon, Jan. 8, the wedding of Miss Celeste Marie Ferrara, daughter of Mr. and Mrs. J. R. Ferrara, and Robert Hart Barlow, son of Mr. and Mrs. Robert A. Barlow, was solemnized at the home of the bride's parents. Judge Herbert A. Ronin solemnized at the 2 o'clock ceremony.

The bride chose her sister, Miss Loraine Ferrara, as her honor attendant, and the bridesmaids were Miss Joyce Sward and Miss Lucille Marks.

Paul Malone served Mr. Barlow as best man; and Steve Rogers, Steve Rall, and William Grant of Denver, Colo., seated the guests.

The bride appeared in a gown of ivory lace over satin. The Empire bodice, fashioned with a cameo neckline, contoured with a ruffle of satin, and long, tapered sleeves, was fitted above the A-line skirt which was completed with an aisle-wide train. A satin bow held in place her shoulder-length veil, and she carried a cascade of stephanotis, carnations, chrysanthemums and garnet roses.

Following a honeymoon trip to Colorado, Mr. Barlow and his bride, both of whom are students at the University of Nebraska, will reside in Lincoln.

MISS BETTY KANTOR

This morning the engagement of Miss Betty Kantor, daughter of Mrs. Raymond Kantor of Seward, and the late Mr. Kantor, to Larry Koester, son of Mr. and Mrs. George Koester of Wellfleet, is announced by the bride-elect's mother.

The wedding is planned for Saturday, June 3.

Miss Kantor is a senior at the Lincoln General Hospital School of Nursing.

Mr. Koester is a senior at the University of Nebraska where he is majoring in chemical engineering.

The bidding:
East South West North
Pass 1NT Pass 3NT

Opening lead — six of clubs.

It may seem natural for a declarer playing notrump to win the opening lead whenever he has the suit led doubly stopped, but frequently he is better advised to refuse the first trick in such case.

Here is a typical hand. West leads a club to East's jack, and let's assume South wins the trick because he has a doublestopper.

In order to make the contract, declarer must establish both the spades and the diamonds, but if he happens to go for diamonds first he goes down one. East would win with the ace, return a club to establish West's suit, and South could not score more than eight tricks.

Admittedly, if declarer attacked spades first, forcing out West's entry card before his suit became established, South would eventually finish with ten tricks.

The vital decision — which suit to tackle first — can be successfully bypassed by simply permitting East to win the opening club lead with the jack.

In that case, after South wins

the club continuation at trick two, he is bound to make the contract whether he leads spades or diamonds next.

Thus, if he forces out the ace of spades right away, West's clubs become useless because he has no entry card for them. Similarly, if he forces out the ace of diamonds first, East will not have a club to return and South is sure to end up with ten tricks.

So, the moral is that declarer can avoid a very nasty guess by simply ducking East's jack of clubs. But if he elected instead to win the jack, he would in effect be forcing himself to test his clairvoyant powers.

The Road To Beauty

Josephine Lowman

Are you one of those who has tried to lose weight over and over again and then given up, or one who has planned to start a diet but never got around to it? If so, you are only human! You probably failed because you really did not know how to do it, and used the wrong methods. Also, you did not know what you could reasonably expect to accomplish in a given length of time.

I think my readers have been successful with my Beauty Improvement Plan (BIP) because I have provided the essential direction and encouragement during the entire process. I have also told them what to expect. They did not have to go off into the wilderness in a vague, lonely, lonesome or self-improvement quest.

Would you like to look and feel from five to ten years younger in just eight weeks? It is entirely possible. I have seen happen many times in my classes and thousands of my readers have written to me about it. Overweight is aging in any way.

This is the third day of my eight week Beauty Improvement Plan. Let us go! Yesterday, I told you how to decide what your ideal weight and therefore, how much you could lose. Today I will advise you about measurements.

We do not need a fortune teller to know where we are out of proportion. A simple mirror and a full length mirror will show us the bad news. However, we must measure carefully in order to make it official. It is also encouraging to compare future measurements with present measurements. The usual guideline for a good figure is no more than two inches difference between the chest and the hips and 10 inches less at the waist than at the hips.

When you measure, be sure that the tape passes straight around your body and try to hold it with the same tightness each time. Measure around the fullest part of the bust, abdomen and hips, and at your natural waistline. If you wear a bra when taking that measurement, be sure to wear the same one each time. Do not give up for the impossible. Remember that bony structure and muscles also affect the figure.

Here are today's menus.

MENUS

Breakfast

Mushrooms and eggs on toast*
Medium nectarine.

*Sauce ½ cup chopped, fresh mushrooms in 1 tbs. corn oil or margarine; when cooked, add egg and scramble. Serve on 1 slice whole wheat or rye toast.

Lunch

1 4 oz. slice boiled beef (cold)
Carrot and cucumber sticks
Horseradish dressing for meat and vegetables*
1 glass skim milk
Horseradish dressing: 3 tbs. yogurt and 1 tsp. horseradish; lemon juice, salt, pepper, and paprika to taste.

Dinner

Shrimp Sauté with Green Peppers*
½ cup white rice
1 glass skim milk
1 medium tangerine
*Sauté ½ green pepper, chopped, and ½ clove garlic, minced, in 1 tbs. corn oil or margarine. When peppers are nearly tender, add 4 oz. of shrimp (fresh or frozen defrosted) and sauté 5 to 10 minutes more until shrimp turn pink. Season with 1 tbs. soy sauce if desired. Serve over rice.
Total calories — 1160.

These are the items you will need for the next two days. Make sure you have these grocery items on hand for the diet menus.

GROCERY LIST

Cantaloupe
Zwieback toast
Fresh mushrooms
Cheese (your choice)
Dehydrated soup greens
Beef broth
Parsley (fresh or dry)
Ground round
Rice
Garlic salt
Tomato sauce
Garlic cloves
Spaghetti
Spinach or lettuce leaves
Low calorie salad dressing
Vanilla ice milk, 3 per cent
Orange
Toasted English muffin
Green onion or chives
Rye wafers
Beef consomme
Potato
Chicken leg, thigh or breast
Strawberries (fresh or frozen)
Soy sauce
Lemon juice

If you have missed the first part of this series or would like to have the entire course in a

booklet, send by my Bip Kit which gives complete directions, calorie counted menus for two weeks, spot reducing exercises, a calorie chart and a chart on which you can watch your beauty line rise as your weight line drops. Send 50 cents (includes postage and handling) and your printed name and address to Josephine Lowman in care of The Lincoln Star.

ABBY

DEAR ABBY: I just read your letter about the woman with two young boys. She said she regretted having the second one. I went thru the same thing.

My oldest is 5 years old and the baby is 15 months old. The older boy was a model child. The baby was a headache from the word go. He cried constantly. He never slept unless I walked him, and to top it off he was built like a Sherman tank and I'm only 100 pounds. Abby, I would have given him away by 3 every morning if I could have, and I hated myself for feeling that way.

I talked it over with my doctor and he told me many mothers have a child like that. So tell that poor woman she is not alone, but to wait until the baby is old enough to run around, amuse himself, eat with the family and play with his brother, and he will settle down. Mine is still a lot of trouble, but he's improved tremendously and now I love him to pieces.

MAN'TUA OHMIO MAMMA

DEAR ABBY: "Happy in San Angelo" praised her psychiatrist for curing her of a depression with hormones. A psychiatrist who even considers a physical cause for an emotional problem instead of blaming it on "mother" is a rare bird apparently found only in Texas. Too bad more of the same aren't around.

AMAZED IN MINNEAPOLIS

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

Include the Newspaper in vacation plans. Your paper by mail will keep you informed while away. Your carrier collects regular home delivery rate on your return.

Indian Hills Fourth Addition Final Plat Wins Council OK

The City Council Monday overrode the City-County Planning Commission's recommendation to deny the final plat of Indian Hills Fourth Addition, located at Sandwood Dr and Smoky Hill Rd.

Attorney David Pierson, representing Herbert Brothers, told the Council that the developers want to put in one more lot in the area to eliminate an unsightly corner space.

In a 4 to 2 vote the Council agreed to the proposal despite objections voiced by Council members Steve Cook and Mrs. Helen Boosalis.

Denial Recommended
Public Works director Robert Obering said the lot is in the Stevens Creek drainage basin which does not yet have a sewer system. He said it is city policy not to extend sanitary sewer lines into a different drainage area — which would be required in this case. He noted that the planning commission recommended denial on this basis.

Obering added, "You have to draw the line somewhere."

Cook agreed saying, "It's important that we have some policies we stand by."

Councilman Sikyta Peterson,

Dick Harlstock and Richard Baker voted in favor of the motion, with Cook and Mrs. Boosalis dissenting.

Plat Accepted
In other action the Council also accepted the plat of Briarhurst First Addition, located north of Old Cheney Rd after working out an agreement with the developers.

Attorney Chauncey Barney, representing John Hoppe, objected at last week's session to the requirement that the developer be required to pay half the cost of construction of a 54-inch storm sewer in 48th St.

Public Works director Robert Obering reported Monday that his department and the developers had worked out an agreement whereby the developers would pay \$21,000—the remaining portion of their part of the storm sewer's construction.

Obering noted that the total cost of the storm sewer will be \$92,000, with the city's share being \$61,000.

In other action the Council approved 5 to 1 Mayor Sam Schwartzkopf's appointments to the Lincoln Electric System (LES) Board for terms expiring Dec. 14, 1974.

James Bradley was appointed and Burnham Yates and Ted Sick were reappointed to the LES Board. Councilman Bob Sikyta cast the lone dissenting vote.

The Council unanimously approved the mayor's appointments of Paul Schorr Jr., Dr. Carl George, Walter Nolle and Jack Holmquist to the Hospital Board for terms expiring Jan. 1, 1975.

In further action the Council held over one week a public hearing into the complaint against Brothers Three, Inc., doing business as the High Chaparral in Lincoln Air Park West, to show cause why their Class C liquor license should not be revoked.

The club was granted a 90-day extension by the Council on Dec. 14th and has not been in business since Nov. 6th.

In other action the Council gave the go-ahead for the sale of the Havelock Fire Station to the Salvation Army.

Representatives of the Salvation Army have voiced interest in buying the facility, located at 60th St and Havelock Ave. which has been declared surplus property by the city.

Ordinances, Third Reading
—Approved paving district 2370, at 45th St between the south line of Gladstone and the north line of Judson.
—Approved paving district 2371, at Gariand between east curb line of 52nd St and west line of 54th St.
—Placed on pending water district 844—a six-inch water main in 57th St from Bancroft Ave. to Stockwell.
—Approved water district 845—a 16-inch water main in 14th St from Old Cheney Rd. south approximately 900 feet.

—Placed on pending graveled district 223a on Newton from 57th to 58th Sts.
—Approved all grading district 1—repealing Ordinance 9536, which created the district between 8th and 9th Sts and J and K Sts.
—Approved creating new personnel classes: Housing Administrator and Governmental Liaison Coordinator.

—Approved prescribing and obtaining the corporate limits of the city by annexing land west of South 14th St, one quarter mile wide.

Resolutions and Public Hearings
—Approved application of Charles Salomon to amend License for a Class C License at 200 No. 70th St. for public hearing on Monday, Jan. 24th at 1:30 p.m.

—Approved application for federal funds for the city park development and improvements.

—Approved extending the completion date for construction of sidewalks in Hillside Estates, with amendments, to Jan. 1, 1972.

—Ordered constructed sidewalk district 4—Twin Ridge Rd. and South.
—Approved extending the city Law Dept. on the disposition of claims against the city for the month of December.

—Approved notice of assessment on the following special assessment districts for hearing beginning at 10 a.m. Tuesday, Feb. 14, 1972, at the City Council Chambers: Paving Districts 1925, 2063, 2110, 2117, 2122, 2127, 2137 and 2338; Water Districts 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

Ordinances, First Reading
—Relating to Ornamental Lighting District 177—amending Sec. of Ordinance 9556 to include additional benefited real estate.

—Relating to Ornamental Lighting District 177—amending Sec. of Ordinance 9786, by adding Greenbriar to the benefited real estate.

—Application of Schweizer Excavating Co. for change of zone from A-2 Single Family to K Light Industry located on the west side of 8th St., south of Hill.

—Application of Irma Barry for change of zone from A-2 Single Family to G Local Business located on the north-south line of W St. and on the east-south line of 48th St.

WOMAN SLIGHTLY INJURED IN CRASH

Mrs. Jean Blanchard of Ceresco escaped serious injury late Monday afternoon when the car she was driving was in collision with a semi-trailer truck at 14th and Superior. Lancaster County Deputy Sheriff Bill Coleman said Mrs.

Blanchard received lacerations to her forehead and right leg. She was listed in good condition at Lincoln General Hospital. The driver of the truck, Mark Garreans, of Lincoln, was not injured. (Star Staff Photo.)

Lincoln Action Board Elects Ruschetti

Joe Ruschetti was elected president of the Lincoln Action Board of Directors Monday night at their meeting at the Lincoln Center. Ruschetti is the Lincoln Chamber of Commerce representative on the board.

Other officers elected were Georgia Brown, vice president; Don Mittan, treasurer; and Judy Songer, secretary.

In other action the board passed a resolution urging congress to extend funding for the Office of Economic Op-

portunity (OEO) past June 30, 1972.

After President Nixon's veto Dec. 9, 1971 of the Economic Opportunity Act Extension Bill, congress passed an Appropriations Bill to fund programs until June 30th, but unless the new OEO bill is passed funds are not assured beyond June.

The resolution was brought before the board by National Association for Community Development (NACD) representatives. NACD is recognized as an advocate organization for low income people in national government.

A motion for LAP to become an organization member of NACD was laid over for consideration at the February meeting.

'Clean Air Reservoirs' Need Special Standard

Omaha — A "non-degradation standard" should be added to the Nebraska Air Quality Implementation Plan to protect "clean air reservoirs" where they still exist in Nebraska.

That opinion, among others, was offered to an estimated 400 persons attending a Clean Air Workshop here Monday night, as a suggested improvement that could be added to the clean air plan when it comes up for public hearing in Lincoln Jan. 20.

The workshop organized by the Nebraska Clean Air Coalition, was held to focus attention on the upcoming hearing. The air quality plan is intended to bring Nebraska's air quality standards into phase with federal guidelines.

Dr. Ruth Weiner, chairman of the chemistry department at Florida International University, and formerly of the Colorado Citizens for Clean Air, emphasized the need for incorporation of a non-degradation standard in the state's clean air legislation.

"Ambient standards" proposed by the federal Environmental Protection Agency (EPA), sometimes amount to "a license to crud up the air to the allowable limits," Dr. Weiner said, even though

the air may previously have been cleaner than required by law.

The state implementation plan contains no such clause to hold emissions at their pre-legislative level.

Dr. Weiner also warned against vague legislative wording, which gives polluters a loophole for evasion of the spirit of the law, and criticized issuance of variances which she described as "licenses to continue to pollute at the same rate as before."

More regulation of vehicle emission control system should be included in the law, Dr. Weiner said, to insure that automobiles are still operating with their pollution equipment, and that the equipment works as it is supposed to.

Also appearing at the workshop were Fontenelle Forest Nature Center Executive Director James Malkowski, EPA Air Program technical support chief Peter J. Culver, State Dept. of Environmental Control, air pollution control director Dennis Graham, Omaha City Councilwoman Betty Abbot and National Wildlife Federation field representative William Napier.

Sewage Plant Expansion Timetable Is Questioned

The estimated completion date for the Theresa St. sewage plant expansion project is February, 1974, the City Council was told Monday.

Public Utilities director Lee Blocker reported that construction of the main addition to the plant should begin early next month, as soon as written confirmation is received from the Environmental Protection Agency (EPA) office in Kansas City.

Blocker said that EPA has given verbal approval to Dobson Brothers Construction Co. whose bid of \$4,924,250 on Dec. 8th was the apparent low bid for the sewage plant addition. Six other companies placed bids for the work.

Several Council members voiced concern over the length of time — two years — which Blocker said would be needed to complete the addition.

Council member Helen Boosalis said she could not understand why the construction will take two years. Councilman Steve Cook added, "It seems like an inordinate amount of time to me."

Blocker replied that the

timetable was not unusual, especially since the scope of the project has been enlarged. The expansion will double the capacity of the plant from 15 million gallons per day to 30 million.

Blocker also told the Council that negotiations to buy land for the Northeast Sewage Treatment plant should be completed by May 1.

Council members again expressed concern over the amount of time being taken to buy the land. Blocker replied that the City Law Dept. was handling the negotiations.

Blocker warned that if water consumption continues to peak during the summer months the plants may have trouble handling the peak loads.

In 1964 the peak was 64 million gallons of water per day. In 1968 the peak rose to 68 million gallons and the 1970 peak hit 78 million gallons. The peak day last year jumped to 81 million gallons, Blocker noted.

"The average or daily usage is no problem — it's the peaks that bother us," he added.

Mrs. Boosalis pointed out that eventually controls may be needed to conserve water, such as having home-owners water their lawns on alternate days of the week.

Man Suspected Of Twin Killing Taken In Atlanta

Atlanta (UPI)—A suspect in the pre-dawn murder of two county deputies who were shot to death in the trunk of their patrol car was captured in southwest Atlanta Monday after a huge manhunt.

Police said Marcus Wayne Ratledge, 24, of nearby East Point, was caught apparently while fleeing from an area resident armed with a shotgun. He was wounded with shotgun pellets and hospitalized at Grady Memorial Hospital in fair condition.

The massive search for another suspect in the slaying of Forsyth County Chief Deputy James William Cantrell, 30, and Special Deputy Larry Mulkey, 18, about 40 miles northeast of here, continued in the rain-soaked wooded, residential area.

Lawsuit Filed In 'Accommodation' Note Dispute

A \$15 million suit was filed Monday in Lancaster District Court against a Mt. Vernon, Ill., bank and Jets International in connection with an "accommodation" note and a subsequent judgment against the plaintiff, Donald Duncan.

In his petition against the First Bank and Trust Co. of Mt. Vernon and Jets International, Duncan asks that the Circuit Court of Jefferson County, Ill., judgment against him be declared null and void and ask \$1,589,389.67 in damages.

According to the petition, on July 2, 1971, Duncan on behalf of Jets International and at the request of the defendant bank sold a Lear Jet to D. C. Andrews of Kentucky.

Loan Said Arranged
He contends he was told by the bank at the time that it had made arrangements to loan Andrews the purchase price to the jet of \$510,000.

According to the petition, when he demanded payment for the jet, Duncan was advised by the bank that it couldn't deliver the money to the plaintiff because it had not yet procured from Andrews the note and security interest for the loan because Andrews was unavailable but would be available in a short time.

The plaintiff alleges that the bank then required him to sign a note for \$510,000 as an "ac-

commodation" to the bank.

To Be Returned
Duncan states in the petition that he was assured that the note would be returned to him just as soon as the bank received the note and security from Andrews and that he (Duncan) would never be called upon to pay the note.

According to the petition, Duncan was never furnished a copy of the note and never received any consideration from the bank for the note.

The plaintiff contends that on July 2, 1971, Andrews became available and executed and delivered the note to the bank, but the bank refused to surrender the "accommodation" note to the plaintiff.

Violation Claimed

According to the petition, on Oct. 21, 1971, the bank proceeded to procure a title to the Lear Jet and reported to the Federal Aviation Agency (FAA) that the bank had

repossessed the aircraft and was the owner "all in violation of the agreement and understanding between parties."

On Dec. 30, the plaintiff alleges, the bank procured a judgment against the plaintiff in the amount of \$589,389.67 in the Circuit Court of Jefferson County, Ill., and that no service of process in the matter was ever had upon the plaintiff or

the defendant, Jets International.

Duncan claims he is entitled to have the note and judgment cancelled and annulled and the instruments declared null and void.

He also asks for damages the defendant bank allegedly caused him for a "great loss and damage" to his business and reputation because of the judgement entered against him.

People's City Mission Elects Ralph Edwards

Ralph W. Edwards, 3776 C, was elected president of the board of trustees Monday for the People's City Mission in Lincoln.

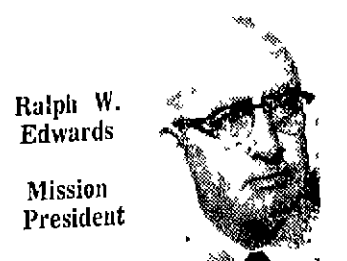

Elected vice president was Robert E. Campbell. The 1972 treasurer will be Douglas G. Allford. Keith Surface will serve as secretary.

New board members are Richard Sievers, Russell Ritzman and William Hendrickson.

The Rev. Jerry Dunn, mission superintendent, presented a report on new projects — the opening of the family shelter and the formation of a women's auxiliary.

Family shelter manager Tony Willoughby said the shelter may be able to receive as many as five families by the end of next week. However, Dunn said it still needs furniture.

According to Dunn, \$20,000 of the desired \$40,000 total for operating the shelter was granted by the Lincoln Founda-

tion. He said the mission would seek the remaining \$10,000 from area church donations.

Dunn said the mission was founded by the churches and we are praying that the churches will assume the responsibility of sustaining us in the area.

Mrs. May Scott reported on the progress and needs of the Bible school for American Indian families in the area.

Dunn said the mission is scheduled to receive \$31,300 from the Lincoln Community Services Fund.

Short Riot Told

Amiens, France (UPI) — Inmates of the Amiens Prison rioted briefly, setting up barricades in their quarters, prison officials said. The inmates returned to their cells after an hour when a regional prison administrator agreed to talk with them about prison conditions.

The board also received the annual report of the Legal Aid Society of Lincoln.

The report said that the program has shown marked improvement over the last two years according to an evaluation by the National OEO office.

According to the report the evaluation stated, "that the program under the guidance of the new director not only has provided the community with an above average quality of legal services, but also emphasized reform by working within the legislative and judicial processes while nurturing a growing awareness of and support for the program in the target community."

During the past fiscal year the society has helped 951 people with their legal problems, 946 of whom were below the poverty line.

Indian Hills Fourth Addition Final Plat Wins Council OK

The City Council Monday overrode the City-County Planning Commission's recommendation to deny the final plat of Indian Hills Fourth Addition, located at Sandalwood Dr. and Smoky Hill Rd.

Attorney David Pierson, representing Herbert Brothers, told the Council that the developers want to put in one more lot in the area to eliminate an unsightly corner space.

In a 4 to 2 vote the Council agreed to the proposal despite objections voiced by Council members Steve Cook and Mrs. Helen Boosalis.

Denial Recommended

Public Works director Robert Obering said the lot is in the Stevens Creek drainage basin which does not yet have a sewer system. He said it is city policy not to extend sanitary sewer lines into a different drainage area — which would be required in this case. He noted that the planning commission recommended denial on this basis.

Obering added, "You have to draw the line somewhere."

Cook agreed saying, "It's important that we have some policies we stand by."

Councilmen Sikyta, Peterson,

Dick Hartstock and Richard Baker voted in favor of the motion, with Cook and Mrs. Boosalis dissenting.

In other action the Council also accepted the plat of Briarhurst First Addition, located north of Old Cheney Rd., after working out an agreement with the developers.

Attorney Chauncey Barney, representing John Hoppe, objected at last week's session to the requirement that the developer be required to pay half the cost of construction of a 54-inch storm sewer in 48th St.

Public Works director Robert Obering reported Monday that his department and the developers had worked out an agreement whereby the developers would pay \$21,000—the remaining portion of their part of the storm sewer's construction.

Obering noted that the total cost of the storm sewer will be \$92,000, with the city's share being \$61,000.

In other action the Council approved 5 to 1 Mayor Sam Schwartzkopf's appointments to the Lincoln Electric System (LES) Board for terms expiring Dec. 14, 1974.

Sewage Plant Expansion Timetable Is Questioned

The estimated completion date for the Theresa St. sewage plant expansion project is February, 1974, the City Council was told Monday.

Public Utilities director Lee Blocker reported that construction of the main addition to the plant should begin early next month, as soon as written confirmation is received from the Environmental Protection Agency (EPA) office in Kansas City.

SPORT SIGNALS

☆☆☆

By Hal Brown
Sports Editor, The Star

Some Do, Some Don't

From the time that David told sports writers attending the pre-flight weigh-in for his battle with Goliath, "The bigger they are, the harder they fall," athletes and coaches have been selling writers similar things.

Some, like David, have backed up their boasts with their actions on the playing fields or in the ring. Others have tripped over the words dribbling from their mouths.

Some athletes and coaches live under the theory of don't kick a sleeping dog while others don't mind telling you that you're going to get your brains beat out.

Perhaps the most famous of the latter ilk is Cassius Clay, now Muhammad Ali, who attracted a great deal of attention to boxing at a time when it needed some attention by boasting of his ring prowess, then proving it.

Joe Namath did it ahead of the New York Jets' Super Bowl win over the Baltimore Colts when he told writers the Jets would win and drew only laughter from his audience. But Joe came through.

There have been some, however, who have gone the other way. Take Michigan football coach Bo Schembechler, who lashed out at writers midway through the football season for not giving the Wolverines credit as the No. 1 team in the nation. That week they barely beat Purdue and later lost to Stanford. Bo hasn't been saying much lately.

Another who did the same thing was Penn State's Joe Paterno. After Joe had told the world why his team deserved to be No. 1, they proved why they weren't by losing to Tennessee.

Huskers Back Devaney Pitch

But not all pitches by coaches have gone unbacked by players and perhaps the best example of the opposite of the Michigan and Penn State cases is the one at Nebraska.

A year ago as the 1970 season was drawing to a close, Nebraska head coach Bob Devaney got up on his soapbox and began trying to convince the public that his Huskers were No. 1.

If the Husker gridders had run true to Michigan and Penn State form, they'd have gone out the next week and alien on their faces.

But instead they proved Devaney's faith in them was not ill-founded.

But that was not the first time a Nebraska team has backed on the field their coach's off-the-field remarks. There was the time back in 1966 when Nebraska sports information director Don Bryant preparing to leave for Colorado to do the advance publicity for the NU-CU game that year asked Devaney what he should be telling them in Colorado. "Tell em they'd better screw their helmets on tight because we're coming out," Devaney told Bryant.

When Colorado held a 19-7 fourth quarter lead that Saturday, it looked like the remark had backfired, but the Huskers pulled one of their miracle rallies for a 21-19 win.

Devaney Attitude Changing

There was a time in his early days at Nebraska when Devaney would lie awake shuddering all night after reading a boastful quote by one of his players.

However, the attitude toward such things has mellowed somewhat in recent years. For instance, he was kept awake all night the night a year ago when he read that his brash nebacker Jerry Murtagh had said ahead of the Southern Cal game, "We're going to kick the hell out of them."

Even though the game wound up in a 21-21 deadlock, Murtagh figured the Huskers accomplished what he said they would do.

And Devaney shuddered only briefly this season upon reading Rich Glover's boast that the Husker defense could stop any offense in the nation, including Oklahoma's.

When writers covering the Orange Bowl this year noticed every confident air among the Husker gridders, they asked Devaney about it.

"I'm glad to hear that," was his reply. "It's rather comforting to know that they feel confident."

When it comes to putting their actions where their mouth is, some have and some haven't. David and the Huskers of recent years are in the former category.

Ragged Bluejays Dump San Diego Club, 77-62

By STEVE GILLISPIE
Star Sports Writer

Omaha — The long lay off over the holidays showed on Creighton's basketball team on Monday night.

The Bluejays, who haven't been in action since Dec. 23, played their most ragged game of the season but defeated San Diego University, 77-62, at Civic Auditorium. Creighton is now 7-4 for the season and 5-0 at home while the Toreros dropped to 4-3 and absorbed their third straight loss on the road.

Even though Creighton hasn't been plagued by turnovers like San Diego, in other areas, the Jays made countless mistakes.

The game was never settled until mid-way in the last half when the score was 50-41. At that point, Creighton scored eight straight points, San Diego then managed only two points to have the Jays reel off another ten straight, putting the game out of reach at 68-22.

Up to that moment, the lead changed back-and-forth with either team able to stay on top.

Turnovers really hurt the Toreros who committed twelve in the first half compared to two for Creighton. However, an Diego shot an amazing 76 per cent, 16-21, from the field in the first half to only trail by four points at the intermission.

On the other hand, Creighton only made 17 of 46 baskets in the first half but was able to convert the Torero turnovers into scores.

Balanced scoring again helped the Bluejays win as four

players finished in double figures despite the poor play. Schuyler sophomore Gene Harmon topped Creighton with 18 points. Al Lewis had 16, Ralph 10.

Stan Washington and Skip Laurie paced San Diego with 16 points each.

The Toreros' coach Bernie Bickerstaff admitted after the game turnovers were the difference in the contest.

"We only had one player who handled the pressure consistently and that really hurt us," he said.

"Creighton's defense was good because they gambled a lot and it paid off for them. We didn't have it at the end and when we got tired, the game was over," he noted.

Coach Eddie Sutton was not real disappointed in his Jays' efforts but said the team will have to improve in order to continue winning.

"We played well on offense in the first half but our shooting was off and our defense was poor," he said. "In the second half, our pressure on defense was good but our offense still didn't operate like it should."

Creighton's next game is Saturday at Southern Illinois.

New Freshman Rule Termed 'Lousy, Unrealistic'

... RETURN TO ONE-PLATOON FOOTBALL SAID ONLY WAY TO CUT COSTS

HOLLYWOOD, Fla. (AP) — Bill Meek, head football coach at the University of Utah, called a new rule permitting freshmen to play on varsity teams "lousy and unrealistic" Monday and said the only way to cut costs is a return to one platoon football.

"My colleagues won't like me for saying that," Meek predicted, and it wasn't long before he was proved right.

"That's ridiculous," snorted Bill Yeoman of Houston. "Why ruin the best game we've ever had?"

The National Collegiate Athletic Association, which met here last week, approved the use of freshmen for postseason and championship events but left it up to the conferences and individual schools whether to use first-year players during the regular season.

Many administrators feel they can cut costs somewhat by abolishing separate freshman programs.

"I'm doing the same things I did when we had one-platoon football," Meek said, "except it's a little more refined now. One-platoon football would mean that schools which now have 140 players on campus probably wouldn't need more than 100, saving money there. And you could cut coaching staffs from 12 or 13 down to about six."

"The only thing one-platoon football would mean is longer practices. We'd have to practice about 30 minutes longer each day because we'd be teaching kids to play both offense and defense. A lot of people say we have to retain two-platoon football to help the pros. The heck with the pros."

Meek and Yeoman are united, though, in

opposing the freshman rule, as are most of the major college coaches here this week or the American Football Coaches Association's annual meeting.

"You won't see any freshmen on the varsity at the University of Houston," Yeoman said, even though A. A. White, Houston's NCAA faculty representative, spoke in favor of the new rule last week.

"The administrators may think boys are more sophisticated these days, but when an 18-year-old is squeezed he reacts like an 18-year-old. Maiming kids isn't part of our program and if you don't think an 18-year-old boy is going to come unglued playing against older people who have had a year or two or more of organized conditioning and weight programs, you're wrong."

Pepper Rodgers of UCLA thought the

freshman rule might "help the have-nots with some depth" and Meek said it might force some freshmen to turn to the junior colleges.

"Kids know they're eligible to play as freshmen," Meek said. "But instead of playing first team or second-string on a freshman squad, they'll wind up fifth- or sixth-string on the varsity. A lot of them will leave for the junior colleges."

"Can you imagine a freshman making the varsity at Nebraska or Oklahoma? Only one freshman in a hundred can probably make a varsity team, except for a kicking specialist or an occasional running back, where so much depends on natural ability."

"This rule was crammed down our throats by people who've never done any coaching or recruiting."

HUSKERS DOWN OKLAHOMA

Jura Hits 28 To Spark NU

... NEBRASKA LEADS LEAGUE

By MARK GORDON
Star Sports Writer

For someone who is inching towards an individual record, Chuck Jura is still cognizant of team performance.

"We're getting our momentum going now," he said, "If we get past Colorado then we'll be 3-0 and in the driver's seat."

Jura had just scored 28 points to propel him into fifth place among all-time Nebraska scorers as the Huskers tripped Oklahoma, 77-70, Monday night in the Coliseum. Both Big Eight basketball teams were 10 and tied for the league lead going into the game.

The 6-10 senior from Schuyler, who also grabbed a game high 19 rebounds, had deposited 992 points and needs just 65 to surpass Herschel Turner in fourth place. Jura supplanted Tom Scantlebury (with 969 points).

"I didn't even know that (earning the fifth scoring slot)," Jura shrugged, "But it was my best offensive game."

Both Jura and NU coach Joe Cipriano credited NU's first-half performance as the best 20 minutes the Huskers have produced this season.

"The first half (when NU constructed a 38-27 cushion) was as good a defensive game as we've played this year," Cipriano said. "But we'd be an even better club if we could get those free throws down."

In fact, NU's field goal accuracy mark (55.6 per cent) topped its free throw totals of 50 per cent (17 of 34).

And missing those free throw opportunities provided the Sooners with the impetus to chop into Nebraska's second-half lead.

When the Huskers built their largest lead of the contest at 16 points with 13:57 remaining, OU began rallying. The Norman crew cut the margin to 72-66 with 1:02 by transforming nussed NU free throws into OU baskets.

But a diving layup by reserve guard Tom Gregory who received a perfect feed from senior forward Tom Bryan with 59 seconds left boosted NU to a 74-66 lead and erased OU comeback hopes.

"Bryan makes a big difference in our lineup — he's doing a good job by and gives us the board strength," Cipriano said of the Fort Recovery, Ohio, product who scored 12 points and retrieved an equal number of rebounds.

Cipriano termed "tiredness" as the key factor for the OU spurge in the last nine minutes.

"We muffed a lot of easy baskets during that span," he added, "We played Saturday night (a 75-58 win over Oklahoma State) and we played so hard tonight — we just played our hearts out tonight."

In praising Jura, Cipriano said the Huskers were feeding the ball to the postman with perfection.

"Not only are we doing a good job getting the ball to the postman, but Jura is making the move to the basket," Cipriano said.

Junior guard Tony Riehl sustained a sprained right ankle after crashing to the floor with 10 minutes remaining in the first half after scoring a layin.

Church Displays Dolphin Banner

Miami (AP) — A Miami church is caught up in Super Bowl fever.

The Roman Catholic church of St. Augustine is displaying this week at its front entrance a banner with the Biblical quotation from the Book of Daniel:

"You Dolphins praise the Lord."

He was taken to the University's Student Health Center for x-rays and then returned to watch the last 10 minutes.

"They told me I stretched the ligaments across the ankle bone," he said. "I'll probably take the next couple of days off but I'll be ready for Colorado."

Terming the mishap a freak accident, Riehl said he would stay at the health center Monday night.

Nebraska returns to Big Eight conference action in a 2:15 p.m. Saturday encounter against Colorado in the Coliseum.

Bellevue, Wesleyan To Tangle

Bellevue (5-7) Pos. NWU (5-7)

Bellevue Wesleyan's basketball team should get back on the winning track when Bellevue invades the Ira J. Taylor Gym Tuesday night for a 7:30 tipoff.

The Bellevue team is 1-12 this season while the Plainsmen are 5-7. However Bellevue has given some good teams a tough time before being beaten.

Undefeated and ranked Marymount, Kan., College was pressed to beat Bellevue on its home court in Salina, and Bellevue almost upset Concordia at Seward.

Coach Irv Peterson feels he now has found some bench strength for NWU.

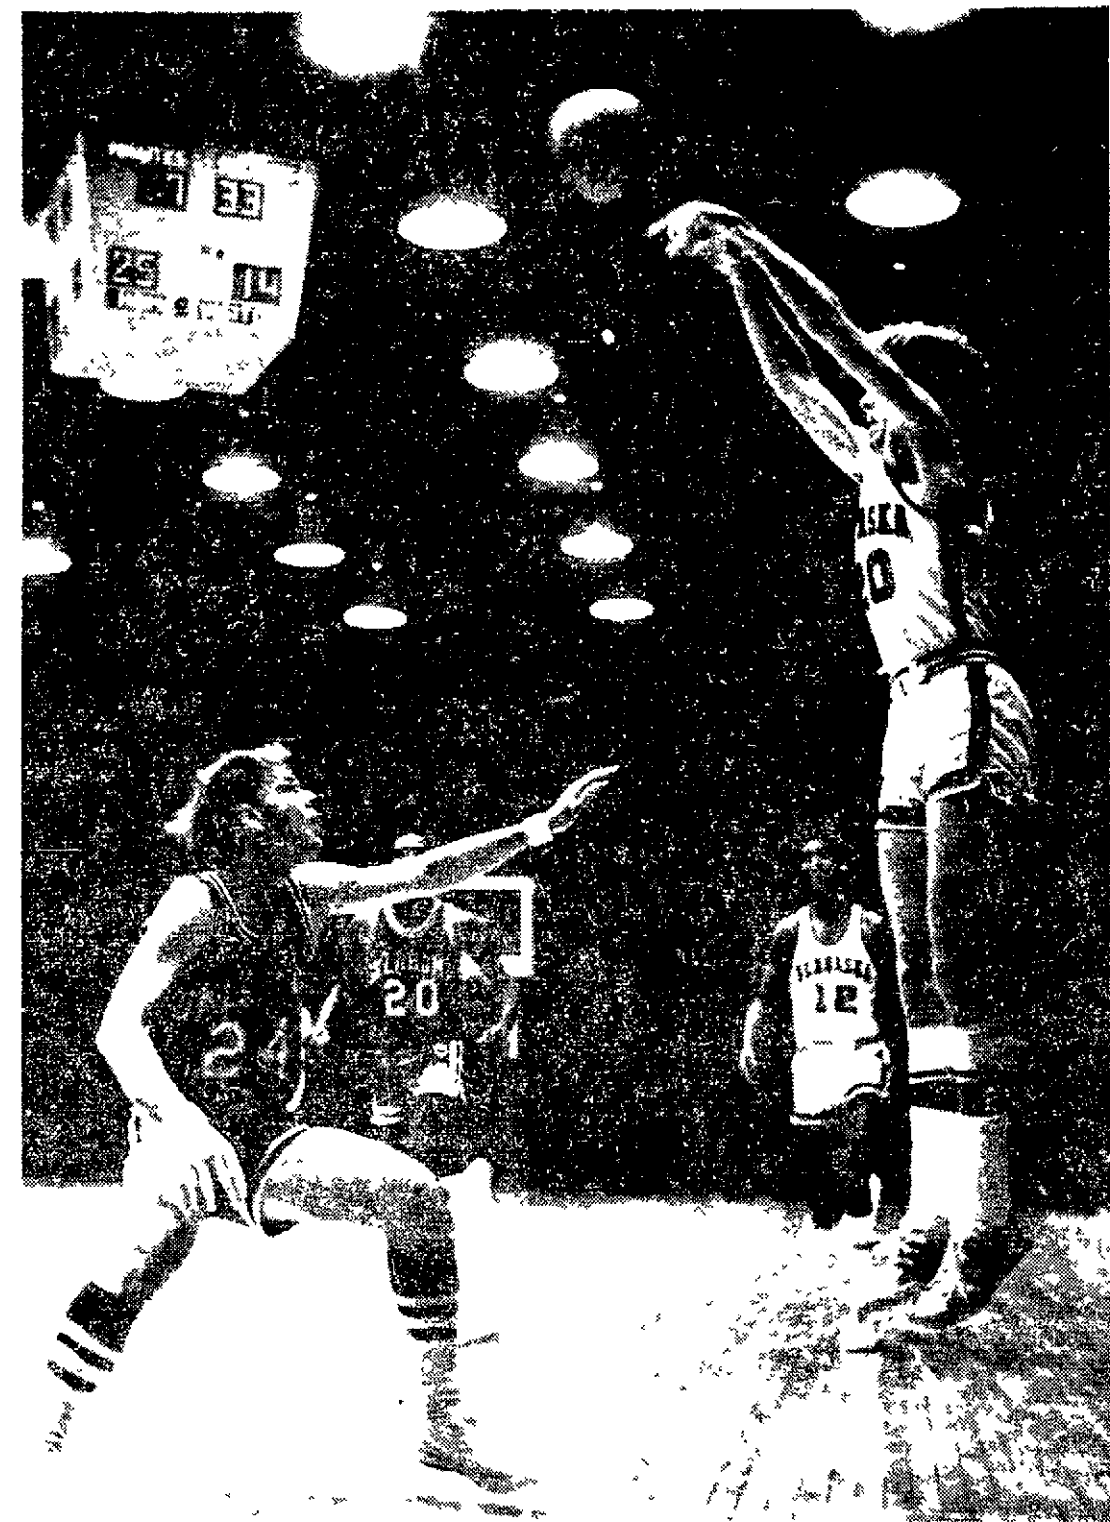

Senior Bob Beecham, who only came out in late December, had his best effort in Wesleyan's last game. Beecham scored 12 points and helped the Plainsmen out on the boards.

The 6-10 Palmyra native spend the first semester in Washington, D.C., for study and was unable to come out until he returned to Lincoln.

Another reserve who has pleased Peterson when called upon is Charlie Rine. Rine has spelled the starters at guard and done a good job of handling the ball.

The other reserve who Peterson indicated should see a lot of action is Dean DeBoer, a sophomore who was the leading scorer on the freshman team last year.

Peterson will start Reidell Lintz and Lyle Hiatt at guards, John Strain and Dick French at forwards and Mike Renken at center. The quintet has been averaging in double figures and Renken is almost averaging 20 rebounds a game.

Fairbury, David City Top B, C Ratings

... COZAD DRAWS NO. 2 SPOT IN B

By VIRGIL PARKER
Prep Sports Writer

Defending Class B state champion Fairbury, sailing along at an even brisker pace than a year ago, and once-beaten Class C David City head the two divisions for the initial high school top ten basketball ratings.

While Fairbury, second-ranked Cozad and No. 7 rated Randolph are the only unbeaten clubs among the 64 teams in Class B, the 128-school Class C has eight quintets with unblemished marks. One, North Loup-Scotia, is unbeaten after seven outings, yet fails to make the Class C top ten.

Fairbury is closely pressed by Cozad, which also sports a perfect 9-0 mark, for the Class B honors. The two tangled for the state title last March, and may be headed for a rematch. Fairbury took the crown with a narrow 65-64 victory.

If (or when) Fairbury and Cozad ever lose, the Class B top ten may be in for quite a shakeup.

Though No. 3 Alliance has lost twice, both defeats came at the hands of Class A clubs. But

LSU-Alabama

Game Called Off

Baton Rouge, La. (AP) — The Southeastern Conference basketball game between Louisiana State and Alabama scheduled for Monday night was called off because of the shootout between police and blacks in a Negro neighborhood.

The game has been rescheduled for Tuesday night at LSU.

among the other rated teams, games against Fairbury or Cozad figure heavily. No. 4 Crete has lost both of its games to Fairbury and No. 6 Waverly also lost to the Jeffs.

No. 5 Omaha Cathedral, sixth-ranked Grand Island Central Catholic and No. 9 Sidney have each lost to Cozad.

David City, despite its one loss, gains the nod over the unbeaten clubs in Class C for top honors.

The Scouts, who have played six of their seven games against good Class B competition, have lost only to the aforementioned Crete club (No. 4 in Class B.)

Super-strong Norfolk Catholic, with nine straight wins, rates the runnerup role in Class C, with once-beaten Milford — to a fine Class B Omaha Paul VI club — gaining the nod for third.

AP Ratings Show UCLA In Top Spot

By The Associated Press

UCLA's unbeaten Bruins remained atop The Associated Press college basketball rankings with Marquette, North Carolina and South Carolina remaining in the next three spots but Indiana took a nose-dive after a pair of consecutive defeats.

The defending national champion Bruins, 10-0, drew 39 first place votes of the 41 cast Monday in balloting of a panel of sportscasters and sports writers for a total vote of 816 points.

Marquette, 10-0, received the other two firsts and accumulated 720 points to remain No. 2. North Carolina, 9-1, drew 630 votes while South Carolina, a one-point loser to Marquette Sunday, garnered 630 points for the fourth spot.

1 UCLA (39)	10-0	816	
2 Marquette (2)	10-0	720	
3 North Carolina	9-1	630	
4 South Carolina	7-2	632	
5 Louisville	9-1	403	
6 Long Beach State	11-0	322	
7 Virginia	11-0	250	
8 Ohio State	9-2	247	
9 Southern California	9-2	239	
10 Villanova	10-1	167	
11 Florida State	11-2	98	
12 Southwest Louisiana	8-1	92	
13 Brigham Young	10-2	77	
14 Kentucky	8-2	66	
15 Illinois	9-2	62	
17 Indiana	8-3	66	
18 Missouri	**	111	
19 Hawaii	**	100	
20 Marshall	**	10-2	4

Use Of Cigarette Tax Urged To Fund Property Exemption

By DON WALTON
Star Staff Writer

Gov. J. James Exon Monday formally asked the Legislature to use revenue from the 1971 cigarette tax increase to fund limited personal property tax exemptions and priority construction projects during fiscal 1972-73.

Under the governor's proposal, bond financing would be utilized to construct immediately the proposed new University of Nebraska fieldhouse.

But the proposed new state office building would be delayed, at least until fieldhouse financing is completed.

The third project contained in 1971 earmarking of the five-cent-a-pack cigarette tax increase—a recreation center at the Beatrice State Home for the mentally retarded—would be funded with \$695,000, as originally planned.

Exon's cigarette tax plan was outlined in his budget message to the 1972 Legislature.

Operational Budget
The governor's 1972-73 operational budget recommendation for state agencies included \$195.4 million from the state tax-supported general fund, a figure only about \$3.5 million greater than estimated expenditures for the current year.

Estimated revenue, assuming continuation of 2½% state sales and 15% personal income tax rates, was pegged at about \$204.5 million.

"This then would leave only \$9 million for capital construction needs and personal property tax relief," Exon told the senators.

But, he said, that figure could be increased to \$25 million if the Legislature would accept his proposal to remove earmarking from the cigarette tax increase.

Beatrice Facility
After reappropriating \$695,000 for the Beatrice facility, the governor said, the remaining \$16 million (collected during both the current and 1972-73 fiscal years) could be used for priority projects.

One such project, Exon suggested, would be the fieldhouse. A \$2.4 million appropriation for fiscal 1972-73 could begin bond financing of the structure.

The governor said he would withhold his capital construction recommendations until "after you have expressed your desires" on his proposal.

"If those among you cannot and will not accept the compromises and suggestions I have offered, then, I respectfully submit, you have the duty and obligation to spell out where or how, in detail, and in which programs you would eliminate or alter our suggestions."

"The only other alternative is for you to endorse, without equivocation, a general tax increase."

Executive Address
Exon's budget message was combined with the governor's customary executive address to the Legislature.

Since many of the governor's budget recommendations, including those for major spending agencies, had already been published, the address contained no surprises.

Only the details of his cigarette tax proposal were new for Exon had long since expressed a desire to capture most of the new funds for general state purposes.

"Some may not agree that preventing a general tax increase is a paramount consideration," the governor declared.

"I believe that the vast majority of Nebraskans do. I hope you will concur in that belief."

Exon Convinced
Even so, he is "convinced that the necessary expenditures of this state can be met" under the limits imposed by a policy of holding 1973 tax rates at 1972 levels.

The governor invited the Legislature to join with him in accepting such a policy by adopting a resolution directed at holding sales and income tax rates at 2½% and 15%.

Exon said such action would represent "realistic budgeting and taxation procedures."

His budget, he said, holds the line on taxes, follows a policy of "caution in spending," and still meets "the genuine needs of Nebraska."

Total Budget Figure
Exon's total all-funds operational budget exceeds \$556.1 million, compared with current

estimated expenditures of \$515.7 million.

Breaking down the \$195.4 million general fund recommendation, some \$52.7 million would go to local government in the form of state aid programs.

The University of Nebraska would receive \$47.1 million, and the state colleges would be allotted \$8.9 million.

Some \$31.9 million would go to the Department of Public Welfare and \$18.8 million to the Department of Public Institutions.

Exon also made a pitch for administrative flexibility within the budget document eventually approved by the Legislature.

"With tight budgeting, it seems to me, we have the obligation to grant some flexibility to our administrators, allowing them discretion in making the best possible use of tax funds if they are, indeed, to be held accountable," he said.

Primary Concern
The primary concern for all agencies is "the hand-cuffing of administrators with 'straight-jacket' salary schedules and inflexible programming," the governor said.

By The Associated Press
Don Ferguson of Lincoln withdrew Monday from the race for the Democratic nomination to the U.S. Senate.

In letters to supporters, he said "I do not believe in putting people through the efforts of a long and hard campaign which has no chance of securing the needed finances to win."

Ferguson, assistant to Lincoln School Supt. John Prash, was one of six announced candidates for the Democratic nomination to the seat now held by Republican Sen. Carl Curtis.

Other bidders are State Sen. John DeCamp of Neligh, Mrs. Phyllis Lyons of McCook, Wallace Peterson of Lincoln, State Sen. Wayne Ziebarth of Wilcox and State Sen. Terry Carpenter of Scottsbluff.

'Devastating Effect'
Ferguson did not immediately throw his support to one of the other candidates, but said one reason for withdrawing was that with a large number of candidates, "it becomes more possible that a non-Democrat such as Terry Carpenter can become the nominee. In my opinion, nothing would have a more devastating effect on the party more quickly."

Carpenter has been at various times a Republican and a Democrat.

Ferguson suggested to his supporters that they defer a commitment to another candidate until mid-February. By that time Ferguson will make an endorsement of another candidate, he indicated.

Ferguson said he is offering to return contributions made to his campaign if the contributor desires, and estimated this might involve a maximum of \$2,000.

Interrelated Reasons
Ferguson said four interrelated reasons figured in his withdrawal decision.

Ferguson Withdraws From Race

By The Associated Press
Don Ferguson of Lincoln withdrew Monday from the race for the Democratic nomination to the U.S. Senate.

In letters to supporters, he said "I do not believe in putting people through the efforts of a long and hard campaign which has no chance of securing the needed finances to win."

Ferguson, assistant to Lincoln School Supt. John Prash, was one of six announced candidates for the Democratic nomination to the seat now held by Republican Sen. Carl Curtis.

Other bidders are State Sen. John DeCamp of Neligh, Mrs. Phyllis Lyons of McCook, Wallace Peterson of Lincoln, State Sen. Wayne Ziebarth of Wilcox and State Sen. Terry Carpenter of Scottsbluff.

'Devastating Effect'
Ferguson did not immediately throw his support to one of the other candidates, but said one reason for withdrawing was that with a large number of candidates, "it becomes more possible that a non-Democrat such as Terry Carpenter can become the nominee. In my opinion, nothing would have a more devastating effect on the party more quickly."

Carpenter has been at various times a Republican and a Democrat.

Ferguson suggested to his supporters that they defer a commitment to another candidate until mid-February. By that time Ferguson will make an endorsement of another candidate, he indicated.

Ferguson said he is offering to return contributions made to his campaign if the contributor desires, and estimated this might involve a maximum of \$2,000.

Interrelated Reasons
Ferguson said four interrelated reasons figured in his withdrawal decision.

"First, I have discovered anew the stark reality of campaign costs and the lack of funds for adequately running a campaign," he said.

"Our estimate has consistently been that we could run a strong campaign on \$25,000, in addition to personal finances. In realistic discussions with party officials, close friends and campaign leadership we feel that raising \$6,000 is realistic. Adequate funds are essential to a candidate who has one major problem — name recognition. Name recognition is also essential to raising funds."

"Second, there are a large number of candidates and the prospect of more to enter the race. As the number increases, the ability to raise funds decreases and the unwillingness of individuals to give money becomes more obvious since such a small percent vote will win."

"Third, as the number grows it becomes more possible that a non-Democrat such as Terry Carpenter can become the nominee. In my opinion, nothing would have a more devastating effect on the party more quickly. He already has name recognition and a legislative session to boost his name. He already commands too much public attention for as little as he says. I am too loyal a democrat and too anxious that this state have new effective leadership in the Senate to contribute to this possibility. I personally hope that some of the other candidates who are obviously 'just running' will

assess this possibility with great care."

"Fourth, I have too much respect for the people who have agreed to get involved in this campaign to merely let them 'play' the game of politics. Without the reality of finances, there is little or no oil to make the machinery of the campaign run. This means that we merely put people through an exercise in futility which may increase my personal political base for the future, but have no value to them in terms of victory next May."

Revolutionizes Denture Wearing

The nearest thing to having your own teeth is possible now with a plastic cream discovery that actually holds both "uppers" and "lowers" as never before possible. It's a revolutionary discovery called **FIXODENT**® for daily home use. (U.S. Pat. #3,003,988) With **FIXODENT** many denture wearers may eat, speak, laugh, with little worry of dentures coming loose. **FIXODENT** forms an elastic membrane that helps absorb the shock of biting and chewing. You may bite harder, chew better, eat more naturally. **FIXODENT** may help you speak more clearly, be more at ease. The special pencil-point dispenser lets you spot **FIXODENT** with precision... where needed! One application may last for hours. Dentures that fit are essential to health. See your dentist regularly. Get easy-to-use **FIXODENT** Denture Adhesive Cream at all drug counters.

Programs, Appropriations Levels Are Proposed By Gov. Exon

In the first combined executive address and budget message to the Legislature, Gov. J. James Exon proposed both legislative programs and appropriations levels.

Among his legislative proposals:

—reform of "grossly unfair" mental commitment statutes which "provide for apprehension and placement of citizens in our regional centers without the guarantee of due process."

—repeal of 1971 legislation increasing speed limits on state highways from 60 to 65 miles per hour during nighttime hours. After the limits were hiked, Exon said, Nebraska experienced a 46% increase in injury accidents and a 48% increase in fatal accidents compared with the same period the previous year.

—increased minimum sentences for deadly assault upon or murder of law enforcement officers and guards.

—speedy implementation of a model billboard control law to meet federal requirements.

—a phased approach to implement personal property tax exemptions.

—an election reform measure calling for "new and realistic proposals for reporting of campaign contributions and expenditures at the state level and the establishment of ceilings for such expenditures."

—legislative clarification of its intent in compensating the State Fair Board for land which will be used for construction of the proposed New University of Nebraska fieldhouse.

Bond Financing
The governor's budget message proposed short-term bond financing of the fieldhouse.

That could be accomplished, he said, with a 5½-year installment purchase agreement or arrangements with the City

of Lincoln similar to those used to finance the new educational television and Game Commission facilities.

"Let me assure you that this proposal has the support of the Board of Regents, the university administration, the university athletic department and those groups advocating the fieldhouse construction," the governor said.

An advantage of that approach, Exon said, is that it allows construction of the fieldhouse beginning this year, "as opposed to waiting until necessary earmarked funds have accumulated for this purpose, as is required by law."

Waste Treatment

On another matter, the governor urged the Legislature to institute a program of necessary state funding for construction of municipal waste treatment facilities "based on the state guaranteeing its annual portion of payments in cooperation with our municipalities."

State funding is required to attract federal matching money, but Exon opposes a continuation of direct appropriations if the funds are to lie idle for long periods of time.

His budget, the governor said, accomplished a number of goals:

—improved quality of care

for residents of state institutions.

—state support for educational television programming.

—new funding to assist local communities in fighting drug problems, and the addition of four drug investigators in the State Patrol.

—expanded rehabilitation programs at the Penal and Correctional Complex.

—increased appropriations for the University of Nebraska at Omaha aimed at moving toward "meeting the quality of instruction" at the Lincoln campus.

—increased funding for vocational and junior colleges.

—continuation of state aid to public schools at \$35 million a year.

—funding for an additional assistant attorney general to assist the Department of Justice in "further coordinating law enforcement activities" against pornography and obscenity.

—state payment of unemployment compensation insurance for employees.

The governor's budget is based on a salary package which includes an average 4% wage hike accompanied by health and life insurance benefits which bring the total increase to an estimated 6½% per employee.

Why Let Tension Make You Ill... and Rob You of Precious Sleep?

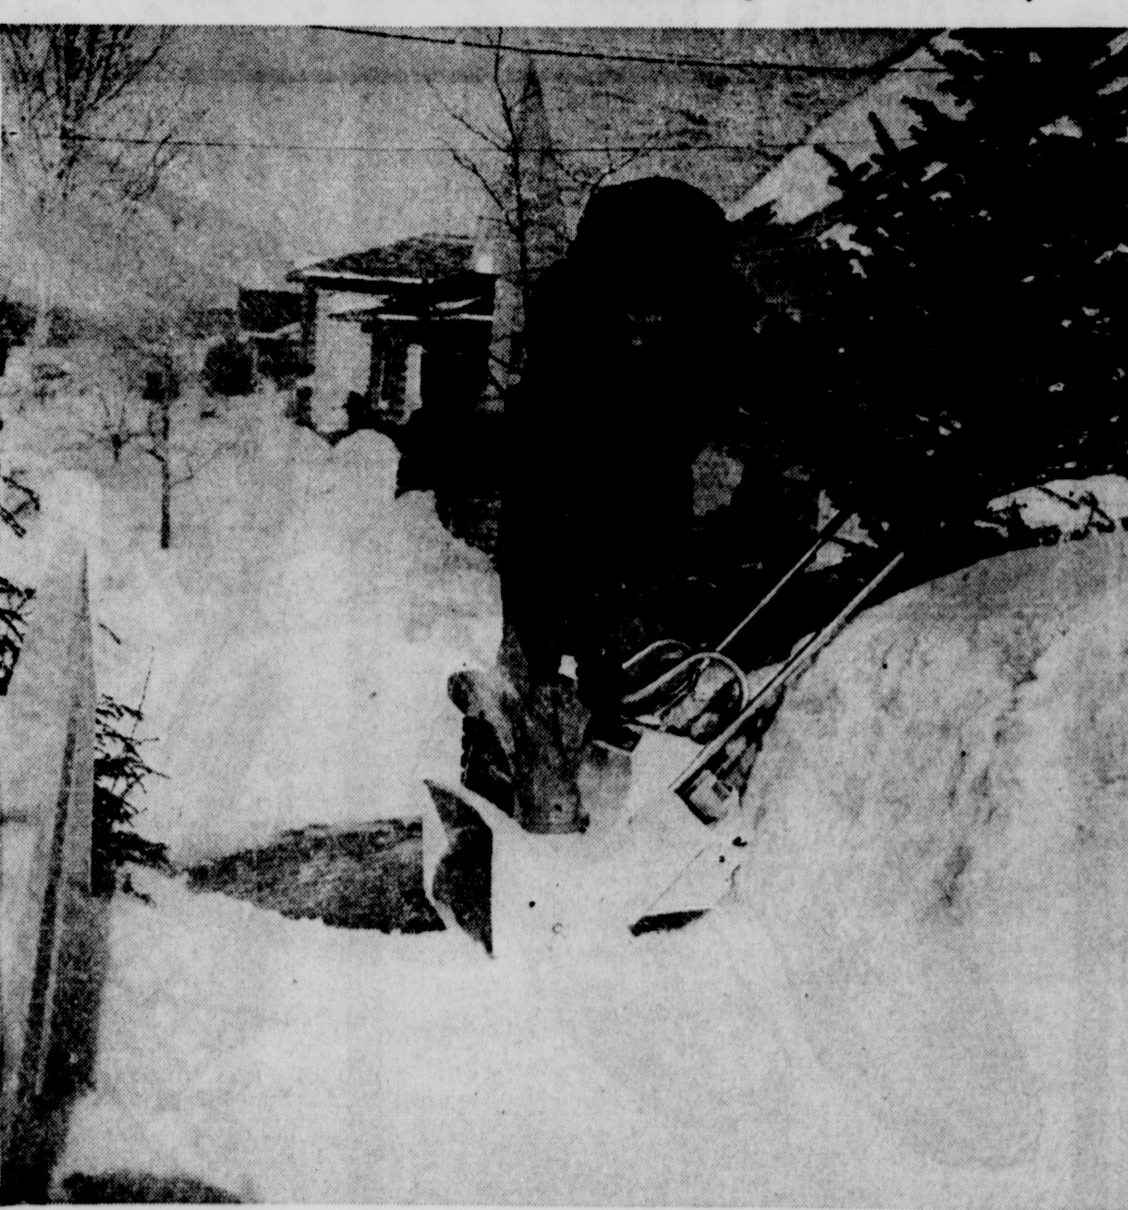

Do everyday tensions build up to the point where you find it hard to do your work? Where you have difficulty getting along with your friends... frequently "take it out" on your family... even feel ready to explode? It's true! Tension can actually make you ill.

Don't let this happen. First, see what B. T. Tablets can do for you. B. T. is so safe you don't even need a doctor's prescription. Yet each tablet contains tested ingredients that help you to relax during the day — help you to get the restful sleep you need at night. Try this trusted way to more peaceful living. Buy A Gas Air Conditioner Now Get a Jacobsen Snow Thrower FREE (A \$129** Value)

When the snow falls this winter buy a great Gas air conditioner and get a Jacobsen Sno-Blitz snow thrower absolutely free. Winter is the best time to purchase a Gas air conditioning system for several very good reasons. During the cold, blustery months, qualified personnel are free to give your home an especially thorough survey to determine the size of air conditioner it requires, install it, and have it ready for operation the first hot, sweltering day of summer '72. Then with just the turn of a dial you'll enjoy the comfort of a cool, clean, dehumidified, Gas air conditioned climate. And just for planning ahead for the summer, Cengas is giving away a free Jacobsen 17", auger-style Snow-Blitz snow thrower. It's a honey of a gas engine-driven machine that'll save you hours of back-breaking shoveling this winter. So make arrangements at your Cengas office now.

Gas Air Conditioner must be installed on Cengas lines.

Use Of Cigarette Tax Urged To Fund Property Exemption

By DON WALTON
Star Staff Writer

Gov. J. James Exon Monday formally asked the Legislature to use revenue from the 1971 cigarette tax increase to fund limited personal property tax exemptions and priority construction projects during fiscal 1972-73.

Under the governor's proposal, bond financing would be utilized to construct immediately the proposed new University of Nebraska oldhouse.

But the proposed new state office building would be delayed, at least until oldhouse financing is completed.

The third project contained in 1971 earmarking of the five-cent cigarette tax increase—a recreation center at the Beatrice State Home for the mentally retarded—would be undelayed, as originally planned.

Exon's cigarette tax plan was outlined in his budget message to the 1972 Legislature.

Operational Budget
The governor's 1972-73 operational budget recommendation for state agencies included \$195.4 million from the state tax-supported general fund, a figure only about \$3.5 million greater than estimated expenditures for the current year.

Estimated revenue, assuming continuation of 2 1/2% state sales and 15% personal income taxes, was pegged at about \$44.5 million.

But, he said, that figure could be increased to \$25 million if the Legislature would accept his proposal to remove earmarking from the cigarette tax increase.

Beatrice Facility
After reappropriating \$695,000 for the Beatrice facility, the governor said, the remaining \$16 million (collected during both the current and 1972-73 fiscal years) could be used for priority projects.

One such project, Exon suggested, would be the fieldhouse. \$2.4 million appropriation for fiscal 1972-73 could begin bond financing of the structure.

Total Budget Figure
Exon's total all-funds operational budget exceeds \$556 million, compared with current

estimated expenditures of \$515.7 million.

Breaking down the \$195.4 million general fund recommendation, some \$52.7 million would go to local government in the form of state aid programs.

The University of Nebraska would receive \$47.1 million, and the state colleges would be allotted \$8.9 million.

Some \$31.9 million would go to the Department of Public Welfare and \$18.8 million to the Department of Public Institutions.

Exon also made a pitch for administrative flexibility within the budget document eventually approved by the Legislature.

"With tight budgeting, it seems to me, we have the obligation to grant some flexibility to our administrators, allowing them discretion in making the best possible use of tax funds if they are, indeed, to be held accountable," he said.

Primary Concern
The primary concern for all agencies is "the hand-cuffing of administrators with 'straight-jacket' salary schedules and inflexible programming," the governor said.

Executive Address
Exon's budget message was combined with the governor's customary executive address to the Legislature.

Since many of the governor's recommendations, including those for major spending agencies, had already been published, the address contained no surprises.

Only the details of his cigarette tax proposal were new for Exon had long since expressed a desire to capture most of the new funds for general state purposes.

"Some may not agree that preventing a general tax increase is a paramount consideration," the governor declared.

"I believe that the vast majority of Nebraskans do. I hope you will concur in that belief."

Exon Convinced
Even said he is "convinced that the necessary expenditures of this state can be met" under the limits imposed by a policy of holding 1973 tax rates at 1972 levels.

The governor invited the Legislature to join with him in accepting such a policy by adopting a resolution directed at holding sales and income tax rates at 2 1/2% and 15%.

Exon said such action would represent "realistic budgeting and taxation procedures."

His budget, he said, holds the line on taxes follows a policy of "caution in spending" and still meets "the genuine needs of Nebraska."

Ferguson Withdraws From Race

By The Associated Press
Don Ferguson of Lincoln withdrew Monday from the race for the Democratic nomination to the U.S. Senate.

In letters to supporters, he said "I do not believe in putting people through the efforts of a long and hard campaign which has no chance of securing the needed finances to win."

Ferguson, assistant to Lincoln School Supt. John Prasech, was one of six announced candidates for the Democratic nomination to the seat now held by Republican Sen. Carl Curtis.

Other bidders are State Sen. John DeCamp of Neligh, Mrs. Phyllis Lyons of McCook, Wallace Peterson of Lincoln, State Sen. Wayne Ziebarth of Wilcox and State Sen. Terry Carpenter of Scottsbluff.

'Devastating Effect'
Ferguson did not immediately throw his support to one of the other candidates, but said one reason for withdrawing was that with a large number of candidates, "it becomes more possible that a non-Democrat such as Terry Carpenter can become the nominee. In my opinion, nothing would have a more devastating effect on the party more quickly."

Carpenter has been at various times a Republican and a Democrat.

Ferguson suggested to his supporters that they defer a commitment to another candidate until mid-February. By that time Ferguson will make an endorsement of another candidate, he indicated.

Ferguson said he is offering to return contributions made to his campaign if the contributor desires, and estimated this might involve a maximum of \$2,000.

Interrelated Reasons
Ferguson said four interrelated reasons figured in his withdrawal decision.

"First, I have discovered anew the stark reality of campaign costs and the lack of funds for adequately running a campaign," he said. "Our estimate has consistently been that we could run a strong campaign on \$25,000, in addition to personal finances. In realistic discussions with party officials, close friends and campaign leadership we feel that raising \$6,000 is realistic. Adequate funds are essential to a candidate who has one major problem — name recognition. Name recognition is also essential to raising funds."

"Second, there are a large number of candidates and the prospect of more to enter the race. As the number increases, the ability to raise funds decreases and the unwillingness of individuals to give money becomes more obvious since such a small percent vote will win."

"Third, as the number grows it becomes more possible that a non-Democrat such as Terry Carpenter can become the nominee. In my opinion, nothing would have a more devastating effect on the party more quickly. I already has name recognition and a legislative session to boost his name. He already commands too much public attention for as little as he says. I am too loyal a democrat and too anxious that this state have new effective leadership in the Senate to contribute to this possibility. I personally hope that some of the other candidates who are obviously 'just running' will

assess this possibility with great care."

"Fourth, I have too much respect for the people who have agreed to get involved in this campaign to merely let them 'play' the game of politics. Without the reality of finances, there is little or no oil to make the machinery of the campaign run. This means that we merely put people through an exercise in futility which may increase my personal political base for the future, but have no value to them in terms of victory next May."

ADVERTISMENT

Revolutionizes Denture Wearing

The nearest thing to having your own teeth is possible now with a plastic cream discovery that actually holds both "uppers" and "lowers" as never before possible.

It's a revolutionary discovery called FIXONEXT for denture home use. (U.S. Pat. #3,603,988) With FIXONEXT many denture wearers may eat, speak, laugh, with little worry of dentures coming loose.

FIXONEXT forms an elastic membrane that helps absorb the shock of biting and chewing. You may bite harder, chew better, eat more naturally.

FIXONEXT may help you speak more clearly, be more at ease.

The special pencil-point dispenser lets you spot FIXONEXT with precision, where needed.

One application may last for hours. Dentures that fit are essential to health. See your dentist regularly. Get easy-to-use FIXONEXT Denture Adhesive Cream at all drug counters.

Programs, Appropriations Levels Are Proposed By Gov. Exon

In the first combined executive address and budget message to the Legislature, Gov. J. James Exon proposed both legislative programs and appropriations levels.

Among his legislative proposals:—reform of "grossly unfair" mental commitment statutes which "provide for apprehension and placement of citizens in our regional centers without the guarantee of due process."

—repeal of 1971 legislation increasing speed limits on state highways from 60 to 65 miles per hour during nighttime hours. After the limits were hiked, Exon said, Nebraska experienced a 46% increase in injury accidents and a 48% increase in fatal accidents compared with the same period the previous year.

—increased minimum sentences for deadly assault upon or murder of law enforcement officers and guards.

—speedy implementation of a model board control law to meet federal requirements.

—a phased approach to implement personal property tax exemptions.

—an election reform measure calling for "few and realistic proposals for reporting of campaign contributions and expenditures at the state level and the establishment of ceilings for such expenditures."

—legislative clarification of its intent in compensating the State Fair Board for land which will be used for construction of the proposed new University of Nebraska fieldhouse.

Bond Financing
The governor's budget message proposed short-term bond financing of the fieldhouse.

That could be accomplished, he said, with a 5 1/2-year installment purchase agreement or arrangements with the City

of Lincoln similar to those used to finance the new educational television and Game Commission facilities.

"Let me assure you that this proposal has the support of the Board of Regents, the university administration, the university athletic department and those groups advocating the fieldhouse construction," the governor said.

An advantage of that approach, Exon said, is that it allows construction of the fieldhouse beginning this year, "as opposed to waiting until necessary earmarked funds have accumulated for this purpose, as is required by law."

Waste Treatment
On another matter, the governor urged the Legislature to institute a program of necessary state funding for construction of municipal waste treatment facilities "based on the state guaranteeing its annual portion of payments in cooperation with our municipalities."

State funding is required to attract federal matching money, but Exon opposes a continuation of direct appropriations if the funds are to lie idle for long periods of time.

His budget, the governor said, accomplished a number of goals:

—improved quality of care for residents of state institutions.

—state support for educational television programming.

—new funding to assist local communities in fighting drug problems, and the addition of four drug investigators in the State Patrol.

—expanded rehabilitation programs at the Penal and Correctional Complex.

—increased appropriations for the University of Nebraska at Omaha aimed at moving toward "meeting the quality of instruction" at the Lincoln campuses.

—increased funding for vocational and junior colleges.

—continuation of state aid to public schools at \$35 million a year.

—funding for an additional assistant attorney general to assist the Department of Justice in "further coordinating law enforcement activities" against pornography and obscenity.

—state payment of unemployment compensation insurance for employees.

The governor's budget is based on a salary package which includes an average 4% wage hike accompanied by health and life insurance benefits which bring the total increase to an estimated 6 1/2% per employee.

Why Let Tension Make You Ill . . . and Rob You of Precious Sleep?

Do everyday tensions build up to the point where you find it hard to do your work? Where you have difficulty getting along with your friends . . . frequently "take it out" on your family . . . even feel ready to explode? It's true! Tension can actually make you ill.

Don't let this happen. First, see what B. T. Tablets can do for you. B. T. is so safe you don't even need a doctor's prescription. Yet each tablet contains tested ingredients that help you to relax during the day — help you to get the restful sleep you need at night. Try this trusted way to more peaceful living. Ask your druggist for B. T. Tablets — and relax!

Buy A Gas Air Conditioner Now

Get a Jacobsen Snow Thrower FREE (A \$129.95 Value)

When the snow falls this winter buy a great Gas air conditioner and get a Jacobsen Sno-Blitz snow thrower absolutely free. Winter is the best time to purchase a Gas air conditioning system for several very good reasons.

During the cold, blustery months, qualified personnel are free to give your home an especially thorough survey to determine the size of air conditioner it requires, install it, and have it ready for operation the first hot, sweltering day of summer '72. Then with just the turn of a dial you'll enjoy the comfort of a cool, clean, dehumidified, Gas air conditioned climate. And just for planning ahead for the summer, Cengas is giving away a free Jacobsen 17", auger-style Snow-Blitz snow thrower. It's a honey of a gas engine-driven machine that'll save you hours of back-breaking shoveling this winter. So make arrangements at your Cengas office now.

Gas Air Conditioner must be installed on Cengas lines.

cengas a new way to say service

Boy, would I ever like to have a Gas air conditioner and the Free Sno-Blitz. Please have someone contact me with more details. No obligation, I know.

Thomas At 'Practice', But Refuses Interviews
... REBELLIOUS HALFBACK

By ARTHUR DALEY
of The New York Times

New Orleans — When the sun finally burst through the clouds to flood the practice field of the Dallas Cowboys this morning, everything was warm and pleasant — except Duane Thomas. But at least the rebellious ball-carrying marvel condescended to make a personal appearance on the Super Bowl scene and all the Cowboy rooters sighed with relief because this was a definite plus.

All amateur psychologists, including his teammates, have stopped trying to understand the gifted Duane. He rebelled against the Cowboys in July, was traded to the New England Patriots, rebelled against them, was returned to Dallas as indigestible, reported after the season started and has since been his sensational self.

But last week he failed to show for practice and rumors flashed that Duane's vendetta against the world would cause him to boycott the Super Bowl. But he was back the next day, fined for his absence by Coach Tom Landry and reinstated. Now he is here, quick with everything but the conversation. He is a loner and doesn't appear to be especially civil even when he exchanges words with teammates.

This first day of Super Bowl week was a no-work talkathon for the press and photographers and the space cadets with their electronic gadgets. The Cowboys in the morning and the Miami Dolphins at noon. As the Dallas players drifted out from the clubhouse in full uniform, they were shunted into the five rows of a jury box of a grandstand where they could be plucked forth for interviews. The press corps kept waiting and waiting. No one said why but everyone knew. Would Thomas, the un-

communicative recluse, show up? If so, would he break his long silence?
Virtually all the Cowboys were on the field or in the stands when Duane emerged and climbed alone to the next to last row in the stands at the far end from where the other Dallas players were clustered. He sprawled out and glowered. One reporter eased alongside him. Then another joined them. A couple of questions were tossed up gently into the soft Louisiana air and Thomas let them float past.

"You were great last year, Duane," I said to him. "You were bright, lively, funny and talkative."
"I don't feel like being bothered now," he said with a note of grim finality.

"Did someone misquote you?" he was asked. "Has that caused you to clam up?"
"Whatever it is?" countered Duane.

Obviously it was time to leave. So Thomas, the loner, was left to sprawl in solitary majesty. No one else came near him and eventually he slipped away into the clubhouse, his task of winning friends and influencing people completed for the day.
While Duane snuffled silently in the little grandstand, his companion as a deep setback in the Dallas attacking platoon was chatting away with a group. He was Calvin Hill, a Yale man and house intellectual.

"I think it would be unfair to analyze Duane," said the cheerful Calvin, giving the impression that he had tried but wasn't too sure of his findings. "I never considered him unusual or untalkative. I found him cordial and warm. We've even discussed history and philosophy. That's more than you normally get during a discussion with a football player, most of whom prefer to

discuss the game or girls. I have not considered him a loner but close to a lot of the guys.
"Whatever it is?" countered Duane.

"I'm not in politics because I think it needs a special breed of animal and I just don't have the proper qualifications. When a man gets older, he realizes his limitations. I never can forget the time in the third or fourth grade when my teacher asked what I wanted to be when I grew up. 'The President of the United States,' I said. 'Impossible,' she said, explaining that a black had no chance. It was the first time I ever realized there was a difference and it was the low point of my life."

Some Do, Some Don't

From the time that David told sports writers attending the pre-flight weigh-in for his battle with Goliath, "The bigger they are, the harder they fall," athletes and coaches have been selling writers similar things.

Some, like David, have backed up their boasts with their actions on the playing fields or in the ring. Others have tripped over the words dribbling from their mouths.

Some athletes and coaches live under the theory of don't kick a sleeping dog while others don't mind telling you that you're going to get your brains beat out.

Perhaps the most famous of the latter ilk is Cassius Clay, now Muhammad Ali, who attracted a great deal of attention to boxing at a time when it needed some attention by boasting of his ring prowess, then proving it.

Joe Namath did it ahead of the New York Jets' Super Bowl win over the Baltimore Colts when he told writers the Jets would win and drew only laughter from his audience. But Joe came through.

There have been some, however, who have gone the other way. Take Michigan football coach Bo Schembechler, who lashed out at writers midway through the football season for not giving the Wolverines credit as the No. 1 team in the nation. That week they barely beat Purdue and later lost to Stanford. Bo hasn't been saying much lately.

Another who did the same thing was Penn State's Joe Paterno. After Joe had told the world why his team deserved to be No. 1, they proved why they weren't by losing to Tennessee.

Huskies Back Devaney Pitch

But not all pitches by coaches have gone unbacked by his players and perhaps the best example of the opposite to the Michigan and Penn State cases is the one at Nebraska.

A year ago as the 1970 season was drawing to a close, Nebraska head coach Bob Devaney got up on his soapbox and began trying to convince the public that his Huskers were No. 1.

If the Husker gridders had run true to Michigan and Penn State form, they'd have gone out the next week and fallen on their faces.

But instead they proved Devaney's faith in them was not ill-founded.

But that was not the first time a Nebraska team has backed on the field their coach's off-the-field remarks. There was the time back in 1966 when Nebraska sports information director Don Bryant preparing to leave for Colorado to do the advance publicity for the NU-CU game that year asked Devaney what he should be telling them in Colorado. "Tell 'em they'd better screw their helmets on tight because we're coming out," Devaney told Bryant.

When Colorado held a 19-7 fourth quarter lead that Saturday, it looked like the remark had backfired, but the Huskers pulled one of their miracle rallies for a 21-19 win.

Devaney Attitude Changing

There was a time in his early days at Nebraska when Devaney would lie awake shuddering all night after reading a boastful quote by one of his players.

However, the attitude toward such things has mellowed somewhat in recent years. For instance, he was kept awake only half the night a year ago when he read that his brash linebacker Jerry Murtaugh had said ahead of the Southern Cal game, "We're going to kick the hell out of them."

Even though the game wound up in a 21-21 deadlock, Murtaugh figured the Huskers accomplished what he said they would do.

And Devaney shuddered only briefly this season upon reading Rich Glover's boast that the Husker defense could stop any offense in the nation, including Oklahoma's.

When writers covering the Orange Bowl this year noticed a very confident air among the Husker gridders, they asked Devaney about it.

"I'm glad to hear that," was his reply. "It's rather comforting to know that they feel confident."

When it comes to putting their actions where their mouth is, some have and some haven't. David and the Huskers of recent years are in the former category.

Ragged Bluejays Dump San Diego Club, 77-62

By STEVE GILLISPIE
Star Sports Writer

Omaha — The long lay off over the holidays showed on Creighton's basketball team here Monday night.

The Bluejays, who haven't seen action since Dec. 23, played their most ragged game of the season but defeated San Diego University, 77-62, at Civic Auditorium. Creighton is now 7-4 for the season and 5-0 at home while the Toreros dropped to 4-8 and absorbed their third straight loss on the road.

Even though Creighton wasn't plagued by turnovers like San Diego, in other areas, the Jays made countless mistakes.

The game was never settled until mid-way in the last half when the score was 50-44. At that point, Creighton scored eight straight points, San Diego then managed only two points to have the Jays reel off another ten straight, putting the game out of reach at 68-52.

Up to that moment, the lead changed back-and-forth with neither team able to stay on top.

Turnovers really hurt the Toreros who committed twelve in the first half compared to two for Creighton. However, San Diego shot an amazing 76 per cent, 16-21, from the field in the first half to only trail by four points at the intermission.

On the other hand, Creighton only made 17 of 46 baskets in the first half but was able to convert the Torero turnovers into scores.

Balanced scoring again helped the Bluejays win as four

players finished in double figures despite the poor play. Schuyler sophomore Gene Harmon topped Creighton with 18 points. Al Lewis had 16, Ralph 10.

Stan Washington and Skip Laurie paced San Diego with 16 points each.

The Toreros' coach Bernie Bickerstaff admitted after the game turnovers were the difference in the contest.

"We only had one player who handled the pressure consistently and that really hurt us," he said.

"Creighton's defense was good because they gambled a lot and it paid off for them. We didn't have it at the end and when we got tired, the game was over," he noted.

Coach Eddie Sutton was not real disappointed in his Jays' efforts but said the team will have to improve in order to continue winning.

"We played well on offense in the first half but our shooting was off and our defense was poor," he said. "In the second half, our pressure on defense was good but our offense still didn't operate like it should."

Creighton's next game is Saturday at Southern Illinois.

New Freshman Rule Termed 'Lousy, Unrealistic'

... RETURN TO ONE-PLATOON FOOTBALL SAID ONLY WAY TO CUT COSTS

HOLLYWOOD, Fla. (AP) — Bill Meek, head football coach at the University of Utah, called a new rule permitting freshmen to play on varsity teams "lousy and unrealistic" Monday and said the only way to cut costs is a return to one platoon football.

"My colleagues won't like me for saying that," Meek predicted, and it wasn't long before he was proved right.

"That's ridiculous," snorted Bill Yeoman of Houston. "Why ruin the best game we've ever had?"

The National Collegiate Athletic Association, which met here last week, approved the use of freshmen for postseason and championship events but left it up to the conferences and individual schools whether to use first-year players during the regular season.

Many administrators feel they can cut costs somewhat by abolishing separate freshman programs.

"I'm doing the same things I did when we had one-platoon football," Meek said, "except it's a little more refined now. One-platoon football would mean that schools which now have 140 players on campus probably wouldn't need more than 100, saving money there. And you could cut coaching staffs from 12 or 13 down to about six."

"The only thing one-platoon football would mean is longer practices. We'd have to practice about 30 minutes longer each day because we'd be teaching kids to play both offense and defense. A lot of people say we have to retain two-platoon football to help the pros. The heck with the pros."

Meek and Yeoman are united, though, in

opposing the freshman rule, as are most of the major college coaches here this week or the American Football Coaches Association's annual meeting.

"You won't see any freshmen on the varsity at the University of Houston," Yeoman said, even though A. A. White, Houston's NCAA faculty representative, spoke in favor of the new rule last week.

"The administrators may think boys are more sophisticated these days, but when an 18-year-old is squeezed he reacts like an 18-year-old. Maiming kids isn't part of our program and if you don't think an 18-year-old boy is going to come unglued playing against older people who have had a year or two or more of organized conditioning and weight programs, you're wrong."

Pepper Rodgers of UCLA thought the

freshman rule might "help the have-nots with some depth" and Meek said it might force some freshmen to turn to the junior colleges.

"Kids know they're eligible to play as freshmen," Meek said. "But instead of playing first team or second-string on a freshman squad, they'll wind up fifth- or sixth-string on the varsity. A lot of them will leave for the junior colleges."

"Can you imagine a freshman making the varsity at Nebraska or Oklahoma? Only one freshman in a hundred can probably make a varsity team, except for a kicking specialist or an occasional running back, where so much depends on natural ability."

"This rule was crammed down our throats by people who've never done any coaching or recruiting."

HUSKERS DOWN OKLAHOMA

Jura Hits 28 To Spark NU

... NEBRASKA LEADS LEAGUE

By MARK GORDON
Star Sports Writer

For someone who is inching towards an individual record, Chuck Jura is still cognizant of team performance.

"We're getting our momentum going now," he said, "If we get past Colorado then we'll be 3-0 and in the driver's seat."

Jura had just scored 28 points to propel him into fifth place among all-time Nebraska scorers as the Huskers tripped Oklahoma, 77-70, Monday night in the Coliseum. Both Big Eight basketball teams were 10 and tied for the league lead going into the game.

The 6-10 senior from Schuyler, who also grabbed a game high 19 rebounds, had deposited 992 points and needs just 65 to surpass Herschell Turner in fourth place. Jura supplanted Tom Scantlebury (with 969 points).

"I didn't even know that (earning the fifth scoring slot)," Jura shrugged. "But it was my best offensive game."

Both Jura and NU coach Joe Cipriano credited NU's first-half performance as the best 20 minutes the Huskers have produced this season.

"The first half (when NU constructed a 38-27 cushion) was as good a defensive game as we've played this year," Cipriano said. "But we'd be an even better club if we could get those free throws down."

In fact, NU's field goal accuracy mark (55.6 per cent) topped its free throw totals of 50 per cent (17 of 34).

And missing those free throw opportunities provided the Sooners with the impetus to chop into Nebraska's second-half lead.

When the Huskers built their largest lead of the contest at 16 points with 13:57 remaining, OU began rallying. The Norman crew cut the margin to 72-66 with 1:02 by transforming missed NU free throws into OU baskets.

But a driving layup by reserve guard Tom Gregory who received a perfect feed from senior forward Tom Bryan with 59 seconds left erased OU comeback hopes.

"Bryan makes a big difference in our lineup — he's doing a good job and gives us the board strength," Cipriano said of the Fort Recovery, Ohio, product who scored 12 points and retrieved an equal number of rebounds.

Cipriano termed "tiredness" as the key factor for the OU spurge in the last nine minutes.

"We missed a lot of easy baskets during that span," he added. "We played Saturday night (a 7553 win over Oklahoma State) and we played so hard tonight — we just played our hearts out tonight."

In praising Jura, Cipriano said the Huskers were feeding the ball to the postman with perfection.

"Not only are we doing a good job getting the ball to the postman, but Jura is making the move to the basket," Cipriano said.

Junior guard Tony Riehl sustained a sprained right ankle after crashing to the floor with 10 minutes remaining in the first half after scoring a layup.

The other reserve who Peterson indicated should see a lot of action is Dean DeBoer, a sophomore who was the leading scorer on the freshman team last year.

Peterson will start Reidell Lintz and Lyle Hiatt at guards, John Strain and Dick French at forwards and Mike Renken at center. The quintet has been averaging in double figures and Renken is almost averaging 20 rebounds a game.

He was taken to the University's Student Health Center for x-rays and then returned to watch the last 10 minutes.

"They told me I stretched the ligaments across the ankle bone," he said. "I'll probably take the next couple of days off but I'll be ready for Colorado."

Termining the mishap a freak accident, Riehl said he would stay at the health center Monday night.

Nebraska returns to Big Eight conference action in a 2:15 p.m. Saturday encounter against Colorado in the Coliseum.

Bellevue, Wesleyan To Tangle

NEBRASKA (77) ...

By STEVE GILLISPIE
Star Sports Writer

Nebraska Wesleyan's basketball team should get back on the winning track when Bellevue invades the Ira J. Taylor Gym Tuesday night for a 7:30 tipoff.

The Bellevue team is 1-12 this season while the Plainsmen are 5-7. However, Bellevue has given some good teams a tough time before being beaten.

Undefeated and ranked Marymount, Kan., College was pressed to beat Bellevue on its home court in Salina. And Bellevue almost upset Concordia at Seward.

Coach Irv Peterson feels he now has found some bench strength for NWU.

Senior Bob Beecham, who only came out in late December, had his best effort in Wesleyan's last game.

Beecham scored 12 points and helped the Plainsmen out on the boards.

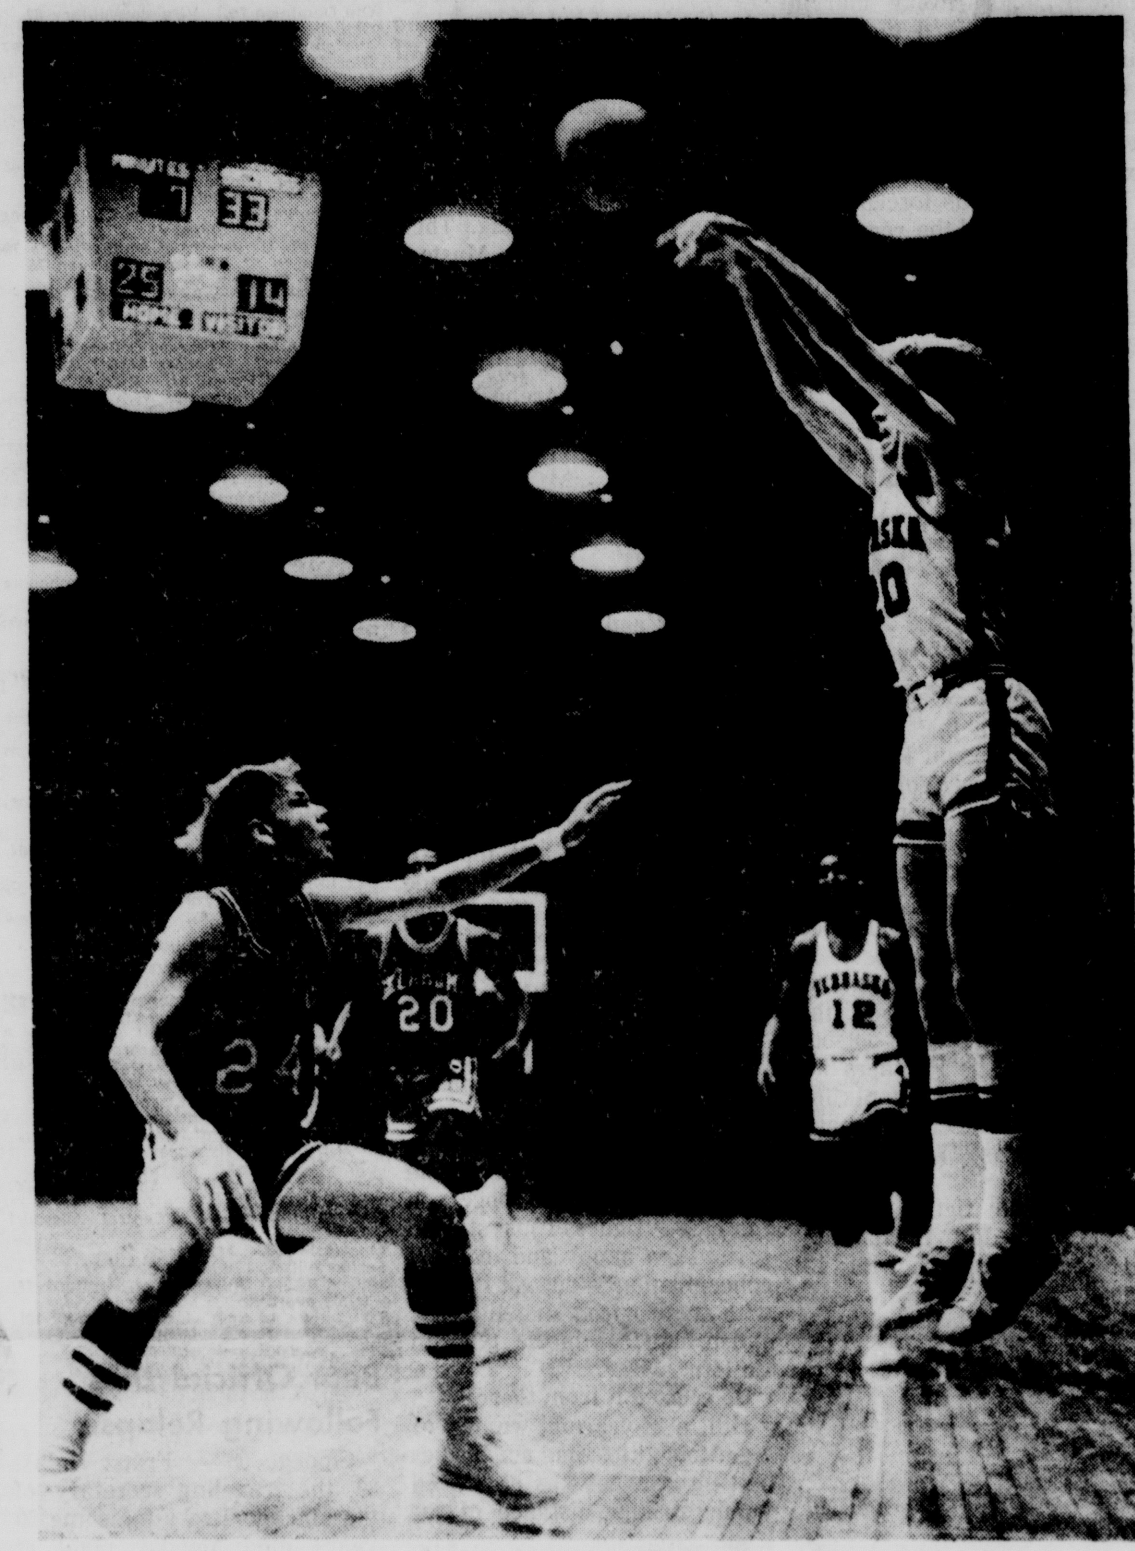

The 6-10 Palmyra native spend the first semester in Washington, D.C., for study and was unable to come out until he returned to Lincoln.

Another reserve who has pleased Peterson when called upon is Charlie Rine. Rine has spelled the starters at guard and done a good job of handling the ball.

The other reserve who Peterson indicated should see a lot of action is Dean DeBoer, a sophomore who was the leading scorer on the freshman team last year.

Peterson will start Reidell Lintz and Lyle Hiatt at guards, John Strain and Dick French at forwards and Mike Renken at center. The quintet has been averaging in double figures and Renken is almost averaging 20 rebounds a game.

Bellevue (1-12) Pos. NWU (5-7)
Meints (5-11) Lintz (5-9)
Dylan (6-4) Hiatt (6-4)
Chial (6-4) Strain (6-5)
Paul (6-3) Renken (6-5)
Cedwell (6-11) French (6-3)
Tipoff: 7:30 p.m., Ira Taylor Gym, 53rd & Huntington.

AL NISSEN ... Shoots jumper as Oklahoma's Scott Martin (24) and Andrew Pettes (20) and Husker Lee Harris (12) watch.

Fairbury, David City Top B, C Ratings

... COZAD DRAWS NO. 2 SPOT IN B

By VIRGIL PARKER
Prep Sports Writer

Defending Class B state champion Fairbury, sailing along at an even brisker pace than a year ago, and once-beaten Class C David City head the two divisions for the initial high school top ten basketball ratings.

While Fairbury, second-ranked Cozad and No. 7 rated Randolph are the only unbeaten clubs among the 64 teams in Class B, the 128-school Class C has eight quintets with unblemished marks. One, North Loup-Scotia, is unbeaten after seven outings, yet fails to make the Class C top ten.

Fairbury is closely pressed by Cozad, which also sports a perfect 9-0 mark, for the Class B honors. The two tangled for the state title last March, and may be headed for a rematch. Fairbury took the crown with a narrow 65-64 victory.

If (or when) Fairbury and Cozad ever lose, the Class B top ten may be in for quite a shakeup.

Though No. 3 Alliance has lost twice, both defeats came at the hands of Class A clubs. But

among the other rated teams, games against Fairbury or Cozad figure heavily. No. 4 Crete has lost both of its games to Fairbury and No. 6 Waverly also lost to the Jeffs.

No. 5 Omaha Cathedral, sixth-ranked Grand Island Central Catholic and No. 9 Sidney have each lost to Cozad.

David City, despite its one loss, gains the nod over the unbeaten clubs in Class C for top honors.

The Scouts, who have played six of their seven games against good Class B competition, have lost only to the aforementioned Crete club (No. 4 in Class B.)

Super-strong Norfolk Catholic, with nine straight wins, rates the runnerup role in Class C, with once-beaten Milford — to a fine Class B Omaha Paul VI club — gaining the nod for third.

Class B
1—Fairbury (9-0)
2—Cozad (9-0)
3—Alliance (6-2)

Archer Wins LA Open As Hill, Aaron Fall

FIVE-UNDER-PAR

Los Angeles (AP) — George Archer made six birdies en route to a 66 and a two-stroke victory over Dave Hill and Tommy Aaron Monday in their 18-hole playoff for the Glen Campbell-Los Angeles Open title, but the big guy said two tough pars were the key to his triumph.

"If I don't make pars there, it could have been an entirely different ball game," Archer said.

"But if you shoot 66, well, you should win, shouldn't you?"

Nash Play Benefits Concordia

By STEVE GILLISPIE
Star Sports Writer

Concordia Teachers College's basketball fortunes have taken a turn for the better with the addition of Fred Nash.

The 6-5 Nash transferred from Concordia Junior College in Milwaukee, Wis., last fall but didn't have enough hours to be eligible until second semester. Since joining the Bulldogs of Seward he has become the top scorer and rebounder.

"Fred has already exceeded our expectations and has really helped the team," says Concordia coach Bob Baden.

"He is one of the best one-on-one players we've had but it has been somewhat difficult having him adjust to our style of play and to his individual style. However, that period of adjustment is over and Fred blends in with the team real well," Baden continued.

Nash has helped the club turn around this season compared to last.

"Last season we lost nine games by six points or less," Baden pointed out. "But this year we've won four games by four points or less."

"So far this has been the difference between a good and bad season," he said.

In addition Concordia has put together a three-game winning streak, which has not been duplicated since 1966 Baden noted. But the Bulldog mentor says his team is still too inconsistent.

"We've been up and down all season from one game to the next," he said.

"We'll get way ahead in a game, then relax too much and all of a sudden we'll be behind. So far we've been able to pull most of the games out but we've got to improve if we're to do anything in the conference this year," Baden concluded.

Baden has set a goal of at least breaking even in the Nebraska Intercollegiate Athletic Conference but that includes winning on the road.

"The conference will be real tough because every team has improved and there is more overall balance," Baden said. "We hope by the time we get to our conference play, we are playing better ball."

Concordia will swing into Colorado for a road trip this week and will face some stiff competition from Colorado College and Adams State.

"This trip should do us a lot of good if we can play consistent and good ball but if we don't, it'll be a long way back home," Baden said.

SWC Approves Frash Eligibility

Dallas (AP) — The Southwest Conference has voted to permit freshmen to play varsity football and basketball beginning this fall, Conference Secretary Howard Grubbs said Monday.

"We voted last Friday to permit freshmen to play contingent on approval in the NCAA convention," Grubbs said. The NCAA approval came Saturday.

The 6-foot-6 Archer, a one-time ranch hand from Gilroy, Calif., picked up \$25,000 for his ninth tour title, while Hill and Aaron, each a four-tested 34-year-old veteran, won \$11,575 each from the total purse of \$125,000.

Each had a three-under-par 63 in the playoff on the 6,823-yard Rancho Park course.

The keys, said Archer, were on the fourth-fifth and the par-third 17th.

Archer led by one stroke when he hit a terrible drive on the fifth, had to play his second down an adjacent fairway and then still had 160 yards to the pin. He played it up to 15 feet and made the par putt.

He clinched it on the 17th. Holding a two-stroke margin Big George missed the green far to the left and faced with a tricky, delicate chip over a knoll to a sloping green. He deftly punched a seven iron to six feet and had the victory.

The playoff was forced when all three finished the regulation 72 holes Sunday tied at 270, 14 under par. Archer and Hill each had a fourth round 66 and Aaron a 69.

Archer had birdied the final

NU Frosh Slip Past York JC

Kent Reckewey scored 21 points to lead the Nebraska freshmen basketball team to a 63-60 triumph over York Junior College Monday night at the NU Coliseum.

The Panthers boosted coach Moe Iba's Huskers to a 3-0 record while the loss dropped the Panthers to 2-3.

Although Nebraska hit five more free throws than the visitors, York actually outshot the Huskers. The Panthers hit 18 of 54 field goal attempts for a 33.3 per cent accuracy mark compared to just 17 of 54 for a 31.5 percentage for NU.

Other double figure scorers for NU were Jud Martin and Jim Goodrich, each with 13 points.

Randall Is Speaker
Mike Randall, an instructor in black literature at the University of Nebraska, will address a meeting of the Urban League Guild at 5 p.m. Sunday at the Malene Center.

CODY-Eugene, 46, Tacoma, Wash., died Saturday. Former Lincoln resident. Survivors: wife, Patricia; daughters, Margaret S., Mary Jo, Michelle, all at home; mother, Mrs. Stacia Cody, Tacoma; brother, Edward, California; sister, Mrs. James (Marjorie) Stockwell, Tacoma.
Services: Mass 9 a.m. Tuesday, St. Ann's Catholic, Tacoma. Burial Calvary Cemetery, Tacoma.

'Drain America First' ... Oil Policy Hit

Washington (UPI) - Two former federal advisers charged Monday that the government pursues a "drain America first" oil policy which costs the average family \$100 a year and eventually will make the nation dependent on Arabian petroleum.
Severe criticism of the 12-year-old oil import quota system, which restricts the flow of foreign oil into this country to spur domestic exploration of U.S. oilfields, came before a subcommittee of the House-Senate Economic Committee.

The witnesses were Richard B. Maucke, a University of Michigan professor who worked with the Nixon Cabinet committee whose recommendation to relax quotas was rejected by the President, and S. David Freeman, a Johnson administration appointee who served until last September as director of the energy policy staff of the White House Office of Science and Technology.
Freeman said the quota system has not worked. Instead, he said, it has led the oil industry to "skim the cream" off domestic oilfields, meaning the United States will have to turn to foreign sources in the future because domestic sources of cheap, easily accessible oil will have been exhausted.

The witnesses contended oil quotas raise fuel prices by \$5 billion a year - an average of \$100 per family - since foreign oil is cheaper.
Tax advantages given the industry cost the U.S. Treasury another \$4 billion a year, said Thomas Field, director of a tax reform group called "Taxation with Representation."

Rebuttal Chance
The administration and the petroleum industry will have a chance to rebut those charges Wednesday when testimony is taken from the Interior and Justice Departments and the institute.

"Our policy appears to be 'drain America first,'" Freeman told the subcommittee.
"The federal government's import program is an insurance policy for each American consumer which costs him 2 or 3 cents a gallon on his gasoline and fuel oil bills to protect him against shortages" by spurring domestic development, he said.

"But if the time ever comes when the consumer needs to cash in his policy, I am afraid he will find that the oil bank is broke" because domestic oil will not be easily available, he said.
By sharply limiting imports from Canada and Venezuela, he said, this country retards development of multibillion-barrel oil sources in friendly, neighboring countries.

So in a time of war or shortage, when the nation must finally turn abroad for oil, it will be at the mercy of the Arab states, he said, and they will be able to raise prices or choke off supplies at will.
"It would be difficult to dream up a program that served the public interest so poorly," he said.
A defense of the quota system came from Republican Sen. Ted Stevens of Alaska, who is pressing for full-speed development of Alaska's vast new oil fields.

"Certainly, with no protection whatsoever from imports," Stevens said, "The domestic industry would not be able to explore adequately the remaining areas of promise in the United States."

DESIGNER OF COKE BOTTLE DIES AT AGE 81

(c) Chicago Daily News
Chicago - Services for Earl R. Dean, 81, designer of the Coca-Cola bottle, will be held Tuesday in Terre Haute, Ind.
Mr. Dean, of Clarendon Hills, Ill., died Saturday in Hinsdale (Ill.) Hospital. He designed the famous bottle in 1915 while working for the Root Glass Co. in Terre Haute. The distinctive bottle was tailored so that Coca-Cola could be identified by the bottle alone.

Thomas At 'Practice', But Refuses Interviews

... REBELLIOUS HALFBACK

By ARTHUR DALEY
The New York Times

New Orleans — When the sun finally burst through the clouds to flood the practice field of the Dallas Cowboys this morning, everything was warm and pleasant — except Duane Thomas. But at least the rebellious ball-carrying marvel condescended to make a personal appearance on the Super Bowl scene and all the Cowboy rooters sighed with relief because this was a definite plus.

All amateur psychologists, including his teammates, have stopped trying to understand the gifted Duane. He rebelled against the Cowboys in July, was traded to the New England Patriots, rebelled against them, was returned to Dallas as indigestible, reported after the season started and has since been his sensational self.

But last week he failed to show for practice and rumors flashed that Duane's vendetta against the world would cause him to boycott the Super Bowl. But he was back the next day, fined for his absence by Coach Tom Landry and reinstated. Now he is here, quick with everything but the conversation. He is a loner and doesn't appear to be especially civil even when he exchanges words with teammates.

This first day of Super Bowl week was a no-work talkathon for the press and photographers and the space cadets with their electronic gadgets, the Cowboys in the morning and the Miami Dolphins at noon. As the Dallas players drifted out from the clubhouse in full uniform, they were shunted into the five rows of a jury box of a grandstand where they could be plucked forth for interviews. The press corps kept waiting and waiting. No one said why but everyone knew. Would Thomas, the un-

communicative recluse, show up? If so, would he break his long silence?

Virtually all the Cowboys were on the field or in the stands when Duane emerged and climbed alone to the next to last row in the stands at the far end from where the other Dallas players were clustered. He sprawled out and glowered. One reporter eased alongside him. Then another joined them. A couple of questions were tossed up gently into the soft Louisiana air and Thomas let them float past.

"You were great last year, Duane," I said to him. "You were bright, lively, funny and talkative."

"I don't feel like being bothered now," he said with a note of grim finality.

"Did someone misquote you?" he was asked. "Has that caused you to clam up?"

"What time is it?" countered Duane.

Obviously it was time to leave. So Thomas, the loner, was left to sprawl in solitary majesty. No one else came near him and eventually he slipped away into the clubhouse, his task of winning friends and influencing people completed for the day.

While Duane smoldered silently in the little grandstand, his companion as a deep setback in the Dallas attacking platoon was chatting away with a group. He was Calvin Hill, a Yale man and house intellectual.

"I think it would be unfair to analyze Duane," said the cheerful Calvyn, giving the impression that he had tried but wasn't too sure of his findings. "I never considered him unusual or untalkative. I found him cordial and warm. We've even discussed history and philosophy. That's more than you normally get during a discussion with a football player, most of whom prefer to

discuss the game or girls. I have not considered him a loner but close to a lot of the guys.

"What does closeness mean to a football team? I've read in the New Orleans papers that the Saint players are closely knit. But they lose a lot. The Cowboys are considered close and much stress is placed on the importance of how well we mesh. But when you win, even the water boy is great.

"When you come right down to it, you can't take a group of men from every corner and section of the country, from all political beliefs, from differing economic backgrounds and have them weld into instant togetherness. If a conservative Republican throws the block that springs me loose for a touchdown, I like him immensely. And I'm not a conservative Republican. Hey, how did I ever get into discussing politics?"

"I'm not in politics because I think it needs a special breed of animal and I just don't have the proper qualifications. When a man gets older, he realizes his limitations. I never can forget the time in the third or fourth grade when my teacher asked what I wanted to be when I grew up. 'The President of the United States,' I said. 'Impossible,' she said, explaining that a black had no chance. It was the first time I ever realized there was a difference and it was the low point of my life."

Bonehead Trophy To Nixon

DALLAS (AP) — The Dallas Bonehead Club is presenting its annual "Bonehead of the Year" trophy to President Nixon after he slipped Miami Coach Don Shula a play that Nixon thinks will work against the Dallas Cowboys Sunday in the Super Bowl.

The trophy, said a spokesman Monday, "is presented each year to the person or institution that has endeared themselves to the sports-minded public by their desire to participate and lose."

Last year's winner was Tom Dempsey, then with the New Orleans Saints, for a game-winning, record field goal that took New Orleans out of the cellar—and lost its first pick in the pro draft.

The club performs such civic acts as closing new expressways before they are opened and hunting lost leases for stores that advertise "We've lost our lease and must move."

The play Nixon recommended is a down-and-in pass, Bob Griese-to-Paul Warfield. Gov. Preston Smith of Texas countered with two plays which he sent coach Tom Landry of the Dallas Cowboys. Smith thinks so much of his plays that he refuses to make them public.

The Bonehead Club was organized April Fool's Day 1919 and is composed of business, professional and civic leaders, all of whom are club vice presidents.

The club telegraphed Nixon: "Without considering the options, you let your heart rule your better judgment and remembering Custer, picked the Redskins to whip the Cowboys. Dallas won over Washington in a crucial game this season. Still undaunted, you set out to become a coach for the Miami Dolphins."

The trophy, which rests permanently with the Boneheads, is described as a beautiful walnut and silver creation, topped by a large silver nut.

The presentation, probably in absentia, will be Friday.

MR. TWEEDY by Ned Riddle

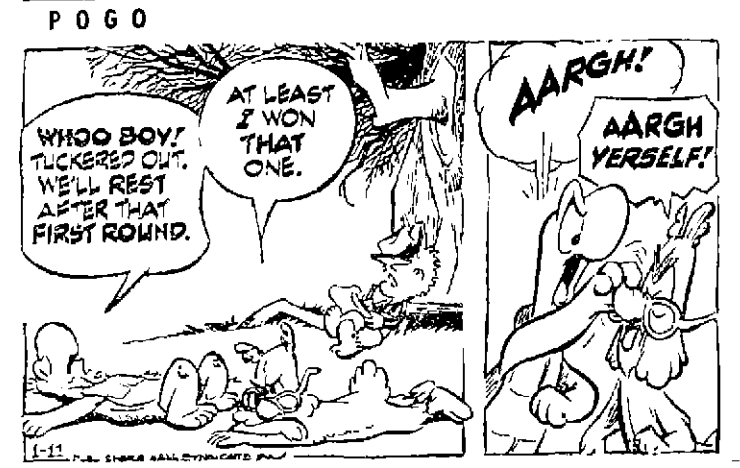

"Uncle Leonard, read that part again where the monster comes down out of the attic and strangles the man reading the book."

BOB + DORIS

"He's truly man's best friend -- I haven't had to eat any 'leftovers' since I got him."

POGO

WHOO BOY! TUCKERED OUT. WELL REST AFTER THAT FIRST ROUND.

AT LEAST I WON THAT ONE.

AARGH!

AARGH! YERSELF!

THE HEART OF JULIET JONES

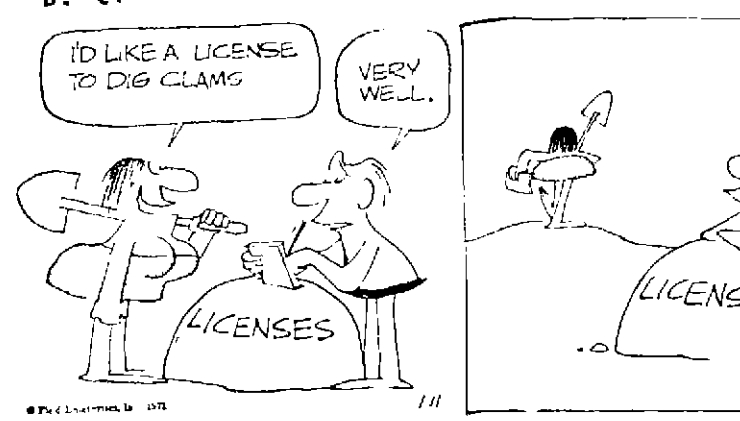

MANY OF YOU COLLEGE STUDENTS ARE TRYING TO FIND OUT WHO YOU ARE!!!

AT THE STATE COLLEGE THEY CONFUSE YOU WITH NIETZSCHE, JUNG OR HESS!!!

AT MY SID SMITH FREE UNIVERSITY I ELIMINATE THAT CONFUSION!!!

I HELP YOU FIND OUT WHO YOU ARE THROUGH GENEALOGY!!!

B. C.

I'D LIKE A LICENSE TO DIG CLAMS.

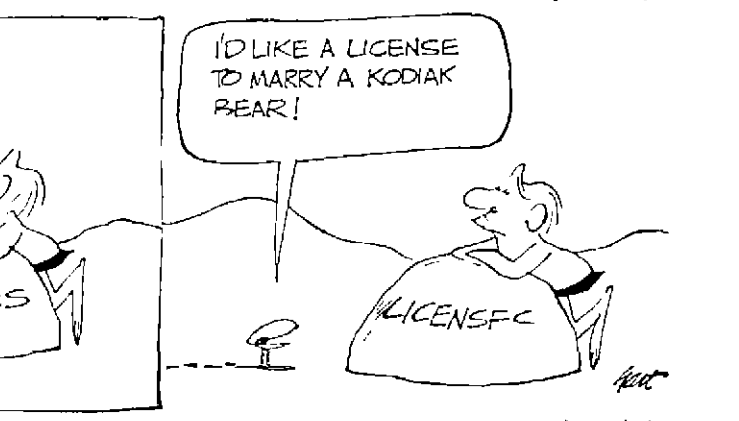

VERY WELL.

LICENSES

LICENSES

LICENSES

MARY WORTH

THIS IS A BIG CITY... AND HOLDING UP SOMEWHERE IS MY "DAUGHTER'S" MOTHER, AND... AND HER FATHER?

HOW DO WE LOCATE HER--AND HIM, MR. CANTRELL?

WE DON'T FIND THEM--

THEY FIND US.

THE JACKSON TWINS

THIS WIG SOFTENED THE BLOW.

BUT SHE'S PASSED OUT AGAIN? I THINK SHE NEEDS A DOCTOR?

NO, JENNY, WE WILL CONCENTRATE ON HER SALVATION.

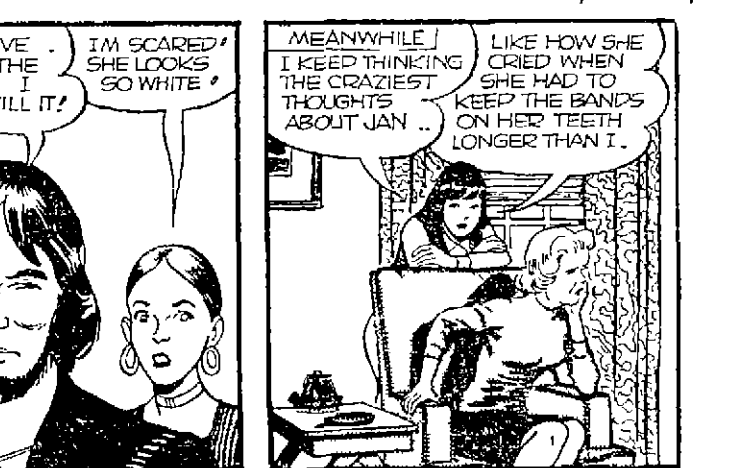

SHE'LL LIVE TO JOIN THE FAMILY, I ADAM, WILL IT?

I'M SCARED! SHE LOOKS SO WHITE!

MEANWHILE, I KEEP THINKING THE CRAZIEST THOUGHTS ABOUT JAN.

LIKE HOW SHE CRIED WHEN SHE HAD TO KEEP THE BANDS ON HER TEETH LONGER THAN I.

MARY WORTH

YOU SAY YOUR ROOMMATE WORKS IN A DRESS SHOP? I WOULDN'T THINK YOU'D HAVE MUCH IN COMMON?

EVEN A LATIN TEACHER CAN BE INTERESTED IN CLOTHES, DR. DOUGLAS!

AND SHIRLEY IS VERY POPULAR WITH MEN! I SUPPOSE I GET A CERTAIN VICARIOUS EXCITEMENT FROM HER... UH... EXPERIENCES!

FURNISHED ROOMS FOR RENT

MRS. CAIN, I HAVE A GENTLEMAN HERE WHO WOULD LIKE TO SEE YOUR FRONT BEDROOM THAT IS--IF YOU...

I HAVEN'T PAINTED IT YET, MISS SHANNON! BUT I DON'T KNOW IF--

WELL, COME ON IN! I'LL SHOW IT TO YOU ANYHOW!

RIP KIRBY

HURRAH! THE COMBINATION NUMBERS THEA GAVE ME WORKED THIS TIME! NOW TO FIND THAT FALSE CONFESION AUNT FORCED FROM TED.

...AND THERE GOES AUNT'S HOLD OVER THEA, SHE'S FREE FOREVER NOW!

BEETLE BAILEY

BOY, THERES A DRAFT IN HERE TODAY

I'LL GET A STIFF NECK FOR SURE!

I WISH I HAD A SCARF, OR A...UM...

WELL, WHAT ARE YOU STARING AT?!

NOTHING, SR... NOTHING!

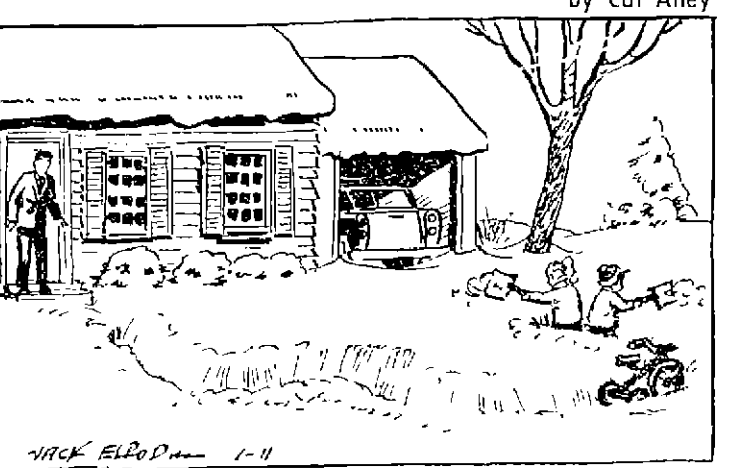

THE RYATTS

I'LL NEVER GET THE CAR OUT WITHOUT SHOVELING SNOW OFF THE DRIVE!

DON'T WORRY, DADDY, WE'LL DO IT WHILE YOU EAT BREAKFAST!

DONALD DUCK

WHERE ARE YOU GOING, FRIEND?

WHERE ARE YOU GOING, BROTHER?

ER...CENTERVILLE, BOB!

...EN...TATS...ERE... I'M GOING, PA!

DID YOU KNOW THIS? IT'S A FACT:

The population of metropolitan Paris stands at 7 million and is expected to top 12 million by 1980.

Thirly days before he sighted the new world, Columbus encountered the "Sargasso," a great sea "covered thickly with vegetation resembling small branches."

A 3500-year-old harp was found in the tomb of Pharaoh Tutankhamen.

Magic Mountain at Londonderry, Vt., has a two mile double chair lift for skiers.

Three hundred mergers took place in West Germany in 1970 compared with 166 in 1969.

Critics of the yak call them clumsy, mean and dangerous. Others say they are docile and carry heavy loads willingly.

Here is a practical little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is six or more, subtract 4. If the number is less than 6, add three. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers left to right. Then read the message the letters under the checked figures give you.
